some made of wood, some of metal. They don't entirely trust her, and she doesn't entirely understand them, but their partnership mostly works. ## **Touch If You Dare**

"Uncle Clive was talking and crying in his sleep again: 'Snowdrop, ' he sobbed. 'It's waking up!'" October 1979: Sent away from home after a mysterious incident at school, Daniel Edwards knows something is wrong the moment he arrives at his uncle's house in Eversley. It's not just the eerie deadness of the suburban streets - it's Uncle Clive's odd questions, the overwhelming dread Daniel feels when he looks at the tall oak trees in the garden, and the stranger at a railway station who insists she knows him. He wanders the streets to escape from the house, and finds a large woodland in their midst - an ancient idyll, where he meets a beautiful young woman who pleads for his help. Has Daniel been brought here for some reason he hasn't been told? How real are his feelings for the girl? And why is Uncle Clive so interested in the incident that led to him being here in the first place? The answers lie in the notebooks of Sylvia Critchlow, the local doctor in 1944, when Eversley was just a village, and something malevolent came to that remote community. *The Girl in Wilderness Wood* is a supernatural mystery, told between two time frames to unravel the darkest of enigmas.

Having no other choices in life, he agrees. After breakfast, Lydia leads the boy to a “top secret” underground labyrinth located underneath the city, where expert thief-training grounds were built five centuries earlier. This book is an in-depth examination of the much needed process of "self" study known as self observation. We live in an age where the "attention function" in the brain has been badly damaged by TV and computers-up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth's atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Selfobservation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self-observation, and none with the depth of analysis, wealth of explication, and richness of experience which this book offers. Red Hawk, author of 5 collections of poetry, was the Hodder Fellow at Princeton University (1992-93) and is currently a full professor at the University of Arkansas, Monticello. He has practiced self-observation for over 30 years, under the guidance of the Gurdjieff Society of Arkansas, meditation master Osho Rajneesh, and spiritual teacher, Lee Lozowick.

## **Untapped**

The myths—and reality—behind the state of Israel In this groundbreaking book, published on the fiftieth anniversary of the Occupation, the outspoken and radical Israeli historian Ilan Pappé examines the most contested ideas concerning the origins and identity of the contemporary state of Israel. The “ten myths” that Pappé explores—repeated endlessly in the media, enforced by the military, accepted without question by the world’s governments—reinforce the regional status quo. He explores the claim that Palestine was an empty land at the time of the Balfour Declaration, as well as the formation of Zionism and its role in the early decades of nation building. He asks whether the Palestinians voluntarily left their homeland in 1948, and whether June 1967 was a war of “no choice.” Turning to the myths surrounding the failures of the Camp David Accords and the official reasons for the attacks on Gaza, Pappé explains why the two-state solution is no longer viable.
