## **Motorcycle Electrical Systems**

A motorcycle's electrical system can be daunting to even the most adept home mechanic. And yet, the more complex these systems become—and the more important to a motorcycle's function—the more useful, even critical, it will be to know something about them. That's where this book comes in with a user-friendly guide to understanding, diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle's electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.

Hannah's list: Ghosts are cold to the touch. Being tied up isn't much fun. And danger is a sure-fire prescription for amazing sex! When Hannah Campbell attends a memorial service for the neurosurgeon who once saved her life, the last thing she expects is a lightning strike that knocks her out cold and blasts her lungs full of the departed's ashes. Things only get

weirder when she wakes up to find the deceased standing over her hospital bed, insisting she help him track down the terrorists who blew up his plane. Professor Takeshi Shimodo doesn't know what to believe when smart-mouthed Hannah appears on his doorstep, claiming to be haunted by the ghost of his best friend. Yet she exhibits some extraordinary psychic abilities. And her determination to find justice for the crash victims, in spite of her fragile health, touches his heart. Takeshi's acupuncture techniques are meant to calm Hannah's erratic heartbeat, but the longer they are together, the more his magic fingers have the opposite effect. Soon, their passion flares hotter than any lightning strike. But now the terrorist they seek is hunting them. And the FBI is suspicious Hannah knows just a little too much. Without some "spiritual" help, they haven't a ghost of a chance. Warning, this title contains the following: explicit sex, graphic language and violence.

The 650th anniversary of the foundation of Wingfield College was the occasion for a special two-day symposium marking the culmination of a three-year UEA-funded research project into the college and castle. The building projects of the late medieval aristocracy focused on their homes and the monasteries, churches or chantry foundations under their patronage where their family were buried and commemorated. This commemoration allowed a visual celebration of their achievements, status and lineage, the scale and prestige of which reflected on the fortunes of the family as a whole. Wingfield is explored in the context of both the actual building of the castle, chantry chapel and the college, and that of the symbolic function of these as a demonstration of aristocratic status. The contributions to this book examine many topics which have hitherto been neglected, such as the archaeology of the castle, which had never been excavated, the complex history of the college's architecture, and the detailed study of the monuments in the church. The latest techniques are used to reconstruct the college and castle, with a DVD to demonstrate these. And the context of the

family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history, as soldiers, administrators and potential claimants to the throne.

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has

contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon,

Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the

success of “Sexual Healing”—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff’s clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You’ll Never Eat Lunch in this Town Again* of the music industry.

## **Just a Spoonful of Laughter Helps the Medicine Go Down**

Preserving New York is the largely unknown inspiring story of the origins of New York City’s nationally acclaimed landmarks law. The decades of struggle behind the law, its intellectual origins, the men and women who fought for it, the forces that shaped it, and the buildings lost and saved on the way to its ultimate passage, span from 1913 to 1965. Intended for the interested public as well as students of New York City history, architecture, and preservation itself, over 100 illustrations help reveal a history richer and more complex than the accepted myth that the landmarks law sprang from the wreckage of the great

Pennsylvania Station. Images include those by noted historic photographers as well as those from newspaper accounts of the time. Forgotten civic leaders such as Albert S. Bard and lost buildings including the Brokaw Mansions, are unveiled in an extensively researched narrative bringing this essential episode in New York's history to future generations tasked with protecting the city's landmarks. For the first time, the story of how New York won the right to protect its treasured buildings, neighborhoods and special places is brought together to enjoy, inform, and inspire all who love New York.
