The Dinosaur Book

A Log's Life

Grammar Galaxy: Nebula is a complete language arts curriculum for beginning readers. Short, comical stories teach concepts in a memorable way. Students discover the havoc that ensues when the evil Gremlin tampers with the English language. Fiction books are labeled as nonfiction and begin coming to life. A re-virus is introduced into the computer system causing things to be repeated endlessly. Rhyming poems and books are ruined when Word Harmony matches words that don't rhyme. The royal English children invite students to become fellow grammar guardians in order to save the galaxy from crises like these. Teachers read one of the mysteries to their students. Vocabulary words are defined in the text. Discussion questions follow each lesson to check for understanding. Grammar Galaxy: Nebula, the first in a series of language arts texts for first to sixth graders, teaches: *reading skill development *literary concepts *vocabulary *spelling *grammar *composition and *speaking Grammar Galaxy: Nebula is a great choice for homeschoolers, teachers, and parents: *Whose student has begun to read and write (use a good phonics and handwriting program first) *Who want their student

to have excellent reading, writing, and speaking skills *Who want their student to spend less time doing seatwork and more time reading and writing The workbook, the Grammar Galaxy Nebula Mission Manual (a separate purchase), enables guardians to complete important, enjoyable missions to reinforce the concepts.

Where would we be without conversation? Throughout history, conversations have allowed us to see different perspectives, build ideas, and solve problems. Conversations, particularly academic conversations push students to think and learn in lasting ways. Academic conversations are back-and-forth dialogues in which students focus on a topic and explore it by building, challenging, and negotiating relevant ideas. [The] authors have identified five core communication skills to help students hold productive academic conversations across content areas. These skills are: elaborating and clarifying, supporting ideas with evidence, building on and/or challenging ideas, paraphrasing and synthesizing. This books shows teachers how to weave the cultivation of academic conversation skills and conversations into current teaching approaches.

Standards-based Language Arts Curriculum

“This text does an exemplary job of presenting current early literacy research and methods in a manner that can be understood and respected. Also, its emphasis upon workshop-based instruction is very appealing to me as a long-time advocate for this approach to literacy.” –Scott A. L. Beck, Georgia Southern University The third edition of *Teaching Language and Literacy: Preschool Through the Elementary Grades* integrates a constructivist/emergent literacy perspective with science-based instructional practices. This unique focus on theories and techniques that have proven to be successful helps pre-service and in-service teachers

translate principles into classroom practice. Perfect for any course with a focus on language, the book covers the development and teaching of both oral and written language in preschool through elementary grades. Its emphasis on diversity includes special features that describe how teachers can adjust instruction to meet the needs of second-language and bilingual learners. In addition, the third edition focuses on scientifically-based reading research (SBRR) throughout, blending these findings with other perspectives in a “value added” approach to language and literacy teaching and learning. New features include:

- Emphasis on a blended approach to language and literacy instruction, including both authentic learning linked to activities and developmentally-appropriate teaching.
- Activities such as “Linking Knowledge to Practice” help students connect theory to practices they observe in preschool and kindergarten classrooms.
- In-depth coverage of new federal and state literacy initiatives, standardized literacy assessments, and latest practices in ongoing literacy assessment.

Teaching Language and Literacy

You've Decided to Homeschool, Now What?

Frank follows the motto, "Honesty is the best policy." He tells the truth, the whole

truth, and nothing but the truth. Frank never lies to his schoolmates, he always tells the truth to adults, and he's always honest with police officers. The balancing act of finding tact, that fine line between telling the truth and telling too much truth, is the main theme of this story, and it's very funny—although not necessarily to his friend Dotti whose freckles remind Frank of the Big Dipper, or to the teacher who hears that her breath smells like onions, or to the principal who is told that his toupee looks like a weasel. No one is quite as impressed with Frank's honesty as he thinks they should be. He is sweet and straightforward, and, well, very frank, but with everyone annoyed at him, Frank is now honestly unhappy. He decides to visit his confidante and pal, Grandpa Ernest, who has a history of frankness himself. With a few lessons from Grandpa, Frank begins to understand that the truth is important, but so is not being hurtful. With amusing characters and expressive artwork, this story tells the powerful message of finding the good in everything—a lesson that sends compassion and understanding to take the place of rudeness in the complex concept of truth.

As support for increased accountability of our schools continues to grow, linking curriculum to state-established standards has been identified as one of the most effective ways to improve the quality of education for students. Now, school and district-level administrators have a comprehensive, easy-to-use tool to assist in the development of K-12 language-arts curriculum that reflects an adherence to performance-based standards at the state and national levels. Grade by grade, Standards-Based K-12 Language Arts Curriculum provides both an instructional guide and a process approach to improving language-arts curriculum. It presents standards for each language arts strand--reading/literature, speaking/listening, and writing--in an easy-to-follow outline format. Both standards and skills are identified for each grade, to help you develop and communicate your own definitions of what is to be expected from students and educators. In addition, Scope and Sequence charts and other materials in the Appendix serve as useful aids in the implementation and assessment of effective language arts curriculum. For school- and district-level administrators.
