## **1993**

The Appalachian region stretches from Mississippi to New York, encompassing rural areas as well as cities from Birmingham to Pittsburgh. Though Appalachia's people are as diverse as its terrain, few other regions in America are as burdened with stereotypes. Author Frank X Walker coined the term "Affrilachia" to give identity and voice to people of African descent from this region and to highlight Appalachia's multicultural identity. This act inspired a group of gifted artists, the Affrilachian Poets, to begin working together and using their writing to defy persistent stereotypes of Appalachia as a racially and culturally homogenized region. After years of growth, honors, and accomplishments, the group is acknowledging its silver anniversary with *Black Bone*. Edited by two newer members of the Affrilachian Poets, Bianca Lynne Spriggs and Jeremy Paden, *Black Bone* is a beautiful collection of both new and classic work and features submissions from Frank X Walker, Nikky Finney, Gerald Coleman, Crystal Wilkinson, Kelly Norman Ellis, and many others. This illuminating and powerful collection is a testament to a groundbreaking group and its enduring legacy.

### **The land beyond the forest**

Selected by the Modern Library as one of the 100 best novels of all time Published in 1975, Ragtime changed our very concept of what a novel could be. An extraordinary tapestry, Ragtime captures the spirit of America in the era between the turn of the century and the First World War. The story opens in 1906 in New Rochelle, New York, at the home of an affluent American family. One lazy Sunday afternoon, the famous escape artist Harry Houdini swerves his car into a telephone pole outside their house. And almost magically, the line between fantasy and historical fact, between real and imaginary characters, disappears. Henry Ford, Emma Goldman, J. P. Morgan, Evelyn Nesbit, Sigmund Freud, and Emiliano Zapata slip in and out of the tale, crossing paths with

natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

### **Harness Horse**

In 1946 ominous clouds are gathering on the narrow horizon of Lupoia (Valley of the Wolves), a little village in Transylvania, where traditions, steeped in prejudice and superstition, have endured over many generations. The Second World War is over but the lives of the villagers are thrown into turmoil with the imposition of drastic, senseless changes by a new regime, intent on creating a new man for a new society. The newly-installed totalitarian government threatens to eliminate the Flonta family by declaring Teodor's father, Pavel, a chiabur - an 'enemy of the people'. Pavel is arrested, imprisoned and tortured. When the wave of persecutions reaches its peak, he is forced to live in hiding. A trade, learned by Pavel in his youth, unexpectedly becomes his salvation - the Russians, who are extracting uranium in the

Carpathians for their atomic bomb, hire him. There, at the mine, the tentacles of the Securitate – the secret police – cannot reach him. Stalin is still alive when Teodor starts school. Torn between two opposite worlds – home, where traditional values are preserved and love abounds – and school, where indoctrination and inequity prevail, he constantly questions and ponders the twisted logic behind events, sometimes with cheekiness and humour, as only a child is capable of doing under the circumstances. Events, however, affect Teodor deeply from an early age, as in the communist system the sins of the father – imaginary as they might be – are made to fall on his young son's shoulders. \*\*\* 'A Luminous Future offers a unique insight into one of the most disturbing periods of modern European history. By turns amusing, terrifying and confronting, the story of Teodor Flonta, his father, his family and his community, is both a valuable social document and an intriguing read.' Chris McLeod, Man of Water, Fremantle Arts Centre Press 'The author does a wonderful job combining the historical and the personal. The images and themes surrounding the wolves – both animal and human – are brilliant. One of the greatest things about this memoir is how the author balances the darkness and cruelty with pitch perfect humor. It is such a triumphant story in the face of seemingly insurmountable odds and I think readers will love this family and the spirit they show. It's funny and warm and heartbreaking – as life so often is.' Jayne Pupek, The Tomato Girl, Algonquin 'This is a charming and sometimes shocking portrait of growing up in a remote village in Romania during the Communist era. It is an intriguing portrayal of the

customs and traditions that lingered on from the pre-Communist days, humorous and brutal as they were, and their destruction at the hands of what seems a madness that gripped the country during the 1940s and 50s. It is also a testament to the resilience of the author's father who endured unimaginable pressures, humiliations and imprisonments for committing no crime other than employing a couple of men. Personally I find the story quite gripping, and clearly and vividly told, with a mass of illuminating detail. The characters come to life well, the author makes a good guide to this - to us - strange world, and conveys the politics in a lively but understated way.'

KING SOLOMONS SEAL consists of 63+ pieces, some short, some long, each a story, several containing stories within stories. There is a short introduction, TO THE READER, which informs us by whom it originated and is narrated, if neither the why nor how. There is also an AFTERWORDS, which in some ways puts Finis to these tale-tellings. The time of its narrations is about 1750-1820, the place a small house of study perched on a mountain in the eastern part of the Fatra Range in Carpathia, part of the Austro-Hungarian Empire during that century. The materials are diverse in nature, suggestion and purpose, although the reader may and should suppose them meant for us today, even if the language by which the tales are told is a pasticcio of assumed translation into English from some other language, one that relates perhaps to whatever may have been the Yiddish vernacular of those lost times in that faraway place. Some two or three of its fables have appeared in print. KING SOLOMONS SEAL, playful and mock-serious at once, is meant to entertain. It is a literary work, consisting of pseudo-fairy tales, pseudo-folk materials, legends and the like.

Vivienne Vermes' debut novel is a gripping read which will appeal to readers who enjoy historical fiction, thrillers and evocative themes. The book begins with a young woman found, emaciated and unconscious, in the mountains surrounding a village in Transylvania. When it is discovered that she is of an ethnic group which was violently driven out of the regions many years before, old wounds are reopened as the villagers are reminded of their role in the bloodshed. An uneasy peace is maintained until a young married man falls in love with the girl, and tension begins to rise within the community. The mysterious disappearance of a child causes this tension to mount into hysteria, driving the story to its chilling outcome.

Born into a Jewish ghetto in Hungary, as a child, Elie Wiesel was sent to the Nazi concentration camps at Auschwitz and Buchenwald. This is his account of that atrocity: the ever-increasing horrors he endured, the loss of his family and his struggle to survive in a world that stripped him of humanity, dignity and faith. Describing in simple terms the tragic murder of a people from a survivor's perspective, *Night* is among the most personal, intimate and poignant of all accounts of the Holocaust. A compelling consideration of the darkest side of human nature and the enduring power of hope, it remains one of the most important works of the twentieth century. New translation by Marion Wiesel, with a new introduction by Elie Wiesel.

From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. And why is gallium (Ga, 31) the go-to element for laboratory pranksters?\* The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. The Guardians' powers are put to the ultimate test in their final battle in this thrilling conclusion to the epic chapter book series from William Joyce. Now, many years later, the Guardians have settled into their final selves, embracing their public

images and the Earth Holidays. But the world has not been without evil since Pitch's imprisonment. All the Guardians feel the weight of lurking menace, but Jack Frost—now half human, half of his former self Nightlight—feels it the most. Jack's transition from Nightlight to Guardian was not an easy one. Always inclined to keep to himself, Jack has become especially isolated from the other Guardians since his transformation. Yet it is Jack who Ombric Shalazar (once a great wizard, now known as Father Time) trusts with a tremendous secret. But for Jack to fully understand this secret, he must revisit his past—and finally tell his story. Jack's story, however, isn't the only one to be reopened; an old enemy whose chapter we thought closed will reappear and with him bring a darkness and destruction that will test the Guardians like never before. It's a battle of superlatives—the worse fighting the greatest, but where, oh where, is Jack?
