Wolf Pact

"The fulfilled renown of Moby-Dick and of As I Lay Dying is augmented by Blood Meridian, since Cormac McCarthy is the worthy disciple both of Melville and Faulkner," writes esteemed literary scholar Harold Bloom in his Introduction to the Modern Library edition. "I venture that no other living American novelist, not even Pynchon, has given us a book as strong and memorable." Cormac McCarthy's masterwork, Blood Meridian, chronicles the brutal world of the Texas-Mexico borderlands in the mid-nineteenth century. Its wounded hero, the teenage Kid, must confront the extraordinary violence of the Glanton gang, a murderous cadre on an official mission to scalp Indians and sell those scalps. Loosely based on fact, the novel represents a genius vision of the historical West, one so fiercely realized that since its initial publication in 1985 the canon of American literature has welcomed Blood Meridian to its shelf. "A classic American novel of regeneration through violence," declares Michael Herr. "McCarthy can only be compared to our greatest writers." From the Hardcover edition.

Blood on the Moon

'Superb. The most stunning memoir ever written about the cop world' Joseph Wambaugh 'Beautiful and inspiring, terrifying and heartbreaking' James Frey 'More chilling than even the most realistic cop dramas on TV' People 'A great book with the testimonial force equal to that of Michael Herr's Dispatches' Time
Blue Blood is the fast-paced, insider story of Edward Conlon's career in the New York Police Department. Conlon tells of his first days as a rookie, walking a beat in the south Bronx through his time in narcotics and his ascent to gold shield detective. Conlon is the product of generations involved in law enforcement, good cops and bad, and he paints a vivid portrait of the teeming street life of the city, in all its horror and splendour. It's all here: adrenaline-fuelled chases, toxic police politics, crackhead informants and police camaraderie. The pace is relentless, the stories hypnotic, the scope nothing less than monumental.

There's nowhere left to hide. I thought vampires were our enemies—they controlled our lives, isolated our cities, and demanded our blood—until I met Victor. With Victor taking over as the new Lord Valentine, things were supposed to get better. Instead, they're worse than ever. Day Walkers, a new breed of vampires who can walk in the sun, are terrorizing the city. Blood supplies are low, and if Victor's vampires don't get enough, they will become infected with the Thirst—a disease that will turn them into mindless killers. To stop it, I must journey across the desolate wasteland to the very place where the sickness began. I can only hope that the answers that await me are enough to save us all . . . before it's too late.

This beloved celebration of individuality is now an original film on Disney+! A modern-day classic and New York Times bestseller from Newbery Medalist Jerry Spinelli. Stargirl. From the day she arrives at quiet Mica High in a burst of color and sound, the hallways hum with the murmur of "Stargirl, Stargirl." She captures Leo Borlock's heart with just one smile. She sparks a school-spirit revolution with just

one cheer. The students of Mica High are enchanted. At first. Then they turn on her. Stargirl is suddenly shunned for everything that makes her different, and Leo, panicked and desperate with love, urges her to become the very thing that can destroy her: normal. In this celebration of nonconformity, Newbery Medalist Jerry Spinelli weaves a tense, emotional tale about the perils of popularity and the thrill and inspiration of first love. "Spinelli has produced a poetic allegorical tale about the magnificence and rarity of true nonconformity." -- The New York Times

The Black Lily

In this next installment from beloved author, Melissa de la Cruz, the Vampires of Manhattan series continues on at a breathless pace. Oliver Hazard-Perry, once leader of the Coven, is now a broken man and enlists the help of his friends Jack Force and Schuyler Van Alen to redeem himself and search for his lost love, Finn Chase, who has disappeared into the sophisticated streets of Stockholm. Meanwhile, back in the city, venators Ara Scott and Edon Marrok's investigation into a surge of Nephlim (those dangerous half-human, half demons) activity has come to a dead end. As quickly as they arrived, the Nephilim have all mysteriously disappeared from New York. Where did they go? And does the answer lie in the hidden caverns and remote glaciers of the Scandinavian peninsula? As the sun stretches summer days into white nights, the loyal crew encounters its most devastating trial yet, one that brings everything they believe into question and everything they love into danger. This book is an un-edited first draft of the previously unpublished sequel to Vampires of Manhattan. Proceeds from the sale of this title will benefit the YALLWEST book festival and it's school outreach programming, bringing books and authors to underserved schools.

Bloody Valentine (A Blue Bloods Novella (Int'l Paperback Edition))

The Gates of Paradise

The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.

The Emerald Lily

Lawson and his brothers escaped from the underworld and now lead desperate, dangerous lives. They're pursued by the Hounds of Hell from one town to the next, never calling any place home. But when the hounds finally catch up with them and capture the girl Lawson loves, the hunters become the hunted.

New York

By 1976, Elton John was the best-selling recording artist and the highest-grossing touring act in the world. With seven #1 albums in a row and a reputation as a riveting piano-pounding performer, the former Reggie Dwight had gone with dazzling speed from the London suburbs to the pinnacles of rock stardom, his songs never leaving the charts, his sold-out shows packed with adoring fans. Then

he released *Blue Moves*, and it all came crashing down. Was the commercially disappointing and poorly reviewed double album to blame? Can one album shoot down a star? No, argues Matthew Restall; *Blue Moves* is a four-sided masterpiece, as fantastic as *Captain Fantastic*, as colorful as *Goodbye Yellow Brick Road*, a showcase for the three elements--piano-playing troubadour, full orchestra, rock band--with which Elton John and his collaborators redirected the evolution of popular music. Instead, both album and career were derailed by a perfect storm of circumstances: Elton's decisions to stop touring and start his own label; the turbulent shiftings of popular culture in the punk era; the minefield of attitudes toward celebrity and sexuality. The closer we get to *Blue Moves*, the better we understand the world into which it was born--and vice versa. Might that be true of all albums?

The Immortal Rules

In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

John Peel was born in Cheshire in 1939 and, after National Service, he eventually went into broadcasting while travelling in America, where his Liverpool accent convinced them he must know the Beatles, and he was even present when Lee Harvey Oswald was shot.
