### **The Energy Bus**

This heavily researched, detailed book will help first-year middle school teachers learn how to handle supplies, planning, parents, overcrowded classrooms, the requirements of the No Child Left Behind Act, piles of paperwork, money shortages due to budget cuts, negativity from pubescent students and other staff members, at-risk students, students who are capable but choose not to work, and special needs students. You will learn how to ask principals and administrators for help, memorize names quickly, create seating charts, write lesson plans, follow a daily routine, help struggling readers, gain respect, find a mentor, develop and implement a grading system, discipline students who feel they are more mature than they are, create assessments, find free things for teachers online, and build your confidence. The most important thing of all, you will learn how to deal with the rapidly changing emotions and hormones of new teenagers and middle school age students.

### **Look at You Becoming a Bus Driver and Shit**

Imagine a bus system that is fast, frequent, and reliable—what would that change about your city? Buses can and should be the cornerstone of urban transportation. They offer affordable mobility and can connect citizens with every aspect of their lives. But in the US, they have long been an afterthought in budgeting and planning. With a compelling narrative and actionable steps, *Better Buses, Better Cities* inspires us to fix the bus. Transit expert Steven Higashide shows us what a successful bus system looks like with real-world stories of reform—such as Houston redrawing its bus network overnight, Boston making room on its streets to put buses first, and Indianapolis winning better bus service on Election Day. Higashide shows how to marshal the public in support of better buses and how new technologies can keep buses on time and make complex transit systems understandable. Higashide argues that better bus systems will create better cities for all citizens. The consequences of subpar transit service fall most heavily on vulnerable members of society. Transit systems should be planned to be inclusive and provide better service for all. These are difficult tasks that require institutional

## Download Free Bus Driver Appreciation Day

culture shifts; doing all of them requires resilient organizations and transformational leadership. Better bus service is key to making our cities better for all citizens. Better Buses, Better Cities describes how decision-makers, philanthropists, activists, and public agency leaders can work together to make the bus a win in any city.

### **An Awesome School Bus Attendant is Hard to Find**
