Bold, sometimes abrasive, forever passionate, Edward Curtis was the quintessential romantic visionary. Curtis struggled through an impoverished boyhood in Minnesota to become a successful society photographer in Seattle. But he soon moved far beyond weddings and studio portraits to his life's work—a multi-volume photographic and ethnographic work on the vanishing world of the North American Indian. Initially, Teddy Roosevelt and J.P. Morgan backed the ambitious project. But as the work stretched over years, Curtis found himself alone with his vision, struggling to finance himself and his crews. The 20-volume North American Indians, finally completed in 1930, cost Curtis his marriage, his friendships, his home, and his health. By the time he died in 1952, he and his monumental work had lapsed into obscurity. In this richly designed book, Anne Makepeace, creator of an award-winning documentary on Curtis's life, reexamines the lasting impact of his work. Curtis's photographs, once ignored, now serve as a link between the romantic past and contemporary Native American communities, who have used his images to reclaim and resurrect their traditions.

Edward S. Curtis: Visions of the First Americans is a tribute to the photographer, his work, but above all to the Native Americans he photographed. Chapters on many different Native American tribes make this collection unique. Edward Curtis's recognizable style, saturated with sepia, is immediately recognizable. He captures not only the striking faces of his subjects, but also a glimpse into the lifestyle of each Native American tribe he photographed. Women grind corn, and communities gather outside their traditional living areas. Atop horses, Native Americans ride on the prairie. Papooses are bundled in woven carrying packs, and men are dressed in full feathered regalia. These images paint a picture, known to us now only as a historical memory. Many tribes are featured in this volume, from the familiar Apache and Navaho to lesser-known tribes. This book will draw in readers who are interested in world cultures, along with photography buffs and historians. This hardcover volume is a wonderful addition to any library.

The traditional cultures of the Indians of the Great Plains—Lakotas, Cheyennes, Wichitas, Arikaras, Crows, Osages, Assiniboins, Comanches, Crees, and Mandans, among others—are recalled in stunning detail in this collection of photographs by Edward S. Curtis (1868–1952). Curtis is the best-known photographer of Native Americans because of his monumental work, *The North American Indian* (1907–1930), which consists of twenty portfolios of large photogravures and twenty volumes of text on more than eighty Indian groups in the West. He took

pictures of Plains Indians for over twenty years, and his photographs reflect both prevailing attitudes about Indians and Curtis's own vision of differences among the Native peoples whom he photographed. ø Curtis's photographs have exerted an enduring influence?both positive and negative?on mainstream American culture. They have inspired countless books, articles, and photographic exhibitions, and they continue to appear on posters, postcards, and other souvenirs. Accompanying the remarkable array of images in this book are essays by leading scholars that place the photographs within their proper critical, cultural, and historical contexts. The scholars contributing to this work are Martha H. Kennedy, Martha A. Sandweiss, Mick Gidley, and Duane Niatum.

### **Heart of the Circle**

Seattle-based photographer Edward S. Curtis (1868-1952) spent the first three decades of the twentieth century compiling an unparalleled photographic record of North America's indigenous peoples. His written and photographic records were published in twenty volumes as *The North American Indian*. *Heart of the Circle* is the first book devoted exclusively to Curtis's images of Native American women. Over 100 intimate and revealing portraits are included of women making pottery, tending infants in cradleboards, hauling wood, harvesting wild berries, grinding corn, stretching hides, and butchering game. The portraits are grouped by geographic region and accompanied by carefully researched, informative text.

What is American Indian photography? At the turn of the twentieth century, Edward Curtis began creating romantic images of American Indians, and his works—along with pictures by other non-Native photographers—came to define the field. Yet beginning in the second half of the nineteenth century, American Indians themselves started using cameras to record their daily activities and to memorialize tribal members. Through a Native Lens offers a refreshing, new perspective by highlighting the active contributions of North American Indians, both as patrons who commissioned portraits and as photographers who created

collections. In this richly illustrated volume, Nicole Dawn Strathman explores how indigenous peoples throughout the United States and Canada appropriated the art of photography and integrated it into their lifeways. The photographs she analyzes date to the first one hundred years of the medium, between 1840 and 1940. To account for Native activity both in front of and behind the camera, the author divides her survey into two parts. Part I focuses on Native participants, including such public figures as Sarah Winnemucca and Red Cloud, who fashioned themselves in deliberate ways for their portraits. Part II examines Native professional, semiprofessional, and amateur photographers. Drawing from tribal and state archives, libraries, museums, and individual collections, *Through a Native Lens* features photographs—including some never before published—that range from formal portraits to casual snapshots. The images represent multiple tribal communities across Native North America, including the Inland Tlingit, Northern Paiute, and Kiowa. Moving beyond studies of Native Americans as photographic subjects, this groundbreaking book demonstrates how indigenous peoples took control of their own images and distinguished themselves as pioneers of photography.

of illustrated text and twenty portfolios of photographs; the project was supported by Theodore Roosevelt and funded in part by J. Pierpont Morgan, and spawned exhibitions, postcards, magazine articles, lecture series, a "musicale," and the very first narrative documentary film. Neither a eulogy to Curtis' achievement nor a debunking of it, this book is an honest study of the project as a collective whole.

In 1899, George Bird Grinnell journeyed to Alaska on the Harriman Expedition, a scientific cruise from Seattle to the North Pacific. Accompanied by explorer John Muir and photographer Edward S. Curtis, Grinnell spent two months chronicling the lives of the Natives of Alaska and Siberia. A keen observer of his surroundings, Grinnell provides a unique perspective on northern life in the late nineteenth century. He documented hunting techniques and material culture of the Eskimo of Siberia, as well as the totem poles and architecture of the Tlingit of Southeast. As a pioneer conservationist, Grinnell was one of the first to express concern over the effects of trade and industry on Alaska's peoples and natural resources. Illustrated with photos and drawings by Harriman Expedition members, including Edward S. Curtis, this volume makes the work of a passionate observer available to a new generation of readers.

### **Double Exposure**

Native Family presents some of the finest examples of Edward Sheriff Curtis's portraiture, especially of women and children, as well as images that portray the traditional costumes, rites, and character of the individuals who made up the native nations of North America. Photographs of a wide variety of tribal groups from the Pacific Northwest to the Desert Southwest to the Great Plains are included. The images, selected by Curtis expert Christopher Cardozo, are from Curtis's landmark publication, *The North American Indian*. This twenty-volume, twenty-portfolio magnum opus contains thousands of photogravures and accompanying historical and descriptive text, some of which has been excerpted here to bring the pictures to life and provide information on family structure, marriage customs, living conditions, child-rearing, relationships, and other components of these native peoples' often difficult existence. Compiled over thirty years beginning in 1898, Curtis's study of more than eighty tribal cultures on the brink of extinction captured the essence of the Native American way of life.

sensation, and for important affirmations as well.

### **Great Plains**

For almost three decades, Edward Curtis photographed the First Peoples of the North American West and studied their cultures. As part of his fieldwork, he cruised the Pacific Northwest coast and ventured into the lands of the Blackfoot Confederacy, both north and south of the Medicine Line. Alarmed that the traditional Aboriginal ways of life seemed in danger of disappearing forever, Curtis made an incredible effort to capture the daily routines, character and dignity of First Peoples through photography and audio recordings. Against seemingly insurmountable odds and at substantial personal and financial sacrifice, he completed the 20-volume masterpiece *The North American Indian*, deemed “the most gigantic undertaking in the making of books since the King James edition of the Bible” by the *New York Herald*. With more than 150 photographs, *Edward S. Curtis Above the Medicine Line* is both a compelling narrative that sheds new light on the Curtis mystique and a fascinating overview of many of the First Peoples he studied a century ago.

### **The Girl who Married a Ghost and Other Tales from The North American Indian**

“A vivid exploration of one man's lifelong obsession with an idea . . . Egan's spirited biography might just bring [Curtis] the recognition that eluded him in life.” — Washington Post

Edward Curtis was charismatic, handsome, a passionate mountaineer, and a famous portrait photographer, the Annie Leibovitz of his time. He moved in rarefied circles, a friend to presidents, vaudeville stars, leading thinkers. But when he was thirty-two years old, in 1900, he gave it all up to pursue his Great Idea: to capture on film the continent's original inhabitants before the old ways disappeared. Curtis spent the next three decades documenting the stories and rituals of more than eighty North American tribes. It took tremendous perseverance — ten years alone to persuade the Hopi to allow him to observe their Snake Dance ceremony. And the undertaking changed him profoundly, from detached observer to outraged advocate. Curtis would amass more than 40,000 photographs and 10,000 audio recordings, and he is credited with making the first narrative documentary film. In the process, the charming rogue with the grade

### **The Master Prints**

In 1906 J.P. Morgan commissioned Edward S. Curtis to produce a series of books depicting Native American life. Curtis' goal was to not just photograph but to document as much of traditional Native life as possible before it disappeared. During his project, Curtis made over 10,000 wax cylinder recordings of Native languages and music, and took over 40,000 photographs of peoples from over eighty tribes. He recorded tribal lore and history, and he described traditional foods, housing, garments, recreation, ceremonies, and funeral customs. He wrote biographical sketches of tribal leaders, and his material, in most cases, is the only recorded history of these amazing peoples. Curtis had a remarkable knack for
