EMQs for the MRCS

This is a fully updated edition of the hugely successful OSCEs for the MRCS Part B: A Bailey and Love Revision Guide. The content has been revised in line with recent changes to the examination, such as the introduction of microbiology and applied surgical sciences and changes from patient safety to clinical and procedural skills. Popular with trainee surgeons preparing for the oral element of the MRCS (the objective structured clinical examination, or OSCE), this revision guide will maximise the chances of success in surgical examinations.

MRCS Applied Basic Science and Clinical Topics

This text offers 600 EMQ items for the Clinical Problem Solving paper of the Intercollegiate MRCS examination. Questions are with answers/explanations that a candidate can use in the run up to the exam, and content is grouped by subject for ease of use and weighted to the exam.

MCQs and EMQs in Surgery: A Bailey & Love Companion Guide

This is the only revision resource devoted to anatomy at MRCS level with over 200 questions grouped by anatomical region, each with five true/false parts.

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

Anatomy Questions for the MRCS comes in a portable, user-friendly paperback format with answer sections clearly marked to help determine weak areas of knowledge and reinforce learning. Written by authors with first-hand experience of the current MRCS examination format and with experienced senior advisor, this highly original text is a must-have for all MRCS candidates and a useful tool for medical students preparing for surgical examinations.

EMQs in Clinical Medicine Second Edition

Get Through Intercollegiate MRCS Parts 1 and 2: MCQs and EMQs has been written by experienced surgeons and features four practice papers: two covering each part of the examination. All questions have been modelled on actual exam questions so that they accurately reflect the style and level of difficulty. Detailed explanations are given in the answers to help candidates use the book as a revision aid as well as a self-test book. All surgical trainees preparing to sit the two parts of the MRCS examination will find this book an invaluable aid to their revision, as well as keen medical students with an interest in surgery as a future career.

Get ahead! SURGERY 100 EMQs for Finals, Second Edition

Specifically designed for the current requirements of the MRCS examination, this book reflects the balance between basic science and clinical surgery. Each core and system chapter contains both multiple choice and

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

extended matching questions. Additionally, it includes detailed explanations, and is ideally suited to preparation for this examination.

Stone's Plastic Surgery Facts: A Revision Guide, Fourth Edition

This comprehensive, completely up-to-date collection of test questions covers the whole MRCSSyllabus tested in the intercollegiate MRCs Part A examination. Written by recent successful candidates, the revision guide has been designed in accordance withthe 2012 Royal College of Surgeons of England guidance to match the exact format of the MRCSPart A with 5 single best answer (SBA) papers and 5 extended matching question (EMQ) papers.Completing the papers to time provides excellent practice in exam technique and the concise, clearanswers and explanations are ideal for evaluation and revision. Inte.

Intercollegiate MRCs

Written specifically for the new intercollegiate examination, this book contains extended matching items with full explanations for every question.

Surgery MCQs and EMQs

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma and Orthopaedic Surgeon, North Staffordshire Royal

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

Infirmery and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format.

Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! Specialist registrars preparing for the FRCS (Trauma and Orthopaedics) examination will find this an essential revision aid. It is also useful for Basic Surgical Trainees preparing for the Membership of the Royal College of Surgeons (MRCS) examination.

MRCS Practice Papers Part A

Fully updated, this new edition of the successful Get ahead! SURGERY 100 EMQs for Finals provides invaluable revision for all medical students preparing for their final examinations. Co-written by Saran Shantikumar, series editor for the Get ahead! series, this book covers the entire syllabus in a clear and comprehensive style, building on the strengths of the first edition to provide reliable and effective revision practice to help achieve success in final exams. The second edition has been completely updated according to current curriculum, and the questions are written in a style similar to the Medical Schools Council Assessment Alliance (MSCAA) bank. Get

EMQs in Surgery 2E

Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts.

MRCS Part A: 550 SBAs and EMQs

MRCS Part A: 550 SBAs and EMQs, Second Edition continues the tradition of the best-selling first edition

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

by offering a wealth of practice questions covering applied basic sciences and principles of surgery for candidates preparing for the MRCS Part A written exam. With 40% new content, including the addition of trauma and orthopaedic questions to provide complete coverage of surgical specialties, this book remains an essential revision tool designed to maximise chances of exam success. Key points 550 SBAs and theme-based EMQs test knowledge of applied basic sciences and general surgical principles, respectively, reflecting the formats encountered in the exam Chapters organised by anatomy, physiology, pathology, principles of surgery and general surgery, to help you focus on areas of weakness Provides in-depth answers, with illustrations, to help consolidate knowledge and understand key concepts Gives practical advice on how to approach revision and useful tips to improve exam technique

Crash Course: 1000 SBAs and EMQs for Medical Finals

MRCS Part 1 in a Box is designed to aid candidates in their revision for their membership exam to the Royal College of Surgeons, making preparation as hassle-free and easy as possible. Topics include: Anatomy, Medical Physiology, and Pathology amongst others, and appear in both the MCQ and EMQ format. The aim of this flashcard format is to make your exam preparation time as efficient and straightforward as possible. The In a Box lends itself very well to studying with a partner or in a group. We're sure you

will find the in a Box series to be a useful and practical resource in your Royal College exam preparation.

MRCS Core Modules

EMQs are a popular method of assessing how broad a knowledge of medicine an undergraduate has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. Presenting 100 key EMQs covering the core areas of medicine and surgery, care had been taken by the authors to structure the questions and answers so that they reflect accurately the themes uncountered during study and, specifically, in final exams. Each subject covered is accompanied by a revision section which summarises key points and cross references them to other questions for revision purposes. Questions related to pharmacology, an area which many students find particularly challenging, are threaded throughout the book where relevant, mirroring the integrated teaching methods common to most medical schools. The second edition of EMQs in Clinical Medicine has been thoroughly revised and updated to reflect medical developments, while retaining the clear and comprehensive approach and popular revision boxes of its predecessor. The authors' first-hand experience of EMQ-based examinations, and awareness of the importance of reliable and accurate revision guides to medical students, ensure EMQs in Clinical Medicine remains and invaluable resource for all medical students undertaking the clinical part of their training,

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

and an ideal companion during finals preparation.

Practice Questions in Trauma and Orthopaedics for the FRCS

MCQs and EMQs for the MRCS comprises 570 multiple choice questions and extended matching questions in the format of the latest MRCS examination. The questions are presented as six practice papers of 50 MCQs and 45 EMQs and have been specifically designed to prepare the reader for the examination. Papers 1-3 test a candidate's knowledge of the Core Modules and Papers 4-6 test understanding of the System Modules. Answers and brief explanations are provided to aid understanding.

Get Through MRCS Part A

Stone's Plastic Surgery Facts 4e provides a complete revision tool for the FRCS exit examination in plastic surgery. Written in the form of notes and lists, the full range of plastic surgery topics is covered as follows, wound care, burns, head & neck, cleft lip and palate and craniofacial anomalies, breast, hand and upper limb, lower limb, skin and soft tissue tumours, genitourinary and trunk, aesthetic and general plastic surgery. Updated article summaries and a review section in each chapter highlight important points and explain common misconceptions. A vital resource for the surgical trainee.

MCQs and EMQs for the Diploma in Otolaryngology - Head and Neck Surgery

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

A complete guide to passing surgical finals

Intercollegiate MRCS

Includes three practice papers, each covering 180 extended matching questions, mirroring the format of the exam. This work features questions that reflect the balance of topics covered in the exam. It offers detailed explanations to various questions that help candidates to improve their understanding.

Anatomy Questions for the MRCS

This text offers 600 EMQ items for the Clinical Problem Solving paper of the Intercollegiate MRCS examination. Questions are with answers/explanations that a candidate can use in the run up to the exam, and content is grouped by subject for ease of use and weighted to the exam.

The MRCS Examination

The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision

text for all DOHNS candidates.

Extended Matching Questions for the MRCS

MRCS Part A: 500 SBAs and EMQs

EMQs are a popular method of assessing how broad a knowledge of medicine and surgery an undergraduate has acquired. They can, however, be difficult to prepare for, and the best way to build understanding and confidence is with practice. EMQs in Surgery is an invaluable revision book, presenting 100 key EMQs covering the core areas of surgery and associated specialties. The questions and answers are structured to reflect accurately the themes encountered in exam conditions. Each topic is accompanied by a revision section, which summarises key points and cross-references them to other questions for revision purposes. The second edition of EMQs in Surgery has been thoroughly revised and updated to reflect surgical developments, while retaining the clear and comprehensive approach and popular revision boxes of its predecessor. The authors' firsthand experience of EMQ-based examinations, and awareness of the importance of reliable and accurate revision guides, ensure that EMQs in Surgery, alongside its popular companion, EMQs in Clinical Medicine, continues to be the perfect companion to finals preparation.

SBA MCQs for the MRCS

Access PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

Surgery MCQs and Vivas is designed as a companion to Fundamentals of Surgical Practice, by Aljafri Majid and Andrew Kingsnorth, and is split into two main sections; multiple choice questions and viva topics, reflecting the structure of two of the key components of many postgraduate surgical examinations worldwide, including the MRCS and AFRCSed. The MCQ and viva questions provided are typical of those that will appear in the MRCS examination, and answers, along with detailed explanatory notes are provided throughout. Each of the two sections is further subdivided into sub-sections reflecting the topics covered in Fundamentals of Surgical Practice, and the model answers in all cases are cross-referenced to the relevant sections of this comprehensive text to enhance the learning experience for the reader, who can instantly get detailed information on a topic of interest.

SBA's and EMQs for the MRCS Part A: A Bailey & Love Revision Guide

Success in any exam requires careful preparation, background reading and, importantly, prior self-assessment. Containing 1000 Single Best Answer (SBA) questions for the MRCS Part A, this book offers surgical trainees a wealth of exam practice, written and edited by expert authors with recent experience of the MRCS syllabus. with recent experience of the examination themselves.

Intercollegiate MRCS

Written specifically for the new intercollegiate examination this book contains extended matching items with full explanations for every question.

Intercollegiate MRCS Part A

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

Intercollegiate MRCS

Specifically designed to help candidates revise for the

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

MRCs exam, this book features 250 extended matching questions divided into 96 themes, covering the whole syllabus. Containing everything candidates need to pass the MRCs Part A EMQ section of the exam, the book focuses intensively on topics relating to principles of surgery-in-general, including peri-operative care, post-operative management and critical care, surgical technique and technology, management and legal issues in surgery, clinical microbiology, emergency medicine and trauma management, and principles of surgical oncology. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to extended matching questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, positively-worded questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as factual recall questions, prompting basic recall of facts.

MRCs Practice Papers Part A

Helps candidates pass the MRCs Part A exam. This book includes four practice papers, featuring over 120 Best of Five questions, mirroring the format of the exam.

Last Minute Intercollegiate MRCs

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

Help candidates pass the MRCS Part A exam. This book contains 3 complete practice papers, each featuring 180 extended matching questions, mirroring the format of the exam. It also features questions which reflect the balance of topics covered in the exam to ensure candidates have realistic practice. It offers explanations to every question.

Basic Science for the MRCS

SBA's and EMQ's for the MRCS Part A is an invaluable guide to sitting and passing the examination, which tests the candidates in their knowledge of the basic sciences as applied to surgical practice. Based on the highly successful Insider Medical MRCS Examination Clinical Course, this book facilitates the pathway for a novice clinician to pass this challenging examination. College-approved, systematic and coherent questions for all the main systems are included, providing comprehensive coverage of the surgical curriculum. Answers are provided in brief at the foot of each question page for rapid reference, while full explanations of each appear in a separate section at the end of each chapter. The sections provide insider tips on how to pass the examination and identify mistakes commonly made by many candidates, whilst providing references to the key chapters within Bailey & Love's Short Practice of Surgery. With over 350 SBA's and 50 EMQ's, this book will provide helpful pointers for further study throughout training, and is essential reading for those preparing to sit Part A of the MRCS examination.

MRCs Part 1 in a Box

Calm those exam nerves with 'EMQs and Data Interpretation Questions in Surgery' - the best way for you to assess your understanding of surgery while practising your exam technique. Presenting both Extended Matching Questions and Data Interpretation Questions in the same volume, this 'all in one' book is an ideal revision resource in surgery for medical students. Since the publication of 'EMQs in Clinical Medicine' there has been an ever-increasing use of EMQs in finals; 'EMQs and Data Interpretation Questions in Surgery' continues the aim of covering the most commonly questioned EMQ themes and providing detailed explanations for study and revision. It contains EMQs that cover the major general and specialist surgical specialties along with anaesthesia and critical care. Data Interpretation Questions are a new and popular means of testing practical knowledge in a format representative of clinical practice; illustrated with a range of data, including test results, imaging and clinical photographs, these questions give a useful insight into this new examination format. With the increasing popularity of EMQs and DIQs as the format of choice in medical finals, 'EMQs and Data Interpretation Questions in Surgery' is an invaluable examination study aid.

Get Through Intercollegiate MRCS Parts 1 and 2: MCQs and EMQs

This book is a concise revision guide to the core basic sciences - anatomy, physiology and pathology - which

Acces PDF Emqs For The Mrcs Part A Oxford Specialty Training Revision Texts

comprise the essential knowledge required by the trainee entering the specialty of surgery. It has been written in a style to facilitate easy learning of the essential facts, with indications of both their clinical relevance and importance. This book concentrates on those topics which tend to be recurring examination themes for initial surgical training. It will be an invaluable resource for the basic surgical trainee studying for the Intercollegiate MRCS examination, as well as proving useful for those in higher surgical training and for the surgically inclined, well-motivated student. The book covers in one volume all the essentials of the basic sciences - anatomy, physiology and pathology - to aid the candidate for the MRCS examination. In covering the applied basic science the books explains the application and clinical relevance of the three sciences The text is written in an appropriate 'bullet-point' style to allow easy reading and rapid exam preparation The contents concentrate on the recurring common themes of the examination, thus helping direct appropriate learning and focussing on the specific impoartnta areas of knowledge The book is illustrated with line drawings which are clearly annotated to aid learning. In this Second Edition, chapters have been updated and sections expanded to cover topics which are particularly relevant to examinations. The microbiology chapter has been rewritten, and the section on skin healing has also been extensively rewritten to include a section on burns, skin grafting and the anatomy of flaps. Each chapter has new OSCE scenario questions added to bring together the basic science and its clinical application in OSCE examinations.

Cases for Surgical Finals

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

SBAs for the MRCS Part A: A Bailey & Love Revision Guide

MRCS Applied Basic Science and Clinical Topics offers a complete and up-to-date guide to specialty training in surgery, covering all the core topics examined in the MRCS Part A and B exams. Last Minute Intercollegiate MRCS

Featuring a wealth of practice questions, MRCS Part A: 500 SBAs and EMQs allows trainees to test themselves on everything they need to know to pass the MRCS Part A exam.

EMQs and Data Interpretation Questions in Surgery

Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts.

Postgraduate Orthopaedics

This book has been composed for and targeted at surgical trainees preparing for the MRCS examination. The authors' aim was to provide a book that offers a comprehensive collection of questions that have been compiled whilst bearing in mind the changes in the new intercollegiate examination system. The book is exhaustive with 1,200 EMQs (extended matching questions) based on 279 themes covering the whole of general surgery. The text layout helps the trainee practise the questions systematically and the section on exam techniques allows the trainee to gain an insight into the essential finer points of preparation that are crucial in passing the MRCS exams. It has been written by four authors who have all taken the exam in the past 2 years, and thus are best placed to provide an excellent representative sample of questions. Composed for and targeted at surgical trainees preparing for the MRCS examination, this book offers a comprehensive collection of questions that have been compiled whilst bearing in mind the changes in the intercollegiate examination system. It is exhaustive with 1,200 EMQs based on 279 themes covering the whole of general surgery.
