A Teacher's Guide to Special Education

A supplement for Inclusion courses, Intro to Special Education courses that emphasize inclusion strategies, Mild Methods, and General Methods courses. Designed to give education majors an experience of actual inclusive classrooms, this CD-ROM contains 36 video clips demonstrating inclusion strategies in four different grade levels. The various clips show children with learning disabilities, attention deficit disorders, and mild/moderate disabilities being successfully engaged in the classroom community and in learning by expert teachers. The accompanying activity book provides a basic background for inclusive classrooms including discussion of instructional planning, managing behavior, and collaboration.

Exceptional Lives

This student study guide will help the student understand, analyze, and evaluate the chapter concepts and prepare for in-class lectures and presentations. Each chapter in the student study guide covers instructional objectives, key issues, and focus questions, and provides a guided review of the chapter content and vocabulary.

Case Studies of Minority Student Placement in Special Education

For introductory courses in Special Education. The authors of this introductory text have a vision for special education to equip general and special education teachers with the principles, values and teaching practices that support the education of the majority of students with disabilities in general education programs. Beginning with a thorough review of the principles that undergird IDEA and the process of nondiscriminatory evaluation, the authors explore the teaching and collaborative processes necessary for implementing best practices and Individuals with Disabilities Education Act of 1997. Using a categorical approach, the authors highlight real students with real disabilities and use their stories as a vehicle for describing the characteristics, causes, and challenges that people with exceptionalities face and that both general and special education teachers must consider when making decisions about how, where, and what to teach.

Exceptional Lives

An essential handbook for educating students in the 21st century, since its initial publication *A Principal's Guide to Special Education* has provided guidance to school administrators seeking to meet the needs of students with disabilities. The third edition of this invaluable reference, updated in collaboration with and endorsed by the National Association of Elementary School Principals and the National Association of Secondary School Principals and incorporating the perspectives of both teachers and principals, addresses such current issues as teacher accountability and evaluation, instructional leadership, collaborative teaching and learning communities, discipline procedures for students with disabilities, and responding to students' special education needs within a standards-based environment.

Authored by luminaries in the special education field, *EDUCATING EXCEPTIONAL CHILDREN* introduces readers to each of the thirteen disability categories, and to the needs of children who are gifted and talented. The fourteenth edition continues to focus on the strengths of previous editions, while also providing new material about such important hot topics as genetics, neurology, inclusion, assistive technology, and information processing. The book provides key, research-based teaching methods and strategies for children with various exceptionalities, and also offers analysis of ecological factors that influence the exceptional child in and out of the classroom. This edition also features a new chapter on children with ADD/ADHD, new diagnosis information from the DSM-5, coverage of CEC and Common Core State Standards, the most current teaching techniques for each category, and current coverage of the Response to Intervention Model. A pioneering canine behaviorist draws on cutting-edge research to show that a single, simple trait—the capacity to love—is what makes dogs such perfect companions for humans, and explains how we can better reciprocate their affection. “Lively and fascinating . . . The reader comes away cheered, better informed, and with a new and deeper appreciation for our amazing canine companions and their enormous capacity for love.” —Cat Warren, New York Times best-selling author of *What the Dog Knows* Does your dog love you? Every dog lover knows the feeling. The nuzzle of a dog’s nose, the warmth of them lying at our feet, even their whining when they want to get up on the bed. It really seems like our dogs love us, too. But for years, scientists have resisted that conclusion, warning against anthropomorphizing our pets. Enter Clive Wynne, a pioneering canine behaviorist whose research is helping to usher in a new era: one in which love, not intelligence or submissiveness, is at the heart of the human-canine relationship. Drawing on cutting-edge studies from his lab and others around the world, Wynne shows that affection is the very essence of dogs, from their faces and tails to their brains, hormones, even DNA. This scientific revolution is revealing more about dogs’ unique origins, behavior, needs, and hidden depths than we ever imagined possible. A humane, illuminating book, *Dog Is Love* is essential reading for anyone who has ever loved a dog—and experienced the wonder of being loved back.

Dog Is Love

This book features vivid case studies that bring to life real children, school personnel, and family members from the bestselling book *Why Are So Many Minority Students in Special Education?* Once again addressing the disproportionate placement of minority students in special education programs, this new book includes the voices and perspectives of all stakeholders to show the tremendous complexity of the issues and the dilemmas faced by professionals, family members, and children. Challenging questions and scenarios are offered at the end of each case study to provide thoughtful follow-up activities and topics for further study. This collection of cases can be used—on its own or as a companion to the main volume—in elementary and special education courses and professional development workshops. “This book provides a thorough and detailed description of the multiple factors that combine to provide inequitable educational opportunities for minority students living in poverty . . . the authors do not shy away from discussion of racism on the individual and institutional levels . . . they engage in this discussion in a refreshingly detailed and nuanced way.” —TC Record “It is the best casebook on special education that I have seen.” —Velma L. Cobb, Vice President of Education and Youth Development, National Urban League

Foundations of Assessment in Early Childhood Special Education gives pre-service and in-service early childhood and special education teachers the tools they need to best meet the needs of all children in their classrooms. Using a clear, accessible approach, the authors present the ideas in a way that is applicable both at home and in the classroom. A variety of formal and informal assessments are described, along with a number of practical skills for working effectively with all children. Real-life case studies help to explain the main ideas of each chapter, and a variety of web links plus current research help readers further explore the topics presented.

Your Students, My Students, Our Students explores the hard truths of current special education practice and outlines five essential disruptions to the status quo. Authors Lee Ann Jung, Nancy Frey, Douglas Fisher, and Julie Kroener show you how to

- Establish a school culture that champions equity and inclusion.
- Rethink the long-standing structure of least restrictive environment and the resulting service delivery.
- Leverage the strengths of all educators to provide appropriate support and challenge.
- Collaborate on the delivery of instruction and intervention.
- Honor the aspirations of each student and plan accordingly.

To realize authentic and equitable inclusion, we must relentlessly and collectively pursue change. This

book—written not for "special educators" or "general educators" but for all educators—addresses the challenges, maps out the solutions, and provides tools and inspiration for the work ahead. Real-life examples of empowerment and success illustrate just what's possible when educators commit to the belief that every student belongs to all of us and all students deserve learning experiences that will equip them to live full and rewarding lives.

Get the real inside scoop on thriving as a teen with attention deficit/hyperactivity disorder (ADHD). Drawing on her own experiences living with the disorder, college student Grace Friedman—along with pediatric neurologist Sarah Chetty—offers valuable tips and tricks to help you face the unique challenges of ADHD. If you're a teen with ADHD, you care about academic and social success just as much as your peers do, but you may also experience difficulties keeping up in school and maintaining good relationships with friends and family. In addition, you probably find it challenging to stay organized, articulate your struggles to others, and cope with overwhelming pressure—especially as college approaches. This workbook will give you solid skills for addressing the challenges of ADHD so you can live up to your true potential. In *Winning with ADHD*, you'll learn powerful and proven-effective cognitive behavioral strategies for coping with overwhelm, staying organized, tackling assignments, preparing for exams, dealing with emotions, communicating effectively with adults, and maintaining strong friendships. You'll also find valuable information about ADHD medication, how your brain works, as well as self-advocacy skills to help you get ahead in high school, college, and beyond. As a teen with ADHD, you may face many unique challenges. This workbook will give you everything you need to get one step ahead of your ADHD and thrive in all aspects of life.

A Parent's Guide to Learning Difficulties provides parents with a clear explanation of the many causes of children's problems in learning. The book contains jargon-free and practical advice for helping children with reading, writing, and mathematics. It also explains how previously proven and effective methods can be implemented in home-tutoring situations, as well as in school. While the focus is on children with general learning difficulties, the book also provides important information about teaching and managing children with intellectual, physical, and sensory disabilities, as well as autism. A Parent's Guide to Learning Difficulties also includes links to online information resources and references to books that will be useful.

From the best-known authors in the field of family and professional collaboration--here is a practical look at how teachers and families can empower, collaborate, and advocate for children with special needs. In this book, the authors enter the lives and tell the stories of families they consider "forces for the disability cause," and "exemplars of all that is good, decent, generous, steadfast, and optimistic." In Families, Professionals, and Exceptionality readers see how lasting partnerships can be formed between members of families and professionals in special and general education. The authors, widely recognized authorities in the field of family and professional collaboration, present strong depictions of family systems theory, the

history and current status of policy, and the principles of partnership and their application by teachers and other professionals. Included is invaluable practical advice for educators—and true ways to apply these principles on the job.

Educating Exceptional Children

Exceptional Children: An Introduction to Special Education has always been known for its innovation, strong research base and accessibility. The tenth edition has all of those strengths, but has a greater focus on highly effective, research-based practices that are described in a very step-by-step, applied manner. Heward presents an informative and responsible introduction to the professional practices, trends, and research that define contemporary special education while also conveying the diversity and excitement of this changing field. The book is for those teachers who will be professionals in the area of special education or those who are working with students that have exceptionalities.

Toward a Theology of Special Education

"Professor, mentor, author, disability advocate, seminar leader around the world—Dr. David Anderson corralled his many talents and worldwide experiences to author this important book. The volume should prove invaluable to Christians concerned about disabilities, especially teachers. Without flinching, Dr. Anderson tackles the tough issues: How could a good and benevolent God permit disabled children? Are disabilities the result of sin? How does a Christian teacher of the disabled differ from secular counterparts? Especially helpful is his emphasis on the reflective teacher integrating faith and learning. Certainly this is a volume that belongs on the bookshelves of anyone concerned with disabilities." —Steven A. Kaatz PhD, Graduate Programs in Special Education, Bethel University, St. Paul, Minnesota "I have had the privilege of traveling with Dr. Anderson as he has taught the concepts addressed in this book to educators, pastors, and parents in a variety of countries. I've seen the material come alive as leaders discover the importance of thinking Christianly about disability. This book has the potential of impacting all readers in similar ways. Dr. Anderson challenges all of us to come to grips with a biblical worldview and then to live it out within our spheres of influence. Toward a Theology of Special Education thus encourages all readers to think Christianly about disability. Such thinking will then motivate us to care with God's care and to serve with God's concern for justice and compassion." —Dr. Richard Schoenert, pastor emeritus, Calvary Church, Roseville, Minnesota

Here are 51 easy-to-use, classroom-tested alternatives to the “stand and deliver” teaching techniques that cause so many students to tune out or drop out. Teachers report that these techniques motivate students to participate in learning, as they build confidence and are supported by compelling and safe ways to demonstrate their knowledge and understanding of lessons. Refined through years of classroom experiences and supported by updated research, this 2nd edition delivers a dozen new techniques to engage K–12 students in active learning. The authors provide detailed descriptions of the Total Participation Techniques (TPTs) with step-by-step instructions--plus reproducible blackline masters for student response cards as well as posters to remind you to use the techniques. They also suggest how you can adapt and personalize the techniques to fit your context and content. Packed with examples from authentic classrooms, Total Participation Techniques is an essential toolkit for teachers who want to present lessons that are relevant, engaging, and cognitively challenging. Pérsida Himmele and William Himmele are professors who regularly work with preservice teachers and consult with educators in U.S. and international schools. They are also the authors of Total Literacy Techniques.

Exceptional Learners: An Introduction to Special Education is a research-based general approach to the characteristics of exceptional learners and their education. This book emphasizes classroom practices as well as the psychological, sociological and medical aspects of disabilities and giftedness. It features Canadian research, policies, and practices, information on how to access provincial/territorial and federal websites, networks and organizations relating to exceptionalities in Canada.

The Exceptional Child: Inclusion in Early Childhood Education

2015 Recipient of the Textbook Excellence Award from the Text and Academic Authors Association (TAA) The Sixth Edition of Richard Gargiulo's well-respected Special Education in Contemporary Society: An Introduction to Exceptionality offers a comprehensive, engaging, and easy-to-read introduction to special education. Grounded in research and updated to reflect the most current thinking and standards of the field, the book provides students with the skills and knowledge to become successful teachers. Richard Gargiulo and new co-author Emily Bouck encourage a deep awareness and understanding of

the human side of special education. Their book provides students a rare look into the lives of exceptional students and their families, as well as the teachers that work with exceptional persons throughout their lives. The new edition maintains the broad context and research focus for which the book is known, while expanding on current trends and contemporary issues to better serve both pre-service and in-service teachers of exceptional individuals. The text is organized into two distinct parts to offer students a truly comprehensive and humane understanding of exceptionality. In Part I, readers are provided strong foundational perspective on broad topics that affect all individuals with an exceptionality. In Part II, the authors engage students with thorough examinations of individual exceptionalities, and discuss historical, personal, and educational details of each exceptionality as it affects a person across the lifespan.

Teaching Students with Learning Problems

In the highly litigated area of Special Education, it is imperative that professionals in the field understand the legal requirements of providing a free appropriate public education to students with disabilities. This indispensable textbook prepares the reader with the essential skills to locate pertinent information in law libraries, on the Internet, and other sources to keep abreast of the constant changes and developments in the field. Now in the third edition, the entire textbook has been thoroughly updated and revised with the latest information on the statutes, regulations, policy guidance, and cases on special education law, as well as the most current information on: the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act and the Elementary and Secondary Education Act, The Family Educational Rights and Privacy Act (FERPA), and the Health Insurance Portability and Accountability Act (HIPAA). Long-recognized as one of the top special education law books in the field, *The Law and Special Education, Third Edition*, presents the most important and necessary information for educators to understand the history and development of special education laws and the requirements of these laws in the field of special education.

Including Students with Special Needs

It's time to say NO to trying to fit square-peg kids into round holes, and YES to raising them from a place of acceptance and joy. Today millions of kids are stuck in a world that doesn't embrace who they really are. They are the one in five "differently wired" children with ADHD, dyslexia, giftedness, autism, anxiety, or other neurodifferences, and their challenges are many. And for the parents who love them, the challenges are just as numerous, as they struggle to find the right school, the right support, the right path. But now there's hope. *Differently Wired* is a revolutionary book—weaving together personal stories and a tool kit of expert advice from author Deborah Reber, it's a how-to, a manifesto, and a reassuring companion for parents who can so often feel that they have no place to turn. At the heart of *Differently Wired* are 18 paradigm-shifting ideas—what the author calls "tilts," which include how to accept and lean in to your role as a parent (#2: Get Out of Isolation and Connect). Deal with the challenges of parenting a differently wired child (#5: Parent from a Place of Possibility Instead of Fear). Support yourself (#11: Let Go of Your Impossible Expectations for Who You

“Should” Be as a Parent). And seek community (#18: If It Doesn't Exist, Create It). Taken together, it's a lifesaving program to shift our thinking and actions in a way that not only improves the family dynamic, but also allows children to fully realize their best selves. “In this generous and urgent book, Deborah Reber lets the light in. She helps parents see that they're not alone, and even better, delivers a positive action plan that will change lives.”—Seth Godin, author of Linchpin “Differently Wired will help parents of children who think differently to accept their child for who they are and facilitate their successful development.”—Temple Grandin, author of Thinking in Pictures and The Autistic Brain
