The Fourth Gospel has mostly been observed as a Spiritual Commentary that has little factual history within its pages. Dr. Gagne seeks to observe this gospel as an authentic account of Jesus as seen through the eyes of an early disciple that was driven from Jerusalem shortly after the death of Stephen in Acts 8:1. This 'beloved disciple' uses only a few incidents from the life of Christ, teachings that may be grouped together and the passion narrative as a testimony of their claim as His followers. The role of the temple incident, and Christ's crucifixion become the center of their claim, and can be seen in Peter's message at Pentecost, the message of Stephen, Phillip, and eventually Paul's convictions of the law and centrality of the meaning of the gospel as depicted in I Corinthians 15. The separation of the Johannine Community from both the Temple Adherents and James Jewish-Christians are the decisive issues in what is now seen by scholars as the separation from the synagogue. Gagne's observations are that the high Christological view of Paul and the Beloved Disciple link them with the Johannine Community, and an early expression of faith prior to the 70's and destruction of the Jewish Temple. A daring probe into the message of the Second Isaiah's Suffering Servant and the Fourth Gospel and Christ being 'lifted up'.

Political philosopher Noëlle McAfee proposes a powerful new political theory for our post-9/11 world, in which an old pathology—the repetition compulsion—has manifested itself in a seemingly endless war on terror. McAfee argues that the quintessentially human desire to participate in a world with others is the key to understanding the public sphere and to creating a more democratic society, a world that all members can have a hand in shaping. But when some are effectively denied this participation, whether through trauma or terror, instead of democratic politics, there arises a political unconscious, an effect of desires unarticulated, failures to sublimate, voices kept silent, and repression reenacted. Not only is this condition undemocratic and unjust, it may lead to further trauma. Unless its troubles are worked through, a political community risks continual repetition and even self-destruction. McAfee deftly weaves together her experience as an observer of democratic life with an array of intellectual schemas, from poststructural psychoanalysis to Rawlsian and Habermasian democratic theories, as well as semiotics, civic republicanism, and American pragmatism. She begins with an analysis of the traumatic effects of silencing members of a political community. Then she explores the potential of deliberative dialogue and other "talking cures" and public testimonies, such as the South African Truth and Reconciliation Commission, to help societies work through, rather than continually act out, their conflicts. Democracy and the Political Unconscious is rich in theoretical insights, but it is also grounded in the practical problems of those who are trying to process the traumas of oppression, terror, and brutality and create more decent and democratic societies. Drawing on a breathtaking range of theoretical frameworks and empirical observations, Democracy and the Political Unconscious charts a course for democratic transformation in a world sorely lacking in democratic practice.

Pathways to Reconciliation

Between 1730 and 1750, powerful healer and vodun priest Domingos Alvares traversed the colonial Atlantic world like few Africans of his time--from Africa to South America to Europe--addressing the profound alienation of warfare, capitalism, and the African slave trade through the language of health and healing. In *Domingos Alvares, African Healing, and the Intellectual History of the Atlantic World*, James H. Sweet finds dramatic means for unfolding a history of the eighteenth-century Atlantic world in which healing, religion, kinship, and political subversion were intimately connected.

Therapeutic Nations

The Testimony of the Fourth Evangelist to the Johannine Community

Rural communities and traditional cultures throughout North America and around the world are being systematically dismantled by the forces of urban civilization. It is no new phenomenon. For over four millennia, the powers of urban civilization have been playing God, oppressing people, and exploiting the earth. This long history has brought us to the brink of disaster in the current economic, ecological, and energy crises confronting the dominant global culture. This book reads the Bible through the lenses of rural communities. The Bible has something to say about the origin and character of urban civilization and the dynamic of its relationship to rural communities. Both Israel in the Old Testament and Jesus in the New Testament were engaged in the formation of rural communities of faith living as alternatives to the dominant cultures of the urban civilizations in which they lived. It turns out that local, face-to-face communities, both rural and urban, along with traditional cultures of all stripes, are God's chosen instruments for the subversive, nonviolent disarming of urban civilization and the healing of God's earth.

The Healing of Our Nation--Ghana

Of more than twenty book titles the Lord has placed upon my heart to write, this is the third. The Body of Christ is in dire need of the message of each and every book, this one being the most timely. Many influential Christians are being taken out by sickness on a regular basis; therefore something must be amiss in today's church. The shortfall is evidently in the modern believers' lack of true biblical knowledge of the sickness and healing subject. This book fills in a multitude of gaps in the Christians' understanding of one of Satan's most subtle weapons. To my knowledge, no other book on the market contains the revelation found in this work. It will absolutely revolutionize your life!

Between Vengeance and Forgiveness

A Christianity with little of Christ for generations causes a nation to become like Judah in Malachi of the Bible. This includes the nations in Western Europe, Canada, Australia, New Zealand, and the U.S. Many people in all of these nations have hearts hardened against the true God and His words to us. Malachi shows that God is preparing His faithful people, so that at the right time He will release them mightily as He did Jesus in Judea. This will heal the hardened hearts of many people who have not yet really tasted God's goodness in Jesus. God has made a way in Christ to rescue any of the above nations from heading toward certain destruction into becoming Jesus' national disciple. For any nation that is like Judah, Malachi helps us to see God's work in His people while the nation keeps corrupting itself. Then God's sudden release of His prepared people with great power and healing changes everything!

Reconciliation: what makes it possible, what impedes it, how to foster and promote it and how to build the social conditions in which it can flourish? These are pressing questions for an increasingly significant concept in community and international relations. This book is a creative engagement with the central terms of reconciliation - forgiveness, nationhood, conflict resolution, justice and memory - and with approaches to questions of listening and understanding the 'other'. It is premised on the view that an essential pathway to the achievement of reconciliation lies in developing and disseminating critical concepts that capture the nuances of practice. Drawing on fields in the social sciences and humanities, including post structuralism, hermeneutics, subaltern studies and social theory, and elaborated in relation to contemporary sites of conflict and peace-making, this collection brings together a unique range of perspectives on the complex issue of reconciliation while offering responses to the key questions being asked of it today.

This is my testimony. It is the story of a Rwandan family caught up in the larger, tumultuous, and often tragic story of Rwanda. Rwandan and Rwanda's neighbors in the Great Lakes region of central Africa. Each revolution began with a promise, only to betray it. We repeatedly have become a nation of "losers and winners", of "perpetrators and victims", with individuals, families, communities and ethnic groups (Hutu and Tutsi) changing positions in a race beset with death and destruction. Rwanda is broken and hurting. All Rwandans, eleven million of them, are dying, alienated, exiled, fearful, traumatized, urgently and desperately in need of healing. In this drama, now in the sixth decade of my life, I have witnessed two profound and disruptive conversions: first to Marxism, and then to Christianity. The first was about conquering enemies and capturing state power, where the ends justified the means. In the second, I have become part of a third, peaceful revolution, now in its infancy among us Rwandans, to become a nation in which we are all winners. Determined to build a free, united and prosperous Rwanda, at peace within and with her neighbors, all Rwandans need to think and act in freedom, truth, forgiveness, and justice, seeing each other through the prism of love so as to overcome their material and spiritual poverty.

Democracy and the Political Unconscious

Postcolonialism and geography are intimately linked through the spatiality of colonial discourse as well as the material effects of colonialism and decolonization. Geographical ideas about space, place, landscape, and location have helped to articulate different experiences of colonialism both in the past and present and the "here" and "there". At the same time, while spatial images such as mobility, margins and exile abound in postcolonial writings, more material geographies have often been overlooked. *Postcolonial Geographies* presents the first sustained geographical analysis of postcolonialism. Exploring and developing the connections between postcolonialism and geography, the essays in this book—ranging across Europe, Australia, Asia, Africa, and North America—investigate the geographies of postcolonialism and chart the contours of a postcolonial geography. MEDITATION, CONFESSION AND HEALING IN WRITING TESTIMONIES This book is about the role of Bible meditation, confession and resolution through writing testimonies, which is a personal reflection on the word of God. This is a vital part of spiritual discipline that can lead to spiritual formation and development and yield great benefits in a Christian's spiritual growth including the healing of the whole person. "Dr. Samuel D. Lee's insightful book explains the inductive method of Bible study and the importance of meditation and confession. He explains very well the value of testimony writing. Meditation is prayerfully thinking about (and sometimes writing about) the contents of the Bible passage. Confession is not only confession of sin; it is also confession of faith and confession of praise and thanksgiving to God. He emphasizes the importance of writing and sharing in building up one's own faith and the faith of others. I believe that this book can be very helpful to the person who seeks to make his personal Bible study more meaningful." - Sarah Barry, Co-founder of University Bible Fellowship "I believe that Dr. Samuel D. Lee has without doubt written in lucid style the essentials of Christian disciplines of meditation in writing. This book is a must for all who desire to grow in their spiritual development in personal meditation." - Dr. David P. Lavigne, General Superintendent, The Evangelical Christian Church in Canada "Unquestionably this book is a significant contribution to the Christian church in postmodern time presenting an effective and persuasive way of spiritual formation and influential discipleship, shown in the case illustration of the practice." - Augustine Suh, Ph.D., Professor in Systematic Theology, Midwest University Samuel D. Lee, Ph.D., Bethany Divinity College & Seminary, is a missionary, Bible teacher and Biblical counsellor in Canada and an ordained pastor.

This study of caregiving during WW I looks anew at life behind the lines for ordinary British soldiers who served on the Western front. Using a variety of literary, artistic, and architectural evidence, Dr Reznick shows that Britain's 'generation of 1914' was a group bound as much by comradeship of healing as by comradeship of the trenches.

He demonstrates how these conflicts are not so different from those we face today, from the inequities of the global economy to the incivilities of the "culture wars."" "For preachers and pastors, students and Bible study groups, and all those concerned with the message of Revelation today, For the Healing of the Nations is a book of challenge, hope, and reconciliation."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. It was this “Holy Experiment,” set out in Penn’s Charter of Privileges, that provided the framework for the United States Government, including the essential underlying mandate to provide freedom for all people. So brilliant was William Penn’s legacy that Thomas Jefferson, writer of the Declaration of Independence, called him, “the greatest lawgiver the world has produced.” This fascinating work looks at the life and impact of William Penn—an impact that still echoes today.
