Three classic works on the art of succeeding in business, life, and high finance from three of modern history's most influential thought leaders. My Life and Work: A legendary inventor and industrialist, Henry Ford pioneered the American automotive industry. prevailing wage and building a diverse workforce. The Autobiography of Andrew Carnegie: Scottish immigrant Andrew Carnegie worked his way up from bobbin boy to telegraph operator to railroad man, learning lessons along the way that would lead to his unparalleled success in the steel industry. In this acclaimed memoir, he shares his story of living the American dream, as well as insights on education, business, and the need to give back for the common good. Lombard Street: Written in response to a nineteenth-century banking crisis in England, Walter Bagehot's influential treatise was one of the first to clearly explain complex financial systems in accessible language. As editor in chief of the Economist, Bagehot also makes proposals for strengthening the economy, such as allowing irresponsible banks to collapse and creating strong central banks to combat inflation. His insights are as relevant today as they were when the book was first published in 1873.

Jewish Wisdom for Business Success

Insightful, inspiring, and revealing, "You Are the Opportunity You Were Waiting For" goes well beyond the simplistic clichés that have monopolized the literature about success for decades. As Luis E. Romero researched the etymology of the word 'opportunity,' his findings led him to create this transformational manuscript containing "The Philosophy of Success in 21 Timeless Principles." The author unearthed these principles from ancient wisdom, classical philosophy, modern psychology, and his own work as a business consultant, executive coach, and keynote speaker. It took him fourteen years to identify them and articulate them in a way that is simple yet insightful. From self-knowledge to democracy, from self-confidence to the market economy, this book explores all the factors that make success a feasible aspiration for every individual. As you will see, this book contains the antidote to every limiting belief that has ever stopped you from creating the life you always wanted.
