The Reformation of the Sixteenth Century

Here I Stand

Robert Montgomery went to relax and enjoy a drink at a local tavern in Battle Creek, Michigan. When he finished his drink, the bartender broke the glass. He would not allow his white customers to drink from the same glass a black man had used. That act of racism in the 1940s didn't break Robert's spirit; it ignited a desire to have a club where black people could go, feel welcome, and enjoy themselves. He and his wife, Helen, quit their jobs and opened the El Grotto Lounge. The club not only became a place blacks could come to enjoy themselves, it became a place where dreams came true. Those such as Junior Walker and the All Stars, Al Green, and even comedian Jimmie Lynch (Dolomite's sidekick) got their start in the small club between Detroit and Chicago. What began as a way to make a difference, became a place to make dreams come true. The history of African Americans in Battle Creek, Michigan, and those who made their musical dreams come true in the city, are shared in this third edition of "Here I Stand: One City's Musical History." Sean Hollins takes never-before-published images of Battle Creek history and musicians to create a history book that keeps the readers engaged. Sonya Hollins shares the stories of these musicians and the town, most of which has never before been published.

From Where I Stand

Written by one of the world's greatest authorities on Martin Luther, this is the definitive biography of the central figure of the Protestant Reformation. "A brilliant account of Luther's evolution as a man, a thinker, and a Christian. . . . Every person interested in Christianity should put this on his or her reading list."—Lawrence Cunningham, *Commonweal* "This is the biography of Luther for our time by the world's foremost authority."—Steven Ozment, Harvard University "If the world is to gain from Luther it must turn to the real Luther—furious, violent, foul-mouthed, passionately concerned. Him it will find in Oberman's book, a labour of love."—G. R. Elton, *Journal of Ecclesiastical History*

The Ground on Which I Stand

On All Hallows Eve in 1517, a young monk named Martin Luther posted a document he hoped would spark an academic debate, but that instead ignited a conflagration that would forever destroy the world he knew. Five hundred years after Luther's Ninety-five Theses appeared, Eric Metaxas paints a startling portrait of the wild figure whose adamant faith cracked the edifice of Western Christendom and dragged medieval Europe into the future. Luther's monumental faith and courage gave birth to the ideals of liberty, equality, and individualism that today lie at the heart of western life.

Justification by Faith Alone

Steve Martin has been an international star for over thirty years. Here, for the first time, he looks back to the beginning of his career and charmingly evokes the young man he once was. Born in Texas but raised in California, Steve was seduced early by the comedy shows that played on the radio when the family travelled back and forth to visit relatives. When Disneyland opened just a couple of miles away from home, an enchanted Steve was given his first chance to learn magic and entertain an audience. He describes how he noted the reaction to each joke in a ledger - 'big laugh' or 'quiet' - and assiduously studied the acts of colleagues,

stealing jokes when needed. With superb detail, Steve recreates the world of small, dark clubs and the fear and exhilaration of standing in the spotlight. While a philosophy student at UCLA, he worked hard at local clubs honing his comedy and slowly attracting a following until he was picked up to write for TV. From here on, Steve Martin became an acclaimed comedian, packing out venues nationwide. One night, however, he noticed empty seats and realised he had 'reached the top of the rollercoaster'. BORN STANDING UP is a funny and riveting chronicle of how Steve Martin became the comedy genius we now know and is also a fascinating portrait of an era.

Combining biographical narrative and analytical essays, this book provides a new, comprehensive view of Martin Luther's life and times, along with a new examination of the radical theology that sparked the Reformation and changed the Christian world forever. Drawing on sources new and old, the authors chronicle the fascinating, turbulent life of the Great Reformer from a historical point of view. Luther's revolutionary thoughts on scripture and salvation are explored from a

theological perspective, offering a fresh appraisal of the doctrine that irrevocably divided the Roman Catholic Church.

I Stand by the Door

Biography of a forgotten poet who used his name and influence to speak up for those on the margins of society. Few surnames resonate in American history more than Beecher. The family's abolitionist ministers, educators, and writers are central figures in the historical narrative of the United States. The Beechers' influence was greatest in the nineteenth century, but the family story continued—albeit with less

public attention—with a descendant who grew up in Birmingham, Alabama, during the early twentieth century. John Beecher (1904–1980) never had the public prominence of his famous ancestors, but as a poet, professor, sociologist, New Deal administrator, journalist, and civil rights activist, he spent his life fighting for the voiceless and oppressed with a distinct moral sensibility that reflected his self-identification as the twentieth-century torchbearer for his famous family. While John Beecher had many vocations in his lifetime, he always considered himself a poet and a teacher. Some critics have compared the populist elements of Beecher’s poetry to the work of Walt Whitman and Carl Sandburg, but his writing never gained a broad audience or critical acclaim during his lifetime. In *Here I Stand: The Life and Legacy of John Beecher*, Angela J. Smith examines Beecher’s writing and activism and places them in the broader context of American culture at pivotal points in the twentieth century. Employing his extensive letters, articles, unpublished poetry and prose, and audio interviews in addition to his numerous published books, Smith uncovers a record of public concerns in American history ranging from the plight of workers in 1920s steel mills to sharecroppers’ struggles during the Depression to the civil rights movement of the 1960s.

Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted

volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

Luther

This early work on Martin Luther is both expensive and hard to find in its first edition. It details the life of the monk responsible for translating the Bible from Latin into German and for inspiring the Lutheran movement. This is a fascinating work and is thoroughly recommended for anyone interested in the history of

European religion. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

This is one of our all-time bestselling books, over 12,000 copies sold thus far. As some stray from the long-held Reformation view and understanding of justification by faith alone, we felt it necessary to add a new chapter by Don Kistler. His chapter shows that any addition to what Christ has done becomes total subtraction in this vital area.

The genie allowed each person to bring one thing. The first friend brought a canteen so he wouldn't die of thirst. The second friend brought an umbrella to keep the sun off. "My name is Zhang Rongliang, and I am an unashamed follower of Jesus Christ....It is considered quite dangerous to reveal the contents of this book, but these are stories that need to be told for God's glory and for the encouragement of the

church.” So begins this extraordinary first-person account by the prominent leader of one of the largest underground churches in China. A former Communist Party member, Zhang took a stand for Christ and was targeted for prison, work camps, and torture, all the while helping to build a network of millions of faithful believers. Spanning the time of Mao’s regime to today, Zhang testifies of God’s supernatural movements, of the sacrifice of countless Christians who loved and served Christ—regardless of the cost—and of the exciting new vision among believers in China to reach not only the Chinese but the entire world with the gospel.

The brilliant 1969 Hugo Award-winning novel from John Brunner, *Stand on Zanzibar*, now included with a foreword by Bruce Sterling Norman Niblock House is a rising executive at General Technics, one of a few all-powerful corporations. His work is leading General Technics to the forefront of global domination, both in the marketplace and politically---it's about to take over a country in Africa. Donald Hogan is his roommate, a seemingly sheepish bookworm. But Hogan is a spy, and he's about to discover a breakthrough in genetic engineering that will change the world and kill him. These two men's lives weave through one of science fiction's most praised novels. Written in a way that echoes John Dos Passos' *U.S.A. Never had anyone so openly questioned the Church's authority. Jew and American? How can we claim our own identities when our lives are linked so closely to others’? These are the questions at the heart of Jonathan Safran Foer’s first novel in eleven years—a work of extraordinary scope and heartbreaking intimacy. Unfolding over four tumultuous weeks in present-day Washington, D.C., *Here I Am* is the story of a fracturing family in a moment of crisis. As Jacob and Julia Bloch and their three sons are forced to confront the distances between the lives they think they want and the lives they are living, a catastrophic earthquake sets in motion a quickly escalating conflict in the Middle East. At stake is the meaning of home—and the fundamental question of how much aliveness one can bear. Showcasing the same high-energy inventiveness, hilarious irreverence, and emotional urgency that readers loved in his earlier work, *Here I Am* is Foer’s most searching, hard-hitting, and grandly entertaining novel yet. It not only confirms Foer’s stature as a dazzling literary talent but reveals a novelist who has fully come into his own as one of our most important writers.

Life in the Asperger's Jungle

In 1871, newly freed slaves established the community of Tamina—then called “Tammany”—north of Houston, Texas, near the rich timberlands of Montgomery

County. Located in proximity to the just-completed railroad from Conroe to Houston, the community benefited from the burgeoning local lumber industry and available transportation. The residents built homes, churches, a one-room school, and a general store. In the decades since, urban growth and change have overtaken Tamina. The sprawling communities of The Woodlands, Shenandoah, Chateau Woods, and Oak Ridge have encroached, introducing both new prospects and troubling complications, as the residents of this rural community enjoy both the benefits and the challenges of urban life. On the one hand, the children of Tamina have the opportunity to attend some of the best public schools in the nation; on the other hand, residents whose education and job skills have not kept pace with modern society are struggling for survival. Through striking and intimate photography and sensitively gleaned oral histories, author Marti Corn has chronicled the lives, dreams, and spirit of the people of Tamina. The result is a multi-faceted portrait of community, kinship, values, and a shared history. In 2016, the book cover portrait of Tamina resident Johnny Jones was featured at the Smithsonian's National Portrait Gallery. This second edition of Corn's classic photographic essays and interviews with Tamina residents includes a helpful classroom guide for collecting and studying oral history. The result is a rich new resource that affords readers a window into a little-understood part of our shared past.
