What does a physician do about negative patient reviews on rate-your-doctor websites? Should doctors advertise on Google? How much should a medical practice's website cost? Are Facebook and blogging just passing fads? As medical practices face increasing business pressures in the 21st century, health care providers and executives ponder these and similar questions every day. The *Totally Wired Doctor* gives plain-talk answers and offers common-sense guidance to managing the formidable assortment of technology and market forces reshaping modern health care. Health providers particularly specialists need a steady flow of new patients. How and where they get them depends less on referring physicians and more on patients shopping online for information first and for doctors second. In *The Totally Wired Doctor*, author Ron Harman King makes Internet technology easy to understand for medical professionals, examining key elements of medical marketing, patient education and building a successful practice through the online and offline processes patients use to select health care providers. About the Author Ron Harman King is founder and CEO of Vanguard Communications, a Denver-based marketing, public relations and communications technology firm specializing in growing specialty medical practices and specialty hospitals. Through its MedMarketLink program, Vanguard has combined the disciplines of online and

It's Mid-October I have already spent over five months this year in hotels, and I

have another month to go. In the last few years, those hotel and resort stays have included properties in United States, Canada, Scotland, England, France, Wales, Switzerland, Germany, Austria, Belgium, Singapore, Thailand, Spain, Portugal, Holland, Italy, Dominican Republic, Jamaica, Morocco, South Africa, Panama, and Dubai. While I often get to enjoy these as a VIP guest as a consultant or in my role as publisher of World's Best Golf Destinations, the vast majority are as an unheralded paying guest. Add this vast first-hand travel experience to the over twenty years my company Legendary Marketing has been a world leader in golf, resort, and destination marketing, and I could easily claim to have more experience than all but a handful on the planet. That's before I mention that we managed several properties ranging from a thirty-eight-room hotel to a 168-room resort! While I pick up new and innovative hotel marketing ideas all over the world, the vast majority of hotel marketing that I see from the individual entrepreneur with a handful of rooms to the multinational chains and mega resorts is poor and ineffective. They get caught up in style over substance, branding rather than results and mediocre multichannel marketing without actually acing a single one! A simple change in marketing strategy can have a major impact on your income. In recent years we have produced million-dollar turnarounds at two major resorts we worked with, based on marketing strategy alone. We have saved several family-owned resorts from certain death and helped countless small independent hotels all over the world by showing them simple ways to increase their reach on a tiny budget. It's exciting stuff so open up and let's get started

ÊIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the

directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight poles—that is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

The book focuses on 15 different ways to drive employee engagement and reinforce a strong corporate culture. It's the second book in the goldfish trilogy. The first book was an Amazon Best Seller entitled, What's Your Purple Goldfish. Purple focused on customers, whereby Green focuses on employees. Both books are based on a revolutionary new approach called marketing g.l.u.e. (marketing by giving little unexpected extras). The book is based on the findings of the Green Goldfish Project, an effort which crowd sourced 1,001 examples of signature added value for employees. Key themes emerged from the Project. The book is filled with over 200 examples. PRAISE FOR WHAT'S YOUR GREEN GOLDFISH "Stan is the sherpa that guides executives along the journey between the heart and mind of business stakeholders. The Network Marketing Bible - written by a successful network marketer - is the Authoritative work on the subject of how to make money by simply investing a few hundred dollars in order to make thousands of dollars per month in just a few months. Today however, there are a plague of opportunities out there today and each of them claim to be the best and fastest way to make millions. Which ones do you choose? This book sorts through all of the noise and comes down with The Ten Commandments of Network Marketing and good MLMs, which thou shalt not disobey under penalty of being damned to obscurity and poverty forever. The

Author of this book - Mike Mathiesen - has three decades of making his living over the Internet and he has made great money and been highly successful marketing various products on the Web. However, today, due to the horrible economy and lack of real jobs that pay anything in America today, there are now millions of desperate Americans who need to pay their bills and feed their families and who are grasping at the first opportunity that comes their way. And so they are willing to say and do things that should never be said or done. Therefore, be careful - and JOIN only the best. And - more importantly to be successful today, you need a system that gets you found more often so that other folks like yourself can JOIN YOU. This book gives you such a system and even a sure-fired way to get your company website on the First Page of Google Search Results in a new Bonus Chapter. Don't break these Ten Commandments of a successful networker, join the right management team, and a few others all detailed in the book, and thou Shalt Not Fail. The Bible shows you the way, how to find the right path and stay on it. How to make yourself heard above the din, identify the right product, an easy to use and duplicatable marketing system, the right upline support and much much more. The reason to spend a few hours with this book is that it could save the reader many thousands of hours pursuing the wrong opportunity. There are currently too many people peddling pills, potions and drinks that are over-priced and underwhelming in effectiveness. When someone tells you that you are going to make tons of money your first week in the business, whatever business they are talking about, you need to hang up on them, because no one is making that kind of

money any more. People just don't have the discretionary money to gamble on an opportunity as they did a few years ago, and so this kind of appeal to your sense of desperation, is not the way to go. It will result in a horrible heartbreak when you realize how much money you have wasted in buying products that everyone already has and doesn't need any more of. (Calm down all you English Teachers - I know - never end a sentence with a proposition: -.) And, it's not the money wasted that should concern you when you get these calls. It's the amount of time you will have wasted in trying to make this scam business work. It never will and you will have burned all your bridges and ruined your reputation as you try desperately to find a another "sucker" like you. They will not appear. Where you will be taken to is a new paradigm for network marketing where you will be one of the few who are marketing a product that everyone wants, needs and has to have three times a day, a product that cannot spoil, a product that people respond to because they are forced to consume it every day and therefore if you can merely show them how to get some of this from you, over the Internet, instead of their local provider, as they are accustomed to doing, you make money every month. When they see the same opportunity to get their friends to do the same, they make money too. No more wasted time or money because you have merely re-directed some of their spending.

Articles of religion or confessions of faith are used to inform others of what a person, a church, or society believes with respect to religious beliefs. Some churches restrict membership to those who will subscribe to their articles of religion. One of the problems that this brings is that there comes a time when a new believer cannot, in conscience, subscribe to a tenet of belief that they do not understand. It may be the article is badly worded or poorly written or may, in fact, be in error. In which case a new believer could not in conscience subscribe to something they do not understand. Or it may be a member of the church who begins to realize their articles of religion are in error. This book seeks to inform of the difficulties that articles of religion among Particular Baptists have experienced since the first London Baptists 1646 2nd Edition was published and offers an alternative solution to this problem.
