“Exquisitely funny, these letters are also an historical treasure that gives tremendous insight into the day-to-day life of a typical USAAF fighter group” (Jay A. Stout, author of *Vanished Hero*). Ted Fahrenwald flew P-47s and P-51s with the famed 352nd Fighter Group out of Bodney, England, during the critical tipping-point period of the air war over Europe. A classic devil-may-care fighter pilot, he was also a distinctively talented writer and correspondent. After a typical day of aerial combat and strafing missions over Nazi-occupied Europe—and of course, the requisite partying and creative mischief on base—Ted would sit in his Nissen hut at a borrowed manual typewriter and compose exquisitely humorous letters detailing his exploits in the air and on the ground to his family back home. But these letters are not the mundane missives of a homesick young man who missed his mother’s cooking. Rather, this journalistically educated and incurably comedic pilot detailed his aerial exploits in a hilarious and self-effacing style that combines the vernacular of the day with flights of joyful imagination rivaling St. Exupery. And he didn’t sanitize his letters—much. Ted enthusiastically narrates the day-to-day rollercoaster ribaldry that was the natural M.O. of the young men who were tasked to kill Hitler’s Luftwaffe. His descriptions of near-constant drinking, skirt-chasing, gambling, and out-and-out tomfoolery put the lie to the notion of the Greatest Generation as an earnest band of do-gooders. Praise for Ted Fahrenwald’s *Bailout Over Normandy* “A 1940s masterpiece with a heart and soul unlike anything that’s been published.” —Jay Stout, author of *Fortress Ploesti* “Get to know one of the more rambunctious members of the Greatest Generation with this memoir.” —Book News, Inc.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

Odyssey of a Great Lakes Sailor

From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and

includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.

The inspiration for the Lifetime movie and a guide for parents confronting their autistic children's journeys to adulthood. Parents of autistic children often wonder: What will happen to our kids when they grow up? Can they work? Have relationships and their own families? Here is the poignant story of one woman watching her autistic boys reach adulthood. A single mother barely making ends meet, Corrine Morgan-Thomas could hardly afford doctors for her twins, Stephen and Phillip. After their diagnosis of autism, no one else thought these boys would ever amount to anything. But Corrine managed single-handedly to keep the boys out of institutions-and in "regular" school. And their inspiring story became Lifetime television's *Miracle Run*. The real miracle, though, was what happened where the movie left off-when Stephen and Phillip graduated to face adult autism. From their diagnosis to the present day, when the boys have grown into young men leading happy lives, Corrine's eye-opening story is full of candor, humor, and most of all, hope.

Running Great Meetings and Workshops For Dummies

Everyone said it couldn't be done; even internationally renowned sports scientists such as Dr. Tim Noakes. Certainly no-one had done it before, though many had tried: to run the Great Wall of China, end to end, non-stop. The journey would start in the Gobi Desert, cross the jagged Taihang Shan range, and end at the Bo Sea. It would involve blood boiling heat and mummifying sandstorms, soul-numbing mountain nights, incidents with bandits and draconian officials, pig's-head soup and witnessing large-scale environmental devastation. But on-one had counted on teh tenacity of South African nature-lover Braam Malherbe. In runningthe main intact section of the Grat Wall, 4 500 kilometres end to end, Braam and his running partner David Grier set a world first. But Braam would have to call on reserves far deeper - physically and emotionally - than even he realised he had. China was never going to let him off lightly; then again, it would not leave a worthy traveller unmoved or unchanged. What began as a running-away, from long-buried childhood trauma, family suffering and loss, as well as hurt felt for the state of the planet, would eventually become a journey towards inner peace and understanding. The book concludes with the writer running into a new vision of healing the planet, step by small step, one person at a time.

livelihood in supposedly a great country. It is not the country that is to blame but people like Mr. Martin who are so twisted that they lose sight of the common man and use them and abuse them for their personal gain. The book gives a true account as to how one large corporation hounded one individual who spoke the truth and who sought justice and who wanted to make a change and to make the scenery better for future generations of Sea going personnel. The book also gives you page-by-page description of how a corporation self-destructs. Surely there must be a lesson in all this. Experiences included in the book are mind-boggling. They include Shipping accidents, shipboard assaults, battery, Companys BLACKLIST, which includes a list of so called undesirables, pollution, environmental and ecological damage. Mergers and acquisitions, dismissals and corporate lynching, witch hunt, Human Rights issues, illegal constitutional changes, changing pension laws and the Canada Shipping act illegally to suit the ship owner, Corporate Corruption and greed. There is one chapter solely on Shipboard assaults and a list of undesirables that sailed the Lakers. It gives me great satisfaction to know that I could share my experiences with a wide variety of Human Beings and I am sure people who read my book would be flabbergasted when they get to know as to what goes on behind the scenes of a Maritime Industry of a G-8 Country. How soon one forgets that we sailors help to build the wealth of a nation by carrying goods that helps to grow the nations economy and that we sailors have also helped fight the enemy during the first and second world wars and also make a major contribution in feeding an entire nation. It is also a book about vengeance and Revenge-an eye for an eye and a tooth for a tooth.. Just like Edmond Dantes In the Count of Monte Cristo by Alexander Dumas. To pray sometimes for a man, who like Satan thought himself for an instant equal to God, but who now acknowledges with Christian humility that God alone possesses supreme power and infinite wisdom. There is neither happiness nor misery in the world; there is only the comparison of one state with another, nothing more. He who has felt the deepest grief is best able to experience supreme happiness. We must have felt what it is to die, that we may appreciate the enjoyments of living. "Live then, and be happy, beloved children of my heart, and never forget that until the day when God shall deign to reveal the future to man, all human wisdom is summed up in these two words, - `Wait and hope. Your friend, "Edmond Dantes, Count of Monte Cristo." Above all it is one mans search for truth and justice, and a triumph of adversity--a true Sailors Odyssey.

Barefoot Running Step by Step

Running is a way of life for the Schneider family, but for them, it's about much more than fitness and competition. *Silent Running: Our Family's Journey to the Finish Line with Autism* is the story of how running saved their lives. At 21 months old, identical twin brothers Alex and Jamie were diagnosed with autism. It was 1992, a time when autism was far from a household word, before online autism forums and advocacy groups even existed. Robyn and her husband Allan were heartsick, but determined to find a cure for their sons, and thus their journey into the world of autism began. But soon it was clear that both Alex and Jamie had severe autism and would most likely not be cured. In *Silent Running*, Robyn Schneider takes readers on an intimate journey from a double diagnosis of autism, through many years of heartache, to a place of joy. *Silent Running* is a story of unrelenting love, of parents who never stop chasing after the silver lining, intent on finding happiness for their sons. And find happiness they do—in running. In Schneider's moving memoir, readers see Alex and Jamie transformed through running, their lives enriched. And eventually they reach a place where running, rather than autism, defines them. Along the journey, both Robyn and Allan face their own personal challenges. Allan begins running to help manage his symptoms of multiple sclerosis, and Robyn, while undergoing chemotherapy for breast cancer, laces up her own running shoes, determined to run her way to recovery—for her family and for herself. And she hasn't stopped. Despite their incredible daily challenges, Alex and Jamie have now run in almost 150 mainstream races, including nine marathons. And Robyn and Allan have been right there, either cheering for or running alongside their sons. In *Silent Running*, Robyn Schneider shares her family's remarkable story of triumph in the face of enormous hurdles, and the passion that has fueled their fight. It is an extraordinary and ins

This book is based on the premise that being good is just not good enough in today's competitive environment. For hotel owners and managers who want to achieve lasting business success through a root and branch review of key processes, How To Run a Great Hotel is a 'must read'. It will serve as a personal business consultant for the hotel professional, probing and testing their thinking across four critical themes which are proven to drive excellence. The content focuses less on day-to-day operations and more on big picture concerns such as strategy development, enhancing leadership skills, engaging employees and attaining customer focus, all of which are central to building a great hotel. Without clear direction in these important areas to guide activities, ongoing daily effort can be counterproductive. It's easy for hoteliers to lose sight of their goals when, engulfed by operational demands, they are often forced to just do rather than to think about what they are doing. This book provides the reader with an opportunity to step back and take a fresh look at their hotel, no matter where it currently lies in its life cycle. The purpose of the book is to get them to question what it is they are doing, why they are doing it and to offer guidance on how they can make it even better. The book is easy to read, practical, and action oriented. It will help the reader to define clear plans with measurable goals for improved personal and business performance.
