Bob Harris' Guide to Stamped Concrete

Growing up in the still segregated South, Wanda early on had her outlook Colored Cold. The daughter of an unfaithful undertaker, she had to pass the house of Miss Kathleen, her father's mistress, on her way to school, whose children shouted taunts, even the tobacco-chewing toddler Tilly. When her Arkansas town enforced integration, white reporters came to her home to interview her mama, who had bravely kept her children in school. Mama spoke her mind in perfect English and didn't put up with people mistreating her family. Mistreatment from Daddy was another matter. Neglect and callousness from this relationship continued the chill that froze Wanda's future relationships. Colored Cold gives a chilling account of poverty, abuse, and compounded consequences from poor choices. Although most of her wisdom came through difficult experiences, Wanda refused to succumb and strengthened her resolve. This revealing autobiography shares one woman's heartache from broken promises and painful relationships.

It explains the important requirements for residential and light commercial structures in plain, simple English so you can get it right the first time.

Concrete Houses, how They Were Built

A brilliantly dark literary debut of death, destruction and interior decoration. "But for the floors, and the sofa, and the porn, and the dead and missing, the flat was restored to order." An old friend asks you to look after his two cats and his apartment. What could go wrong? Care of Wooden Floors is about how a tiny oversight can trip off a disastrous and farcical (fatal, even) chain of consequences. It's about a friendship between two men who don't know each other very well. It's about alienation and being alone in a foreign city. It's about the quest for perfection and the struggle against entropy. And it is, a little, about how to take care of wooden floors. Oskar is a Mittel-European minimalist composer best known for a piece called "Variations on Tram Timetables." He is married to a Californian art dealer named Laura and he lives with two cats, named after Russian composers, in an Eastern European city. But this book isn't really about Oskar. Oskar is in Los Angeles,

having his marriage to Laura dismantled by lawyers. He has entrusted an old university friend with the task of looking after his cats, and taking care of his perfect, beautiful apartment. Despite the fact that Oskar has left dozens of surreally detailed notes covering every aspect of looking after the flat, things do not go well. Dark, funny and compelling, this novel takes your breath away with its extraordinarily distinctive writing. The voice is unexpected, constantly, but consistently conveys a universal human experience that pulls the reader right into the world of the narrator. From the Trade Paperback edition.
