Introduction to Criminal Justice

The SAGE Guide to Writing in Criminal Justice Research Methods equips students with transferable writing skills that can be applied across the field of criminal justice—both academically and professionally. Authors Jennifer M. Allen and Steven Hougland interweave professional and applied writing, academic writing, and information literacy, with the result being a stronger, more confident writer, researcher, and student in criminal justice. Focused on teaching students how to write in the academic setting while introducing them to a number of other writing tools specific to research methods, such as writing literature reviews, abstracts, proposals, and more. The perfect companion for any criminal justice research methods course, this brief text focuses on key topics that will benefit students in their classes and in the field.

Computer Books and Serials in Print

This uniquely comprehensive book provides instructors and students the best of both worlds – a text with carefully selected accompanying readings. Each Section has a 15p. introduction (a "mini-chapter") that contains vignettes, photos, tables and graphs, end of chapter questions and Web-exercises and is followed by 3-4 supporting readings. The theory Section introductions will end with a concluding sub-section that focuses on policy and crime prevention. The theory Sections contain a unique table that compares and contrasts the theories presented in that Section. A "How to Read a Research Article" guide for students appears after the

book's Introduction in Section 1, prior to the first reading. The guide refers students to portions of the first reading to illustrate key aspects of a research article. The readings are carefully selected, edited journal articles appropriate for an undergraduate audience. Additional readings will be found on the accompanying Study Site. Full ancillary package with IR CD for instructors and a comprehensive study site for students.

Research Memorandum

The Journal of Criminal Law & Criminology

In his gripping and provocative debut, anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. *The Land of Open Graves* reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. Drawing on the four major fields of anthropology, De León uses an innovative combination of ethnography, archaeology, linguistics, and forensic science to produce a scathing critique of “Prevention through Deterrence,” the federal border enforcement policy that encourages migrants to cross in areas characterized by extreme environmental conditions and high risk of death. For two decades, this policy has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field. In harrowing detail, De León chronicles the journeys of people who have made dozens of attempts to cross the border and uncovers the stories of the objects and bodies left behind in the desert. *The Land of Open Graves* will spark debate and controversy.

The Land of Open Graves

The fifth edition of this introductory Criminal Justice text. The contents have been pared down to five parts and sixteen chapters to best explain the intricacies of criminal justice policy and practice. The book has been thoroughly updated by Patrick Anderson to cover developments in policing, corrections, the war on drugs, and to include introductory cases on field practice, the criminal justice system in practice, the ideological framework of crime control, and discussions of criminological theory and crime punishment.

"Extremely informative. . . deserves a wide readership, both inside and outside police departments." —Publishers Weekly "An imaginative and insightful account of the day-to-day life of the black police officer in a large urban environment. A must read for all police officers, white as well as black." —Marvin Blue President, Guardians Association New York City Police Department ". . . well written and achieves its purpose. It will be of interest to specialists and students of race relations, urban problems, and criminal justice issues."
—Library Journal This book is about the world of black police in New York City: who they are, how they work with the department, how they are recruited by whites, how they are treated in turn by their fellow blacks, and how they operate day by day in the richest as well as the poorest parts of the city. Leinen provides direct quotations from police, citizens, city administrators, and street hustlers, as well as detailed assessments of encounters in the everyday relations between police and the public.

Formerly a Nelson Hall title, this text is a comprehensive introduction to the study of criminology, excluding additional chapters on the criminal justice system (police, courts, and corrections) as can be found in some texts. INTRODUCTION TO CRIMINOLOGY avoids an overly legal and crime control orientation. It concentrates on the vital core of criminological theory--theory, method, and criminal behavior. Hagan investigates all forms of criminal activity, such as occupational crime, political crime, and environmental crime. He explains the methods of operation, the effects on society, and how various theories account for criminal behavior.

Introduction to Criminal Justice

Introduction to Criminal Justice, Ninth Edition, offers a student-friendly description of the criminal justice process—outlining the decisions, practices, people, and issues involved. It provides a solid introduction to the mechanisms of the criminal justice system, with balanced coverage of the issues presented by each facet of the process, including a thorough review of practices and controversies in law enforcement, the criminal courts, and corrections. In this revision, Edwards gives fresh sources of data, with over 600 citations of new research results. New sections include immigration policy, disparities in the justice system, Compstat and problem-oriented policing, victim services in the courts, and developments in drug policy. This edition also has expanded coverage of police use of force. Each chapter now includes a text box on a policy dilemma like cash bail or stop-and-frisk policies. Appropriate for all U.S. Criminal Justice programs, this text offers great value for students and instructors.

Introduction to Criminal Justice

Introduction to Criminology, Why Do They Do It?, Second Edition, by Pamela J. Schram Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context.

Crime, Criminology, and Public Policy

Introduction to Criminal Justice

A non-technical introduction to what is known about crime, this book offers unusual insight into the reasoning of criminologists, penologists, and policymakers concerning the problems of deterrence, prevention, and justice for the innocent. Walker emphasizes the importance of rules as a determinant of human behavior, illuminating the crucial difference between rule-following and rule-breaking behavior and the special status of the rules that constitute the criminal and penal codes. He also includes chapters on such vital topics as the natural history of lawbreaking, sentencing, justifications of penalties, incapacitation, deterrence and education, juvenile justice, stigma, victimology, and crime prevention.
