Littell's Living Age

Meet the new kid on the block Karah, the heroine in Warriors of the Light. Shes a heroine who offers more retail value at \$13.95 than billions earmarked to fight school-bullying incidents. Shes an excitable heroine who triumphs without the use of mystical incantations or witchs brews. In fact, none of the cadets or creatures in Warriors of the Light need to learn a single magic spell. Karah and her comrades conjure up Gods tangible power: The kind children right here on planet Earth need to be able to tap into to slay real-world dragons. After all, how many kids can find an ancient book in a library of magic that will teach them how to boil the eye of a newt? God is the biggest thing in their valleys. He is how they get things done. Even Harry Potter could learn a thing or two from Karahs resourceful tactics. Yes, there are lessons galore smothered with hot fudge dished-up when she attends spiritual warfare boot camp alongside two boys, and Jesus teaches her how to brilliantly thwart evil. But dont worry, this book wont put anyone to sleep. Warriors of the Light is a fabulous wild ride full of unforgettable characters jumping off the margins of every page with wonder and laughter.

This collection bundles Chris Walley's entire epic Lamb among the Stars series into one e-book for a great value! #1 The Shadow and Night In the first book in the epic Lamb among the Stars series, author Chris Walley weaves the worlds of science and the spirit, technology and supernatural into something unique in science fiction. Twelve thousand years into the future, the human race has spread across the galaxy to hundreds of terraformed worlds. The effects of the Fall have been diminished by the Great Intervention, and peace and contentment reign under the gentle rule of the Assembly. But suddenly, almost imperceptibly, things begin to change. On the remotest planet of Farholme, Forester Merril D'Avanos hears one simple . . . lie. Slowly a handful of men and women begin to realize that evil has returned and must be fought. What will this mean for a people to whom war and evil are ancient history? Thus begins the epic that has been described as "If C. S.

Lewis and Tolkien had written Star Wars.” The Shadow and Night was previously published in two volumes: The Shadow at Evening and The Power of the Night. #2 The Dark Foundations The Dark Foundations continues the epic story begun in The Shadow and Night. Far beyond the tranquility of the Assembly worlds, Nezhuala, Lord-Emperor of the Dominion, is preparing a merciless and crushing attack on Farholme as a prelude to an onslaught on the Assembly. Back on Farholme, Commander Merral D’Avanos recovers from his wounds after the battle at Fallambet where the intruders were destroyed. Yet even as Merral dreams of a return to peace, he receives a warning of imminent war on a massive scale he cannot ignore. Amid the urgent preparations for battle, Merral and his friends realize the inadequacy of their defenses. Then, with weeks to spare before the predicted eve of war, Merral receives an offer of assistance from the strangest of sources. But can it be trusted? As the wave of war finally crashes over Farholme, Merral must find the answer to other questions in the heat of battle: Can Farholme survive the growing internal strains? Who will pay the price for victory? Will his own weaknesses undo both him and his world? #3 The Infinite Day “Vero, you remember you once said there were people who would follow me to the gates of hell?” / “A figure of speech.” / “We’d better find them. That’s where we’re going.” / After the defeat of the evil Dominion forces at Farholme, Commander Merral D’Avanos prepares a task force to rescue thirty hostages captured by the fleeing Margrave Lezaroth. Merral’s only hope is that he can get to the hostages before they’re taken to Lord-Emperor Nezhuala at the Blade of Night—the nexus of the Dominion’s power. But in order to get there, Merral and his crew will have to survive a perilous trip through Below Space. Meanwhile, news of the Dominion’s defeat at Farholme reaches Ancient Earth but is tempered by the sobering truth of the enemy’s growth and strength. It is now clear that an attack on the Assembly is imminent, but how far should the Assembly go to stop it? And does the real danger lie in the Dominion or in the subtle evil that has arrived at the heart of the Assembly itself? The Infinite Day is the thrilling conclusion to the epic Lamb among the Stars series that has readers and critics raving.

When uppish airline captain Geoff Mayer finds his ancestors were workhouse paupers it's a terrible shock. He has always been comfortably-off - his father owned a chain of grocery stores, and his grandfather was a doctor. So he expects his earlier forebears to have been well-heeled perhaps, even, nobility. When they turn out to be old-style working class, it's anathema to Hanna, Geoff's snobbish wife. It is the mid-80s, and both are staunch supporters of Tory Prime Minister Margaret Thatcher. Hanna sees Geoff's embarrassing family tree as a threat to her status. But infuriatingly, as he traces his ancestors he even starts to sympathise with them. Worse, as Geoff works back to the 1700s, he discovers his female forebears working London's streets as prostitutes He finds little other information except records of births, marriages and deaths. Geoff doesn't even know the shocking truth of what happened to his own mother. But for the reader, the truth is revealed as the story goes "live" in each generation and all have their own dramatic story. Secretly Hanna has had a string of lovers. When she walks out on their 23 year

marriage and tells their son that Geoff is not his father, his cosy world is shattered. This is a story that combines life in the turbulent and divisive "Thatcher" 1980s with the realities behind England's "good old days" - highlighting some interesting parallels with modern times.

Ballou's Pictorial

'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought. Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes The Lady in the Looking Glass, A Society, The Mark on the Wall, Solid Objects and Lappin and Lapinova.

A Love Too Beautiful

The Life of Isabella Bird (Mrs. Bishop)

Humiliated by her weak and unfaithful husband, Queen Isabella, wife of England's King Edward II, plots her revenge, joining forces with her lover, Roger Mortimer, to seize control of the throne, in a historical novel set against the backdrop of fourteenth-century England. Original. 75,000 first printing.

The Horn and the Roses

Rupert Everett's first memoir - Red Carpets and Other Banana Skins - was an international bestseller and an instant classic on publication in 2006. Reviewers compared him to Evelyn Waugh, David Niven, Noel Coward and Lord Byron. But

Rupert Everett is - of course - one of a kind. Mischievous, touching and nothing less than brilliant, this new memoir is filled with stories, from childhood to the present. Astonishing encounters; tragedy and comedy; vivid portraits of friends and rivals; razor-sharp observations of the celebrity circus from LA to London and beyond there is something extraordinary on every page. A pilgrimage to Lourdes with his father is both hilarious and moving. A misguided step into reality TV goes horribly wrong. From New York to Moscow to Berlin to Phnom Penh, Vanished Years takes the reader on a wild and wonderful new journey with a charming (and rather disreputable) companion.
