Creating Environmental and Occupational Health

This overview of the safety engineering field examines the areas and problems confronting engineers and other health and safety professionals. Discusses various accident conditions and the ways to control them. Covers loss control, human resource development management and training, design assurance, health care, and occupational design. Examines the disaster or imminent disaster situation and the appropriate action to take.

Occupational Safety and Health on Plantations, with Special Reference to Mechanisation and the Use of Chemicals and to Labour Inspection

Labour Capital and Society

Occupational hazards have plagued human civilisation since time immemorial and much of the progress in making workplaces safer is reflected by, and recorded in, the academic periodicals of environmental and occupational health. As a result, careful examination of these journals provides an interesting record of the field itself, as well as documenting the concerns and issues deemed important by editorial boards and contributors over time. Derek R. Smith is Professor of Environmental and Occupational Health, Deputy Director (Research) of the Central

The Saskatchewan Labour Report

Written by one of the leading asbestos experts for both plaintiff and defense attorneys, occupational and environmental health professionals, as well as others in the field of toxic substances control, *Asbestos: Medical and Legal Aspects* has become the definitive resource on the medical and legal aspects of asbestos. *Asbestos: Medical and Legal Aspects* provides a comprehensive examination of the public health history of asbestos, from the origins of industrial use to the present. It includes in-depth coverage of prior and ongoing litigation; extensive evaluation of the legal arguments put forth by plaintiff and defense counsel; and provides crucial information, materials and resources on the evolving corporate knowledge of asbestos hazards. The book covers in detail: asbestosis and cancer; compensability of asbestosis and cancer as occupational diseases; thresholds and standards used to determine safe or acceptable levels of asbestos exposure in the workplace; and company knowledge of asbestos hazards, gleaned from countless depositions, company records, industry consultants and trade associations. Some items new to the Fifth Edition include: extensive discussion of corporate knowledge and responsibility for asbestos hazards extensive examination of the international

struggle over asbestos, whereby some countries have banned asbestos while others have continued to expand their usage of asbestos in building materials detailed discussion of alternatives to asbestos.

Developed through an extensive process of consultation with leading professionals and health and safety institutions worldwide, the new, expanded, and long-awaited Fourth Edition of this well-respected reference provides comprehensive, timely, and accurate coverage of occupational health and safety. Aimed at the specialist and non-specialist alike, such as lawyers, doctors, nurses, engineers, toxicologists, regulators, and other safety professionals, this compendium is organized and designed to provide the most critical information in an easy-to-read format. It uses more than 1,000 illustrations, a new attractive layout, and provides thousands of cited references that provide up-to-date literature reviews. Indexes by subject, chemical name, and author make navigating through information quick and easy. The CD-ROM version includes the same information as the print volumes, plus the benefit of a powerful search and retrieval engine to make searching for information as easy as a mouse click. Here's a sampling of what's covered in each volume and the CD-ROM: Volume 1: The body, health care, management and policy, tools and approaches Volume 2: Psychological and organizational factors, hazards, the environment, accidents, and safety Volume 3: Chemicals, industries and occupations Volume 4: Index by subject, chemical name, author, cross-reference guide, directory of contributors.
