Gender Justice and Legal Pluralities: Latin American and African Perspectives examines the relationship between legal pluralities and the prospects for greater gender justice in developing countries. Rather than asking whether legal pluralities are 'good' or 'bad' for women, the starting point of this volume is that legal pluralities are a social fact. Adopting a more anthropological approach to the issues of gender justice and women's rights, it analyzes how gendered rights claims are made and responded to within a range of different cultural, social, economic and political contexts. By examining the different ways in which legal norms, instruments and discourses are being used to challenge or reinforce gendered forms of exclusion, contributing authors generate new knowledge about the dynamics at play between the contemporary contexts of legal pluralities and the struggles for gender justice. Any consideration of this relationship must, it is concluded, be located within a broader, historically informed analysis of regimes of governance.

The paper questions the propriety of the rules governing female intestate succession to land among the patrilineal communities of rural Tanzania against the backdrop of Tanzania's declared egalitarian principles.

Child Marriage and Guardianship

Papers verschenen naar aanleiding van de vijfde wereldconferentie van de 'International Society on Family Law, gehouden in Brussel in 1985. Centraal thema was de economische zekerheid van het individu en het gezin. Vragen komen aan de orde als: wat is de relatie tussen het individu en haar/zijn sociale omgeving: familie, buurt, gemeenschap, staat; welke verplichtingen brengen die relaties met zich mee; welke rol spelen persoonlijke aansprakelijkheid, sociale zekerheid en het belastingsysteem etc.
