Updated with improvements, updates, and new features included in Ubuntu MATE's 20.04 LTS (Long Term Support) release, I have written the third edition of this book for computer users who just want the information they need to learn how to use Ubuntu MATE and its applications. Reading this book can help you build your confidence and competence in using Ubuntu MATE. It is written from the perspective that Ubuntu MATE is a typical modern Linux for the average computer user who needs to do things like browsing the Internet, checking email, using a word processor, reading and storing document files, viewing and editing photos, watching videos, listening to music, and subscribing to podcasts. Many of the applications available in Ubuntu MATE are also available in other flavors of Ubuntu and in other distributions (versions) of Linux. The applications I mention in this book work in the same way regardless of the operating system. While it's is great for users who have migrated from Windows or macOS, Ubuntu MATE is also an excellent choice for any kind of computer user, from the casual home user to the professional software developer. That's because of its modern, functionally thought-out design. Ubuntu MATE is capable enough for even the most

experienced computer user because, well, it's Linux! It has the power of every other Linux built-in. Simply put, it provides a practical alternative to other software that can run on your computer. Whether you are new to Linux, upgrading from Windows or macOS to Linux, or just thinking about moving to Linux, this book will provide you with practical, day-to-day advice on how you can use Ubuntu MATE and its applications. This book is a guide for new users and a reference for all users of Linux.

This study traces the growth of the concept of divorce through the Dharmasastra, custom, case-law and legislation with special reference to the inter-pretation of the relevant provisions under the Hindu Marriage Act, 1955, pointing out how law has influenced society and vice versa. The work is comparative and presents a picture of the role played by English judicial precedent in Hindu law. For the legal profession as well as the student of modern comparative law this book should prove a valuable compact study.

Based on his popular blog, Dinker Charak brings a collection of tools, methodologies, and some unexpected approaches to Product Management. He also talks about his entrepreneurial journey from the eye of a Product Manager and discusses the strategy and its failures. Each chapter is complete in itself and focused on a specific theme. Some chapters may rely

on concepts introduced in details in a previous chapter. However, a reader can still benefit from it without know details from the earlier chapters. The book is divided into three sections. The first section (chapters 1-6) is about various tools & methods Dinker has created and used for Product Management. These include the Product Management Canvas and the Product workshops he runs. The second section (chapters 7-18) is about various thoughts and ideas that Dinker has around what it means to be a Product Managers and Product Management. The third section (chapters 19-26) is about entrepreneurship and based on his experience as a founder who hasn't succeeded yet. It also has some ideas on team building, mainly around a novel concept of Dirty-Work Group. Key Takeaway from the Book #ProMa The book covers the entire lifecycle of a product/business evolution and introduces a lot of handy artifacts - checklists, frameworks, tools, etc. - that can be readily used at various stages of evolution. There are plenty of practical ProMa tools you can use every day and also the philosophical exploration of the subject through lenses as varied as Indian materialism, Francis Bacon (he of the scientific method), and Rene Descartes and Sociology. Who Should Read the Book #ProMa The First Timer: Has a tech, business or design background. Is now a Product Manager for a B2C product. Is poly-skilled enough to get the job but worried if is knowledgeable to pull it along. An Experienced ProMa: Has been a ProMa in an Enterprise that is building a B2B product. Has done MBA and/or has a technical background. With the expectation of B2B products to respond to market at speed of startups and with Usability of B2C products,

is looking for ideas on how to reinvent the attitude towards this job. An Entrepreneur / Founder: Realising that a Founder is the first Product Manager of the startup's Product, the Founder wants to ensure a proper approach is taken and not detail falls through the cracks and is looking for tools and checklists to ensure all basis are covered. Business Folks: ProMa help monetise a business opportunity via a Product. For key business owners, it is important to understand what a ProMa does and how does a ProMa think. This book can help them understand the variety of aspects of a ProMa, gain a better appreciation and establish meaning and deep partnerships. Early Praise for #ProMa Dinker offers an enjoyable potpourri of helpful advice and ideas from his experience in consulting and his experiments with building products. - Sriram Narayan, Digital-IT management consultant, ThoughtWorks & Author Agile IT Organization Design A brilliant resource for all consultants, irrespective of the role they are in, and not just Product Managers. Dinker has poured his years of experience into this one book. He covers the entire life cycle of a product/business evolution and introduces a lot of handy artifacts - checklists, frameworks, tools, etc. - that can be readily used at various stages of evolution. He sheds light on the real-life charms and challenges of building a product and does so in a simple yet eloquent manner. NEW YORK TIMES BESTSELLER From Blackstone chairman, CEO, and co-founder Stephen A. Schwarzman, a long-awaited book that uses impactful episodes from Schwarzman's life to show readers how to build, transform, and lead thriving organizations. Whether you are a student, entrepreneur, philanthropist, executive, or simply someone looking for ways to maximize your potential, the same lessons apply. People know who Stephen Schwarzman is—at least they think they do. He's the man who took \$400,000 and co-founded Blackstone, the investment firm that manages over \$500 billion (as of January 2019). He's the CEO whose views are sought by heads of state. He's the billionaire philanthropist who founded Schwarzman Scholars, this century's version of the Rhodes Scholarship, in China. But behind these achievements is a man who has spent his life learning and reflecting on what it takes to achieve excellence, make an impact, and live a life of consequence. Folding handkerchiefs in his father's linen shop, Schwarzman dreamed of a larger life, filled with purpose and adventure. His grades and athleticism got him into Yale. After starting his career in finance with a short stint at a financial firm called DLJ, Schwarzman began working at Lehman Brothers where he ascended to run the mergers and acquisitions practice. He eventually partnered with his mentor and friend Pete Peterson to found Blackstone, vowing to create a new and different kind of financial institution. Building Blackstone into the leading global financial institution it is today didn't come easy. Schwarzman focused intensely on culture, hiring great talent, and establishing processes that allow the firm to systematically analyze and evaluate risk.

Schwarzman's simple mantra "don't lose money" has helped Blackstone become a leading private equity and real estate investor, and manager of alternative assets for institutional investors globally. Both he and the firm are known for the rigor of their investment process, their innovative approach to deal making, the diversification of their business lines, and a conviction to be the best at everything they do. Schwarzman is also an active philanthropist, having given away more than a billion dollars. In philanthropy, as in business, he is drawn to situations where his capital and energy can be applied to drive transformative solutions and change paradigms, notably in education. He uses the skills learned over a lifetime in finance to design, establish, and support impactful and innovative organizations and initiatives. His gifts have ranged from creating a new College of Computing at MIT for the study of artificial intelligence, to establishing a first-of-its-kind student and performing arts center at Yale, to enabling the renovation of the iconic New York Public Library, to founding the Schwarzman Scholars fellowship program at Tsinghua University in Beijing—the single largest philanthropic effort in China's history from international donors. Schwarzman's story is an empowering, entertaining, and informative guide for anyone striving for greater personal impact. From deal making to investing, leadership to entrepreneurship, philanthropy to diplomacy, Schwarzman has lessons for how to think about ambition and scale, risk and opportunities, and how to achieve success through the relentless pursuit of excellence. Schwarzman not only offers readers a thoughtful reflection on all his own experiences, but in

doing so provides a practical blueprint for success.

Since the early 1990s, while mainland China's state-owned movie studios have struggled with financial and ideological constraints, an exciting alternative cinema has developed. Dubbed the "Urban Generation," this new cinema is driven by young filmmakers who emerged in the shadow of the events at Tiananmen Square in 1989. What unites diverse directors under the "Urban Generation" rubric is their creative engagement with the wrenching economic and social transformations underway in China. Urban Generation filmmakers are vanguard interpreters of the confusion and anxiety triggered by the massive urbanization of contemporary China. This collection brings together some of the most recent original research on this emerging cinema and its relationship

to Chinese society. The contributors analyze the historical and social conditions that gave rise to the Urban Generation, its aesthetic innovation, and its ambivalent relationship to China's mainstream film industry and the international film market. Focusing attention on the Urban Generation's sense of social urgency, its documentary impulses, and its representations of gender and sexuality, the contributors highlight the characters who populate this new urban cinema—ordinary and marginalized city dwellers including aimless bohemians, petty thieves, prostitutes, postal workers, taxi drivers, migrant workers—and the fact that these “floating urban subjects” are often portrayed by non-professional actors. Some essays concentrate on specific films (such as *Shower* and *Suzhou River*) or filmmakers (including Jia Zhangke and Zhang Yuan), while others survey broader concerns. Together the thirteen essays in this collection give a multifaceted account of a significant, ongoing cinematic and cultural phenomenon. Contributors. Chris Berry, Yomi Braester, Shuqin Cui, Linda Chiu-han Lai, Charles Leary, Sheldon H. Lu, Jason McGrath, Augusta Palmer, Bérénice Reynaud, Yaohua Shi, Yingjin Zhang, Zhang Zhen, Xueping Zhong

In 1925, the Royal Spanish Academy (Real Academia Española) betrayed its protégé, the Castilian language, which has always been —and continues to be— the most widely used Spanish language used worldwide. After 14 properly named editions of its

Dictionary and 433 years after the publication of the first Castilian Grammar book, the Royal Spanish Academy removed the proper name from the cover of the Dictionary, as part of a plot where Francisco Franco would later become a co-conspirator. Since 1978, the Royal Spanish Academy has been acting in violation of the Spanish Constitution and has been disrespecting the national heritage. The Castilian Conspiracy reveals the uncensored truth about the most widely used Spanish language. Through personal studies and anecdotes, quotations, historical facts, little-know rules, and unique observations, author Allan Tépper unfolds while he proposes improvements for the language and its speakers. Now, the second edition has even more proof than before.
