Kimmel & Weygandt's Survey of Accounting, 1st Edition provides a simple and practical introduction to financial and managerial accounting. It explains accounting concepts without the use of debits and credits, while emphasizing the importance of financial statements and decision making. The focus on financial statements begins in the first two chapters of the textbook and continues in other chapters with clear illustrations that explain how accounting transactions impact financial statements. Grounded in the Kimmel/Weygandt family of products, Survey of Accounting has a student-friendly writing style, exceptional visual pedagogy, and relevant and easy-to-understand examples. Kimmel & Weygandt's Survey of Accounting is ideally suited for a one-semester introductory accounting course that follows a non-debits and credits approach.

Value creation is at the heart of an economic enterprise, defining its capability to serve customers and generate profits and growth. This fact has led to an ever-increasing set of tools and techniques that start with customers, focusing on serving their preferences from the very inception of a product until its disposal.

And this data is required to implement a value creation approach that has its roots in the Management Accounting System (MAS). The resulting model is called the Value-based Cost Management System (VCMS). If you or any manager want to take the lessons you learned in product development, process management, and marketing, this book will help you extend this knowledge to your MAS. This book makes this transformation both logical and easy to implement, with a focus on the new types of information that can be garnered when the MAS is modified to fit the value creation approach. The authors of the book will provide, upon request, a simplified automated data collection template that will ease the implementation process.

With this 5th edition, readers will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates readers by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers. New content features such as a
