Just a Spoon Full of Laughter is a great read for anyone that's been to a doctor's office and made it out alive. Written by an actual physician, it will keep you in stitches (no pun intended) from one story to the next. See for yourself what could be so funny about the physician office visit. Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release

and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Addressing the ever-changing, overlapping trajectories of war and journalism, this introduction to the history and culture of modern American war correspondence considers a wealth of original archival material. In powerful analyses of letters, diaries, journals, television news archives, and secondary literature related to the U.S.'s major military conflicts of the twentieth century, Mary S. Mander highlights the intricate relationship of the postmodern nation state to the free press and to the public. *Pen and Sword: American War Correspondents, 1898-1975* situates war correspondence within the larger framework of the history of the printing press to make perceptive new points about the nature of journalism and censorship, the institution of the press as a source of organized dissent, and the relationship between the press and the military. Fostering a deeper understanding of the occupational culture of war correspondents who have accompanied soldiers into battle, Mander offers interpretive analysis of the reporters' search for meaning while embedded with troops in war-torn territories. Broadly encompassing the history of Western civilization and modern

warfare, Pen and Sword prompts new ways of thinking about contemporary military conflicts and the future of journalism.

In 1963 the Mercedes W113 replaced two cars: the 300 SL racing legend and the successful 190 SL. In the process, the 230/250/280 SL two-seat coupe/roadster became an icon not only by carving out the perfect niche between its two predecessors, but also by being like no other car on the road. The book covers: the W113's predecessors - the 300 SL and the 190 SL; design and development of the 230, 250 and 280 SL models, including the

distinctive concave 'Pagoda' roof and the 'Californian Coupe' rear seat option; Bela Barenyi's innovations that made the 230 SL the first 'safety sports car'; rallying successes for the W113; the R107 successor, with specialist advice on 'Pagoda' restorations, and the W113 in popular culture.
