### Superstar Sales

Let your imagination and creativity soar with these cute do-it-yourself Basenji dog Valentine's Day paper cards. A fun Valentine's Day activity for all ages, sure to create lasting memories. Kids and animals just go together, especially if it's their favorite pet. Each book has 12 paper cards to color - 2 different designs. The pictures are hand drawn and the child is encouraged to draw more items on each card, along with any special markings that they like, truly making them one-of-a-kind. The inside of six of the cards reads "Be Mine, Valentine" and the other six cards read " You're Special." There are 12 envelopes to color, address, cut out and fold, adding to the fun. You'll find a Valentine's Day List to keep track of who you have given a Valentine card to. Fun for all ages.

### **Ideology and the Social Sciences**

A masterpiece ahead of its time, a prescient rendering of a dark future, and the inspiration for the blockbuster film *Blade Runner* By 2021, the World War has killed millions, driving entire species into extinction and sending mankind off-planet. Those who remain covet any living creature, and for people who can't afford one, companies built incredibly realistic simulacra: horses, birds, cats, sheep. They've even built humans. Immigrants to Mars receive androids so sophisticated they are indistinguishable from true men or women. Fearful of the havoc these artificial humans can wreak, the government bans them from Earth. Driven into hiding, unauthorized androids live among human beings, undetected. Rick Deckard, an officially sanctioned bounty hunter, is commissioned to find rogue androids and "retire" them. But when cornered, androids fight back—with lethal force. Praise for Philip K. Dick "The most consistently brilliant science fiction writer in the world."—John Brunner "A kind of pulp-fiction Kafka, a prophet."—The New York Times "[Philip K. Dick] sees all the sparkling—and terrifying—possibilities . . . that other authors shy away from."—Rolling Stone

### **The Crocodile**

Incredibly rich treasury of authentic royalty-free designs adapted from artifacts of the Harappa culture, coins and pottery from South India, Ajanta and Bagh murals,

Muslim monuments, Buddhist temples, textiles from Gujarat, Punjab, other regions, masks and tribal arts, much more. Immediately usable material or great resource for design inspiration. Introduction. Notes.

### **Hacking Digital Cameras**

Provides step-by-step instructions for more than twenty modifications for digital cameras, including building a remote control, creating car mounts, and making a home light studio.

### **Social Empiricism**

One stormy night Regina "Reggie" Barrington received a call from a mysterious stranger named Severo Cardenosa, who demanded she reappear in South America to keep up her end of a bargain. Having no idea what he's talking about, Reggie confronts her sister, Bella, who had been in South America the previous month. It turns out that Bella promised Severo she'd play the part of his fiancée to ease his ill grandfather's mind about his future. Bella ran away from her responsibility, and now Reggie feels compelled to take her place. Reggie is in love with someone else, so when she meets Severo she is not impressed. Will love blossom between the two? Can Reggie look past her misconceptions to see Severo for who he is?

### **CliffsStudySolver: Algebra II**

What is femme? French for woman? A feminine lesbian? A queer girl who loves to dress up? Think again! Going beyond identity politics and the pleasures of plumage, Femmes of Power captures a diverse range of queerly feminine subjects whose powerful and intentional redress explodes the meaning of femme for the 21st century. Femmes of Power features both every-day heroines and many queer feminist icons, including Michelle Tea, Virginie Despentes, Amber Hollibaugh, Itziar Ziga, Lydia Lunch, Kate Bornstein and Valerie Mason-John. Femmes of Power unsettles the objectifying 'male' gaze on femininity and presents femmes as speaking subjects and high-heeled theorists. Look closer - these powerful, sexy and sincerely ironic feminine figures are larger than life, bravely challenging femininity's negative connotations and replacing femme invisibility with a fresh new face for femme-inism.

### **Great Photography Techniques: Flash**

Provides information on 338 national, regional and international organizations which participate in standards-related activities: standardization, certification, laboratory accreditation, or other standards-related activities. Describes their work in these areas, the scope of each organization, national affiliations of members, U.S. participants, restrictions on membership, as well as availability of any standards in English. A growing number of European organizations have become active in standards efforts.

### **Dream Journal**

Do you want to be more successful? Achieve record breaking sales? Make more money right now? Are you committed to learning more about your customers and improving your skills and approach to helping them? Salespeople are some of the least trusted professionals of any career. A smiling crocodile bathes in the Nile and waits patiently for his prey.

### **The Secrets of Tenet**

Do you want to be able to take brilliant photos but dont know where to begin? Get a kickstart with this little book which will give you just enough to get you going

### **Byte Guide to CD-ROM**

Serving as an introduction to PROFINET technology, this book gives engineers, technicians and students an overview of the concept and fundamentals for solving automation tasks. Technical relationships and practical applications are described using SIMATIC products as examples.

## **Basenji Valentine's Day Cards**

Organizes basic success principles into twelve universal laws. Each law is presented showing spiritual, biblical, and metaphysical foundations while demonstrating step-by-step action techniques to apply the law and get desired results. Each chapter is self-contained with summaries and review questions at the end. Perfect for readers who want to learn the keys to success and immediately put their knowledge into action.

## **Songs From Alice in Wonderland and Through the Looking-Glass**

Discover the secrets of Christopher Nolan's Tenet with this exclusive behind-the-scenes look at 2020's most anticipated film. FROM DIRECTOR CHRISTOPHER NOLAN comes a mind-blowing espionage thriller so unique that audiences will puzzle over its intricacies for years to come. The Secrets of Tenet takes readers on an exclusive journey into Nolan's time-bending masterpiece, offering rare insights into all aspects of its creation. Featuring in-depth commentary from Nolan himself and a range of other key collaborators—including producer Emma Thomas and production designer Nathan Crowley—The Secrets of Tenet delivers an essential masterclass that lays bare the director's process and his singular creative vision. Illustrated with candid behind-the-scenes imagery and compelling conceptual art, this is the ultimate exploration of a film guaranteed to linger in the imagination long into the future . . . and perhaps the past.

## **Do Androids Dream of Electric Sheep?**

## **Solutions Manual for Corporate Finance**

Toni Davis's Christmas wish list 1. Springing my best friend from the psych ward. 2. Living somewhere that doesn't have coffins in the basement. Occupied coffins. 3. Finding Mr. Right. Please make him tall, dark, handsome, and alive. This Christmas isn't so merry for Toni. Her best friend's been locked up in a mental hospital ever since she told the police she was attacked by vampires, and the only way for Toni to get her out is to prove that bloodsuckers really do exist. So she's taken a job as a bodyguard for the Undead, but she gets more than she bargained for, especially when she meets Ian MacPhie, a Scottish rascal looking for Ms. Right. Although Ian's nearly five centuries old, he looks and acts like a twenty-seven-year-old hunk. How can a dead man be so damn sexy? Could Mr. Wrong be Mr. Right? One forbidden kiss could lead to an eternity of passion—and all it takes is one moment under the mistletoe . . .

## **ReadyRN**

For the last forty years, two claims have been at the core of disputes about scientific change: that scientists reason rationally and that science is progressive. For most of this time discussions were polarized between philosophers, who defended traditional Enlightenment ideas about rationality and progress, and sociologists, who espoused relativism and constructivism. Recently, creative new ideas going beyond the polarized positions have come from the history of science, feminist criticism of science, psychology of science, and anthropology of science. Addressing the traditional arguments as well as building on these new ideas, Miriam Solomon constructs a new epistemology of science. After discussions of the nature of empirical success and its relation to truth, Solomon offers a new, social account of scientific rationality. She shows that the pursuit of empirical success and truth can be consistent with both dissent and consensus, and that the distinction between dissent and consensus is of little epistemic significance. In building this social epistemology of science, she shows that scientific communities are not merely the locus of distributed expert knowledge and a resource for criticism but also the site of distributed decision making. Throughout, she illustrates her ideas with case studies from late-nineteenth- and twentieth-century physical and life sciences. Replacing the traditional focus on methods and heuristics to be applied by individual scientists, Solomon emphasizes science funding, administration, and policy. One of her goals is to have a positive influence on scientific decision making through practical social recommendations.

### **SuperHero ABC**

This book has been developed from its earlier and far less formal presentment as the proceedings of a symposium entitled The Biochemistry of S-Adenosylmethionine as a Basis for Drug Design that was held at the Solstrand Fjord Hotel in Bergen, Norway on June 30-July 4, 1985. The purpose of the symposium was to bring together scientists from various disciplines (biochemistry, pharmacology, virology, immunology, chemistry, medicine, and so on) to discuss the recent advances that have been made in our understanding of the biological roles of S adenosylmethionine (AdoMet) and to discuss the feasibility of utilizing AdoMet-dependent enzymes as targets for drug design. Thus the information provided herein will be of value not only to basic scientists involved in elucidating the role of AdoMet in biology, but also to medicinal chemists who are using this basic knowledge in the process of drug design. The volume should also be of interest to pharmacologists and clinicians involved in biological evaluation of potential therapeutic agents arising from the efforts of the biochemists and medicinal chemists. Each plenary speaker at the symposium was requested to submit a chapter reviewing recent contributions of their discipline to our base of knowledge about the biological role of AdoMet. Topics covered in this volume include protein and phospholipid methylations (Section A), nucleic acid methylations (Section B), the regulation of AdoMet, S-adenosylhomocysteine, and methylthioadenosine metabolism (Section C), clinical aspects of AdoMet (Section D), and the design, synthesis, and biological evaluation of trans methylation inhibitors (Section E).

### **Jesus the Messiah**

Presents a buyer's, standards' and troubleshooting guide to CD-ROMs.

## **Biological Methylation and Drug Design**

Commemorating the 150th anniversary of one of the most beloved classics of children's literature, this illustrated edition presents Alice like you've never seen her before. In 1865, Charles Lutwidge Dodgson, an Oxford mathematician and Anglican deacon, published a story about a little girl who tumbles down a rabbit hole. Thus was the world first introduced to Alice and her pseudonymous creator, Lewis Carroll. This beautiful new edition of Alice's Adventures in Wonderland features rarely seen illustrations by Salvador Dalí that illuminate the surreal yet curiously logical and mathematical realm into which Alice famously falls. In an informative and wide-ranging introduction, Carroll expert Mark Burstein discusses Dalí's connections with Carroll, his treatment of the symbolic figure of Alice, and the mathematical nature of Wonderland. In addition, mathematician Thomas Banchoff reflects on the friendship he shared with Dalí and explores the mathematical undercurrents in Dalí's work.

## **Subject Classification, with Tables, Indexes, Etc., for the Subdivision of Subjects**

This color-coded, rapid-reference text includes all of the essential information you need to manage any disaster or emergency with mass casualties. Coverage of each category of disaster-weather-related, public health, infectious disease, chemical, biological, radiological/nuclear, and explosive-offers vital content on dealing with the injuries and nursing protocols for each scenario. Plus, information on disaster sites and clinical management prepares you to take action at the scene or in the hospital setting.

DR. SIVALINGAM NALLIAH KMN, PMP, DPMP, MBBS (MAL), MCGP, FRCOG, Master in Education, had his early education at the Tranquerah English School and Gajah Berang English School before moving to the Malacca High School to complete his higher school certificate education. He obtained his basic medical degree from the University of Malaya graduating in 1974. He obtained his postgraduate degree in Obstetrics and Gynecology from The Royal College of Obstetricians and Gynaecologists (UK) in 1980. He worked in many parts of Malaysia before becoming Head of OBGYN services, Malaysia in 2001. He completed his civil service with the Government of Malaysia before taking up an academic position with the International Medical University, Malaysia where he is Professor of Obstetrics and Gynecology. He has written and edited several books on Obstetrics and Gynecology. His interests are in undergraduate and postgraduate training in OBGYN and medical education. He was honoured with the title of DATO' by the Sultan of Perak, Malaysia and was also awarded The DISTINGUISHED COMMUNITY SERVICE AWARD IN EMERGENCY OBSTETRIC CARE' by the Federation of Gynaecologists and Obstetricians (FIGO) in 2003.

## **Microsoft Exchange 2000 Infrastructure Design**

A practical guide to profiting from the proper use of sentiment indicators In Sentiment Indicators, noted trading expert Abe Cofnas draws on his own trading and training experience as he shares his knowledge about the latest techniques and strategies for using Renko, price break, Kagi, and point and figure tools to successfully analyze all markets. Written with the serious trader in mind, Sentiment Indicators offers key information on these potential-filled tools and how to use each in shaping trading strategies. Along the way, it provides a practical overview of how to implement these little-known indicators and why each can enhance your trading endeavors. Shows how these indicators work in different markets: futures, equities, forex, and others Provides a solid understanding of charting techniques and uses real-world examples to illustrate strategies and tactics Presents new sentiment research that analyzes word mining and what it means for markets From historical context and Robot Trading alerts to the critical factors of a trading system, Sentiment Indicators presents a proven approach to trading that will help you identify conditions that have a high probability of profit.

### **The Twelve Universal Laws of Success**

The extent to which modern social science continues to reflect the subjective traits of authors and the contexts in which they operate, rather than the objective facts or insights they claim to develop, remains one of the most striking features of social science research and writing. Kinloch and Mohan provide a multidisciplinary and worldwide examination of the ties between the subjective traits of social scientists, the contexts in which they affect research, and the kinds of knowledge they produce. The essays fall into five general topic areas: major theoretical issues, research as ideology, the political context of ideology, major factors in the academic setting, and the relationship between personal biography and professional ideology. This book will be of greatest concern to scholars, students, and researchers involved with the sociology of knowledge, social theory and methods, comparative social science, and social problems.

### **Sentiment Indicators**

Silly and zany, and armed with the most unusual skills, these heroes are out to save the world-one letter at a time! bubble-Man blows big bubbles at bullies, and laughing lass laughs at lawbreakers! together, these one-of-a-kind defenders represent the ABC's in a way never seen before.
