A Bone to Pick

If you're one of the millions who have thought of trying a vegan diet but fear it's too monotonous or unfamiliar, or simply don't want to give up the foods you love to eat, VB6 will introduce a new, flexible, and quite simply better way of eating you can really live with for life. Six years ago, an overweight, pre-diabetic Mark Bittman faced a medical directive: adopt a vegan diet or go on medication. He was no fan of a lifelong regimen of pills, but as a food writer he lived—and worked—to eat. So neither choice was appealing. His solution was a deal with himself. He would become a “flexitarian.” He adopted a diet heavy in vegetables, fruits, and grains by following a healthy vegan diet (no meat, dairy, or processed foods) all day. After 6:00 p.m. he'd eat however he wanted, though mostly in moderation. Beyond that, his plan involved no gimmicks, scales, calorie counting, or point systems. And there were no so-called forbidden foods—he ate mostly home-cooked meals that were as varied and satisfying as they were delicious. He called this plan Vegan Before 6:00 (VB6 for short), and the results were swift and impressive. Best of all, they proved to be lasting and sustainable over the long haul. Bittman lost 35 pounds and saw all of his blood numbers move in the right direction. Using extensive scientific evidence to support his plan, the acclaimed cookbook author and food policy columnist shows why his VB6 approach succeeds when so many other regimens not only fail, but can actually lead to unwanted weight gain. He then provides all the necessary tools for making the switch to a flexitarian diet: lists for stocking the pantry, strategies for eating away from home in a variety of situations, pointers for making cooking on a daily basis both convenient and enjoyable, and a complete 28-day eating plan showing VB6 in action. Finally, Bittman provides more than 60 recipes for vegan breakfasts, lunches, and snacks, as well as non-vegan dinners that embrace the spirit of a vegetable- and grain-forward diet. “I live full-time in the world of omnivores, and I've never wanted to leave. But the Standard American Diet (yes, it's SAD) got to me as it gets to almost everyone in this country.”

How to Eat

From the award-winning champion of conscious eating and author of the bestselling *Food Matters* comes *The Food Matters Cookbook*, offering the most comprehensive and straightforward ideas yet for cooking easy, delicious foods that are as good for you as they are for the planet. *The Food Matters Cookbook* is the essential encyclopedia and guidebook to responsible eating, with more than 500 recipes that capture Bittman's typically relaxed approach to everything in the kitchen. There is no finger-wagging here, just a no-nonsense and highly flexible case for eating more plants while cutting back on animal products, processed food, and of course junk. But for Bittman, flipping the ratio of your diet to something more virtuous and better for your body doesn't involve avoiding any foods—indeed, there is no sacrifice here. Since his own health prompted him to change his diet, Bittman has perfected cooking tasty, creative, and forward-thinking dishes based on vegetables, fruits, and whole grains. Meat and other animal products are often included—but no longer as the centerpiece. In fact the majority of these recipes include fish, poultry, meat, eggs, or dairy, using them for their flavor, texture, and satisfying nature without depending on them for bulk. Roasted Pork Shoulder with Potatoes, Apples, and Onions and Linguine with Cherry Tomatoes and Clams are perfect examples. Many sound downright decadent: Pasta with Asparagus, Bacon, and Egg; Stuffed Pizza with Broccoli, White Beans, and Sausage; or Roasted Butternut Chowder with Apples and Bacon, for example. There are vegetarian recipes, too, and they have flair without being complicated—recipes like Beet Tartare, Lentil "Caviar" with All the Trimmings, Radish-Walnut Tea Sandwiches, and Succotash Salad. Bittman is a firm believer in snacking, but in the right way. Instead of packaged cookies or greasy chips, Bittman suggests Seasoned Popcorn with Grated Parmesan or Fruit and Cereal Bites. Nor does he skimp on desserts; rather, he focuses on fruit, good-quality chocolate, nuts, and whole-grain flours, using minimal amounts of eggs, butter, and other fats. That allows for a whole chapter devoted to sweets, including Chocolate Chunk Oatmeal Cookies, Apricot Polenta Cake, Brownie Cake, and Coconut Tart with Chocolate Smear. True to the fuss-free style that has made him famous, Bittman offers plenty of variations and substitutions that let you take advantage of foods that are in season—or those that just happen to be in the fridge. A quick-but-complete rundown on ingredients tells you how to find sustainable and flavorful meat and shop for dairy products, grains, and vegetables without wasting money on fancy organic labels. He indicates which recipes you can make ahead, those that are sure to become pantry staples, and which ones can be put together in a flash. And because Bittman is always comprehensive, he makes sure to include the building-block recipes for the basics of home cooking: from fast stocks, roasted garlic, pizza dough, and granola to pots of cooked rice and beans and whole-grain quick breads. With a tone that is easygoing and non-doctrinaire,

Bittman demonstrates the satisfaction and pleasure in mindful eating. The result is not just better health for you, but for the world we all share.

In keeping with its local approach to global flavors, *Modern Spice* includes a guide to the modern Indian pantry and Monica's thoughtful, charming essays on food, culture, and family. Eight pages of gorgeous color photographs showcase the recipes.

In the Green Kitchen

Since his *New York Times* op-ed column debuted in 2011, Mark Bittman has emerged as one of our most impassioned and opinionated observers of the food landscape. The *Times*' only dedicated opinion columnist covering the food beat, Bittman routinely makes readers think twice about how the food we eat is produced, distributed, and cooked, and shines a bright light on the profound impact that diet—both good and bad—can have on our health and that of the planet. In *A Bone to Pick*, Mark's most memorable and thought-provoking columns are compiled into a single volume for the first time. As abundant and safe as the American food supply appears to be, the state of our health reveals the presence of staggering deficiencies in both the system that produces food and the forces that regulate it. Bittman leaves no issue unexamined; agricultural practices, government legislation, fad diets, and corporate greed all come under scrutiny and show that the issues governing what ends up in our market basket and on our tables are both complex and often deliberately confusing. Unabashedly opinionated and invariably thought provoking, Bittman's columns have helped readers decipher arcane policy, unpack scientific studies, and deflate affronts to common sense when it comes to determining what "eating well" truly means. As urgent as the situation is, Mark contends that we can be optimistic about the future of our food and its impact on our health, as slow-food movements, better school-lunch programs, and even "healthy fast food" become part of the norm. At once inspiring, enraging, and enlightening, *A Bone to Pick* is an essential resource for every reader eager to understand not only the complexities inherent in the American food system, but also the many opportunities that exist to improve it.

Modern Spice

From the award-winning champion of culinary simplicity who gave us the bestselling *How to Cook Everything* and *How to Cook Everything Vegetarian* comes *Food Matters*, a plan for responsible eating that's as good for the planet as it is for your weight and your health. We are finally starting to acknowledge the threat carbon emissions pose to our ozone layer, but few people have focused on the extent to which our consumption of meat contributes to global warming. Think about it this way: In terms of energy consumption, serving a typical family-of-four steak dinner is the rough equivalent of driving around in an SUV for three hours while leaving all the lights on at home. Bittman offers a no-nonsense rundown on how government policy, big business marketing, and global economics influence what we choose to put on the table each evening. He demystifies buzzwords like "organic," "sustainable," and "local" and offers straightforward, budget-conscious advice that will help you make small changes that will shrink your carbon footprint -- and your waistline. Flexible, simple, and non-doctrinaire, the plan is based on hard science but gives you plenty of leeway to tailor your food choices to your lifestyle, schedule, and level of commitment. Bittman, a food writer who loves to eat and eats out frequently, lost thirty-five pounds and saw marked improvement in his blood levels by simply cutting meat and processed foods out of two of his three daily meals. But the simple truth, as he points out, is that as long as you eat more vegetables and whole grains, the result will be better health for you and for the world in which we live. Unlike most things that are virtuous and healthful, Bittman's plan doesn't involve sacrifice. From Spinach and Sweet Potato Salad with Warm Bacon Dressing to Breakfast Bread Pudding, the recipes in *Food Matters* are flavorful and sophisticated. A month's worth of meal plans shows you how Bittman chooses to eat and offers proof of how satisfying a mindful and responsible diet can be. Cheaper, healthier, and socially sound, *Food Matters* represents the future of American eating.

the world with their signature dishes stunningly illustrates the international language of food and family. On the eve of a photography trip around the world, Gabriele Galimberti sat down to dinner with his grandmother Marisa. As she had done so many times before, she prepared his favorite ravioli—a gesture of love and an expression of the traditions by which he had come to know her as a child. The care with which she prepared this meal, and the evident pride she took in her dish, led Gabriele to seek out grandmothers and their signature dishes in the sixty countries he visited. The kitchens he photographed illustrate both the diversity of world cuisine and the universal nature of a dish served up with generosity and love. At each woman's table, Gabriele became a curious and hungry grandson, exploring new ingredients and gathering stories. These vibrant and intimate profiles and photographs pay homage to grandmothers and their cooking everywhere. From a Swedish housewife and her homemade lox and vegetables to a Zambian villager and her Roasted Spiced Chicken, this collection features a global palate: included are hand-stuffed empanadas from Argentina, twice-fried pork and vegetables from China, slow-roasted ratatouille from France, and a decadent toffee trifle from the United States. Taken together or bite by bite, *In Her Kitchen* taps into our collective affection for these cherished family members and the ways they return that affection. *In Her Kitchen* is an evocative, loving portrait of the power of food and family, no matter where in the world you sit down for dinner.
