FRCOphth Part 1: 400 SBAs and CRQs

The definitive guide to revision for the MRCPCH examination. 25 Chapters covering all areas the MRCPCH syllabus in note format. Concise presentation of information, with hints and tips. Vital facts presented in an attractive user-friendly format. Diagrams, pie charts, lists, illustrations and bullet points to aid learning.

Clinical Anatomy of the Eye

The novel coronavirus that causes COVID-19 is now officially a global pandemic with over 130,000 confirmed cases and over 5,000 deaths. Its path is exponential, and panic is being felt around the globe. But the most important thing you can do to combat the virus is to understand how it works, how it spreads, and to STAY INFORMED. What Does This Coronavirus Outbreak Guide Contain? In-depth history of the virus since its inception Scientific explanation of what coronavirus is and how it works Actionable advice on how to stop the novel coronavirus from spreading Specific tips for employers, employers, and those who must travel during the outbreak Updated statistics on symptoms, treatment, and global survival rates. This 2019-2020 Coronavirus Outbreak Guide is

from the CDC Website. Learn the truth about how this virus works. And whatever you do, don't forget to wash your hands.

Advanced ENT training

MCQs for FRCOphth Part 2 is a key resource for candidates preparing to sit the Royal College of Ophthalmologists examination. Written by experts in the field, it is carefully mapped to the RCOphth curriculum, providing comprehensive preparation for all aspects of this challenging exam. Written for the new FRCOphth format, it contains 360 questions organised into five sections to reflect the subdivisions of the exam. A mock examination of 90 questions enables trainees to assess their level of knowledge, and practise the technique and approach needed for the examination. In addition to a small ratio of illustration based questions to reflect the real FRCOphth exam it also places an emphasis on areas that are not well covered in other materials, such as GMC and RCOphth guidelines. All answers are accompanied by detailed explanations and relevant further reading sources, providing candidates with high-quality self-assessment. Offering a true test of the reader's ophthalmology knowledge, this is a must-buy for anyone preparing for the FRCOphth part 2 written exam.

MCQs in Regional Anaesthesia and Pain Therapy

Fully revised, new edition presenting latest

developments in gynaecology. Includes numerous graphics and diagrams and an interactive DVD ROM. Previous edition published in 2007.

MCQs in Medical Microbiology and Infectious Diseases

The Massachusetts Eye and Ear Infirmary Review Manual for Ophthalmology

Cardiology is a large and critical branch of internal medicine, and as such covers a vast amount of the knowledge tested in Membership of the Royal Colleges of Physicians (MRCP) exams. This study guide contains 150 multiple choice questions (MCQs), each with various numbers of stem answers. The questions cover a wide range of both cardiology and cardiovascular pharmacology and encompass both basic anatomy and physiology of the heart, through to advanced topics such as evidence-based medicine. The questions are supplemented at the back of the book with explanatory answers to aid further revision and study.

MCQs in Geriatric Medicine for Postgraduate Examinations

The third edition of this widely used book has been substantially updated to take into account changes since the last edition. It covers a wide range of topics in medical microbiology and infectious diseases. Questions are accompanied by extended answers,

making them ideal for both revision and self study. It will be particularly suitable for candidates for the MRCP, FRCS/MRCS, MRCOG and MRCGP examinations, as well as for medical undergraduates.

Basic Sciences in Ophthalmology

Written by the developer of the Diploma in Geriatric Medicine examination, this highly authoritative guide covers all the required topics, with emphasis on important areas ensuring candidates are thoroughly tested. MCQs in Geriatric Medicine for Postgraduate Examinations is ideal for postgraduate doctors wanting to succeed in elderly medicine biased MCQs such as candidates for the Diploma in Geriatric Medicine and registrars in geriatric medicine reading for their specialty certificates. It is also highly recommended for Part I MRCP candidates requiring a grasp of this rapidly increasing branch of medicine in terms of information, number of patients and cost to the state.

Coronavirus

The Final FRCA Structured Oral Examination is the last step before earning the initials FRCA and becoming a Fellow of the Royal College of Anaesthetists. This comprehensive revision aid has been compiled by two talented authors who have been running a course on this subject for three years. Motivated to make the cases as close as possible to the exam, they have collected a vast database of questions from their trainees and the book reflects a variety of commonly

asked themes. In addition, there are contributions from 11 consultants and registrars, who are all experts in their fields. The clear layout and easy to read style prepares students for the examination environment and focuses on the specific areas and responses examiners look for. The style of questions mimics the exam and there are added tutorials for ECG interpretation and radiology which will benefit trainees immensely in their preparation.

Practice Questions in Trauma and Orthopaedics for the FRCS

The final specialist exam taken by ENT surgeons is the Fellowship of the Royal College of Surgeons (Otorhinolaryngology - Head and Neck Surgery): the FRCS (ORL-HNS). It is usually taken towards the end of the 6-year specialist registrar (SpR) training and consists of two parts: multiple choice question (MCQ) papers and a clinical section. This book is a revision aid for the MCQ papers and is divided into two sections: Single Best Answer (SBA) and Extended Matching Item (EMI) questions. It will be essential reading for any candidate for this exam. The final specialist exam taken by ENT surgeons is the Fellowship of the Royal College of Surgeons (Otorhinolaryngology - Head and Neck Surgery): the FRCS (ORL-HNS). It is usually taken towards the end of the 6-year specialist registrar (SpR) training and consists of two parts: multiple choice question (MCQ) papers and a clinical section. This book is a revision aid for the MCQ papers and is divided into two sections: Single Best Answer (SBA) and Extended

Matching Item (EMI) questions. It will be essential reading for any candidate for this exam.

DC Dutta's Textbook of Gynecology

A sound knowledge of basic sciences is vital for any doctor with an interest in ophthalmology, and is a significant part of all postgraduate examinations in the subject. Featuring 640 multiple choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl

Viva Practice for the FRCS(Urol) Examination

The Diploma in Otolaryngology - Head & Neck Surgery (DOHNS) is now an intercollegiate examination, and can count towards membership of one of the surgical colleges of Great Britain. The DOHNS has evolved to fit its new role, leaving little up-to-date material available for candidates preparing for the written component. This book by former DOHNS candidates meets that need, focusing on topics that are likely to be examined. Each answer is accompanied by an explanation using current evidence-based research wherever possible. This will be an essential revision text for all DOHNS candidates.

Clinical Optics

The new Fourth Edition of the Massachusetts Eye and Ear Infirmary Review Manual for Ophthalmology

provides a comprehensive self-assessment review and serves as a valuable study aid for any ophthalmologist or ophthalmologist-in-training. The text contains over 1,500 multiple-choice questions covering the entire field of ophthalmology, including all of its major subspecialties. Answers with explanations are provided for each question, and references are included at the end of each chapter. This edition includes more than 250 new full-color photographs and drawings depicting ocular pathology and ophthalmic conditions. All chapters have been updated with new questions to reflect the latest teaching in the field. A companion website features an interactive test bank with images. The test bank includes all 1,540 questions from the book plus over 300 unique questions for additional self-assessment practice.

Postgraduate Orthopaedics

Comprising of 400 MCQs, this book provides essential revision content to help you pass the recently introduced MRCPsych Paper A. The most recent guidelines for the new curriculum have been followed in compiling the content. MCQs for the New MRCPsych Paper A with Answers Explained is an invaluable aid for all candidates for the examination of the Royal College of Psychiatrists. Other clinicians and undergraduate students in medicine and health sciences will also find it useful.

MCQs for the New MRCPsych Paper A with Answers Explained

FRCS General Surgery: 500 SBAs and EMIs offers the most comprehensive coverage of practice questions for trainees preparing for the FRCS General Surgery exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 500 Single Best Answers and Extended Matching Items, reflecting topics encountered in the exam Answers feature concise, case-based descriptions to consolidate knowledge Highly illustrated to improve understanding of key concepts Extensive evidence-based references to relate theory to clinical practice

MRCP Part 2

Best of Five MCQs for the Endocrinology SCE is designed specifically for this new high-stakes exam. It contains over 300 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into six subject areas, covering all the main themes of the exam, and providing a thorough assessment of the candidate's endocrinological knowledge. Uniquely, the explanatory answers include references to guidelines and other sources to enable candidates' further reading and study.

FRCS General Surgery Section 1: 500 SBAs and EMIs

Written to help trainee ophthalmologists, this textbook is now the recognised text on optics for the examinations of the Royal College of Ophthalmologists and the Royal Surgical Colleges. It approaches the subject from first principles and assumes no previous knowledge of optics. The book has been kept as simple as possible and is liberally complemented with diagrams designed to be easily understood and memorised. Only the most fundamental and clinically useful mathematical formulae are quoted, and the optical principles are applied to clinical situations. Ophthalmology examinations have changed substantially since the last edition was written and a total rewrite of this essential guide has become necessary. The third edition has been made more comprehensive and detailed to keep up with these changes and incorporates three new chapters: refractive surgery, contact lenses and lasers. Other new material includes photometry, visual acuity, contrast sensitivity, colour vision, absorptive lenses, fluorescence, ultrasound, and the specular microscope.

MCQs for ENT

The FRCS examination is the last hurdle on the road to independent practice as a consultant surgeon in the United Kingdom and Ireland. The voce viva portion of the exam can be particularly challenging for candidates who must demonstrate not only their knowledge of various surgical topics, but also their reasoning and decision-making abilities. Cracking the

Intercollegiate General Surgery FRCS Viva: A Revision Guide provides the framework and knowledge to pass the non-subspecialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. Highlights: Layout: A unique approach recreates the structure and content of each individual viva Past questions: Actual viva questions pooled from successful FRCS candidates are included so you know what worked Contributors: Insight from experienced clinicians who have trained in the UK higher surgical training system This essential revision guide provides you with the vital points for each topic, presented in a concise, structured manner and referenced where appropriate. It is essential reading for anyone preparing for the FRCS General Surgery exam.

The Final FRCA Structured Oral Examination

I have written this book in four volumes. The other three volumes of "Oncology MCQs for NEET-SS" are available at: Volume 1:

<https://www.amazon.in/dp/B08371FV41> Volume 2:

<https://www.amazon.in/dp/B083VXXZY8> Volume 3:

<https://www.amazon.in/dp/B0846RY856> When I was

preparing for DM entrance, I experienced a dearth of books on the subject of hematology entrance and the books that were available were either not updated or

were lacking in depth, that was when I conceived the idea of writing such a book myself. I have written this book purely from the perspective of a hemat-oncologist and by relying on the highest quality material. The standard textbooks, NCCN guidelines and high impact journals were referenced for every question. The result is this book, which will serve the purpose of equipping the exam going (NEET-SS and board review, along with any other entrance exam where questions about hematology are asked) doctors with the right tool to test and build their knowledge. As the knowledge in the field of hematology is unfolding at an unprecedented scale and new strategies are being devised at a prolific pace, it is not possible to provide all of the updated information, all at once. I will be updating this book periodically for this purpose. In case of any queries and suggestions regarding this book, kindly send to: bhratri@gmail.com Dr. Bhratri Bhushan MBBS, MD (Internal medicine), DM (Medical oncology) is a consultant medical oncologist and hematologist. He has published over two dozen books on the subject of oncology and his papers have been published in renowned journals of medical literature. His AuthorCentral page link is: [amazon.com/author/bhratribhushan](https://www.amazon.com/author/bhratribhushan)

Viva Practice for the FRCS(Urol) and Postgraduate Urology Examinations

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma

and Orthopaedic Surgeon, North Staffordshire Royal Infirmary and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format.

Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! Specialist registrars preparing for the FRCS (Trauma and Orthopaedics) examination will find this an essential revision aid. It is also useful for Basic Surgical Trainees preparing for the Membership of the Royal College of Surgeons (MRCS) examination.

Postgraduate Orthopaedics

Clinical Anatomy of the Eye has proved to be a very popular textbook for ophthalmologists and optometrists in training all over the world. The objective of the book is to provide the reader with the basic knowledge of anatomy necessary to practice ophthalmology. It is recognised that this medical speciality requires a detailed knowledge of the eyeball and the surrounding structures. The specialist's knowledge should include not only gross anatomic features and their development, but also the microscopic anatomy of the eyeball and the ocular appendages. The nerve and blood supply to

the orbit, the autonomic innervation of the orbital structures, the visual pathway, and associated visual reflexes should receive great emphasis. The practical application of anatomic facts to ophthalmology has been emphasised throughout this book in the form of Clinical Notes in each chapter. Clinical problems requiring anatomic knowledge for their solution are presented at the end of each chapter. Illustrations are kept simple and overview drawings of the distribution of the cranial and autonomic nerves have been included.

Dermatology Postgraduate MCQs and Revision Notes

Postgraduates studying dermatology -- for example for the Royal College of Physicians postgraduate specialist certificate examination in the subject -- can face a frustrating lack of appropriate revision aids. Reference books can be too exhaustive or insufficiently up-to-date to be helpful, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations. Providing much more than a 'cheat sheet' of questions and answers, its chapters are designed to be studied in sequence, each building on the last to develop a strong overall understanding. Common and introductory topics are briefly discussed and an understanding of basic dermatology is assumed, with MCQs (multiple choice questions) following the widespread 'best of five' format.

MCQs for FRCS

The aim of this book is to provide a selection of representative MCQs together with a detailed explanation of each answer covering the topic in depth. Each chapter has been written by experienced Urological surgeons who have already been successful in passing the examination. In addition to the FRCS(Urol) examination MCQs form the basis of equivalent postgraduate Urological examinations internationally and the scope of this book will be an invaluable addition to individuals sitting the FEBU and similar exams in the USA, Australia and Asian countries. Established consultants may also find the text useful as a 'refresher' in areas outside their subspecialist interest.

College Biology Multiple Choice Questions and Answers (MCQs)

Providing core orthopaedic knowledge, tactics and pre-exam planning, this is the definitive guide to the FRCS (Tr & Orth) examination.

Best of Five MCQs for the Endocrinology and Diabetes SCE

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they

feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.

MCQs and EMQs for the Diploma in Otolaryngology - Head and Neck Surgery

This is a self assessment test which covers all aspects of the basic sciences related to ophthalmology. Each chapter comprises a series of MCQs and their explanatory text constitutes an up to date summary of that topic. The book is illustrated with 150 diagrams which compliment the text. It may be used as a revision aid for those about to sit the final FRCO or it may be read as a text book for those wishing to update their knowledge of the basic sciences.

ENT MCQs for Medical Students

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination, which tests the required standard of a recognised Urology specialist. It provides a selection of common clinical scenarios together with a guide to answering the FRCS(Urol) questions. Each chapter is

written by Consultant Urological Surge

Focused History Taking for OSCEs

This practical ENT reference guide includes over 100 clinical case scenarios, ranging from basic ENT issues to more challenging clinical cases, presented randomly as they would occur in real life. Each scenario includes thought-provoking questions followed by reasoned answers and is superbly illustrated with diagrams and high quality photographs. This is an invaluable text for otorhinolaryngologists in practice and in training, from hospital-based surgeons preparing for higher examinations to established physicians for their continuing professional development.

FRCS General Surgery Viva Topics and Revision Notes

FRCS General Surgery Section 1: 500 SBAs and EMIs, Second Edition has been thoroughly revised to ensure the content remains completely up to date and accurate. With 50 new questions, FRCS General Surgery Section 1: 500 SBAs and EMIs offers the most relevant and comprehensive set of practice questions for trainees preparing for the exam. Chapters are mapped to the syllabus to deliver structured revision in all the key topics tested in the exam. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of success. 500 SBA and EMI scenario based questions reflecting the formats

encountered in the exam Answers feature concise, case-based descriptions to consolidate knowledge Extensive evidence-based referencing to relate theory to clinical practice Visually-enhanced answers to improve understanding of key concepts

Essential Revision Notes in Paediatrics for the MRCPCH

Unique aid for candidates preparing for Part One of the FRCS general surgery exit examination. Also useful for MRCS examination candidates.

FRCS General Surgery

What do you need to do before sitting the written component of the FRCS (Tr and Orth) examination? Practice, practice, practice. Sadly the MCQs and EMQs in the actual examination are not this straightforward. This book will help the orthopaedic surgeon preparing for the written part of the examination to be ready to face the task ahead. The MCQs and EMQs appear in the same format as the examination and cover the syllabus topics. Divided into subspecialty chapters, including trauma and basic science, this book is ideal for use alongside a revision plan. The questions have detailed answers and selected references, arming readers with the knowledge they need to approach the topic correctly. Written by recent, successful examination candidates, this question-and-answer-based revision guide is ideal preparation for the FRCS (Tr and Orth) examination as well as being helpful for other postgraduate orthopaedic exams.

EMQs for the MRCS

"College Biology Multiple Choice Questions and Answers (MCQs): Quizzes & Practice Tests with Answer Key" provides mock tests for competitive exams to solve 1949 MCQs. "College Biology MCQ" pdf to download helps with theoretical, conceptual, and analytical study for self-assessment, career tests. College biology quizzes, a quick study guide can help to learn and practice questions for placement test preparation. "College Biology Multiple Choice Questions and Answers (MCQs)" pdf to download is a revision guide with a collection of trivia quiz questions and answers pdf on topics: Bioenergetics, biological molecules, cell biology, coordination and control, enzymes, fungi, recyclers kingdom, gaseous exchange, growth and development, kingdom animalia, kingdom plantae, kingdom prokaryotae, kingdom protocista, nutrition, reproduction, support and movements, transport biology, variety of life, and what is homeostasis to enhance teaching and learning. College Biology Quiz Questions and Answers pdf also covers the syllabus of many competitive papers for admission exams of different universities from biology textbooks on chapters: Bioenergetics MCQs: 53 Multiple Choice Questions. Biological Molecules MCQs: 121 Multiple Choice Questions. Cell Biology MCQs: 58 Multiple Choice Questions. Coordination and Control MCQs: 301 Multiple Choice Questions. Enzymes MCQs: 20 Multiple Choice Questions. Fungi: Recyclers Kingdom MCQs: 41 Multiple Choice Questions. Gaseous Exchange MCQs: 58 Multiple Choice Questions. Grade 11 Biology MCQs:

"What is Homeostasis MCQs" pdf covers quiz questions about bowman capsule, broken bones, epithelium, excretion in animals, excretion in vertebrates, excretion: kidneys, facial bones, glomerulus, hemoglobin, homeostasis concepts, homeostasis: excretion, homeostasis: thermoregulation, homeostasis: vertebrates, hormones, human skeleton, hypothalamus, mammals: thermoregulation, mechanisms in animals, metabolic waste, metabolism, muscles, nephrons, nitrogenous waste, osmoregulation, phalanges, plant movements, skeleton deformities, stomata, vertebrae, vertebral column, xylem.

HEMATOLOGY MCQs for NEET-SS and Board Review (Complete Edition)

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts and topics asked in the exam. Each chapter has been written by senior urology trainees who have recently passed the examination, in conjunction with experienced consultant urological surgeons. In addition to FRCS(Urol) examination candidates, this book will also be relevant to those sitting the FEBU or MSc urology examination, or to established consultants seeking a useful refresher text in areas outside their subspecialist interest. 'The British Association of Urological Surgeons (BAUS) is a charity whose mission is to promote the highest standard in the practice of Urology. As President of BAUS, it is therefore a great privilege and pleasure to introduce this excellent book.' - from the Foreword by Derek Fawcett 'No Urology trainee should be without this important and valuable contribution to the training of future consultants.' - from the Foreword by Hashim U Ahmed

Cracking the Intercollegiate General Surgery FRCS Viva

What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a

consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

MCQ Companion to Applied Radiological Anatomy

The syllabus for the FRCS (ORL-HNS) is vast and sound preparation for the exams has traditionally involved assimilating knowledge from a wide range of sources. This book provides a focussed guide for exam candidates. More than a question and answer book, this book is a coaching manual. Each section features a combination of model answers, pearls of wisdom, checklists and pointers for further reading. Detailed advice is provided for both Part 1 and Part 2 of the examination. Viva topics that have featured in the exam in recent years have been included, and have then been supplemented by invaluable editorial contributions from leaders in each of the subspecialties. Trainees frequently comment that

exam preparation is an enlightening process and the knowledge gained would have served them well during their time as an ENT registrar or Otorhinolaryngology resident. This book will also serve as a valuable learning tool for trainees as early as ST3 and facilitate their development of effective and safe clinical practice.

MCQs for FRCOphth and ICO Basic Sciences Examinations

A revision aid for radiology trainees world-wide studying for their professional examinations in the field.

ENT Medicine and Surgery

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical

undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

MRCP Cardiology MCQs

This straight-forward guide to taking patient history comprehensively covers all of the commonly seen OSCE scenarios within the current undergraduate medical curriculum. Focused History Taking for OSCEs includes an introductory chapter with general OSCE guidance, including tips from recently qualified doctors and highly respected physicians and surgeons who commonly examine OSCEs. It covers over 50 histories based on presenting complaints - more than any other text on the market - thoroughly testing both knowledge and examination technique. Each history is based around what the candidate is required to consider, with mnemonics and list-based breakdowns to aid prompt recall. It then concludes by outlining key aspects for each differential diagnosis as well as a list of investigations and management options.

Benefits

- Covers over 50 histories - more than any other book in this area
- Simple presentation - uses mnemonics and list-based prompts to aid fast recall
- Comprehensive - covers all the commonly examined history-taking OSCE scenarios in the undergraduate medical curriculum
- Includes tips from examiners and recently qualified doctors

MCQs for the FRCS(Urol) and

Postgraduate Urology Examinations

Specifically designed to help candidates revise for the MRCS exam, this book features 250 extended matching questions divided into 96 themes, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A EMQ section of the exam, the book focuses intensively on topics relating to principles of surgery-in-general, including peri-operative care, post-operative management and critical care, surgical technique and technology, management and legal issues in surgery, clinical microbiology, emergency medicine and trauma management, and principles of surgical oncology. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to extended matching questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, positively-worded questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as factual recall questions, prompting basic recall of facts.
