The MCSE Network Essentials exam is a challenge for even the most experienced administrator. You need to bone up on hard-to-remember facts that you might normally just look up when you needed them : things like distance limitations or number of repeaters for different kinds of cable, which IRQs are available for use with your NIC, or the advantages and disadvantages of a particular network topology or cabling standard. Sometimes, an old-fashioned memorization aid is just what you need, even when what you're studying is technology for the 21 st century. The Networking Essentials Flashcards set contains 280 flashcards covering everything you'll need to memorize for the exam. There are three types of cards : Definition cards give the characteristics of a particular networking technology, or individual facts you need to memorize. Compare and Contrast cards test your ability to distinguish between two related technologies. Advantages and Disadvantages cards help you to remember the key facts that you'll need to answer many of the difficult situational questions on the MCSE exam. In addition to the cards, you also get a 18 x 24 inch poster packed with important facts for the exam.

The unique, innovative guide provides a method for testing and reinforcing the candidate's knowledge and understanding--with questions more difficult to answer than those the candidates will find on the test. The book includes MCSE test-simulation software on the CD-ROM.
