New York Times bestselling humorist Michael Perry makes his fiction debut with this hilarious and big-hearted tale, a comic yet sincere exploration of faith and the foibles of modern life that blends the barbed charm of Garrison Keillor, the irreverent humor of Christopher Moore, and the audacious insight of Chuck Klosterman. Life is suddenly full of drama for low-key Harley Jackson: A woman in a big red pickup has stolen his bachelor's heart, a Hummer-driving predatory developer is threatening to pave the last vestiges of his family farm, and inside his barn is a calf bearing the image of Jesus Christ. His best friend, Billy, a giant of a man who shares his trailer house with a herd of cats and tries to pass off country music lyrics as philosophy, urges him to avoid the woman, fight the developer, and get rich off the calf. But Harley takes the opposite tack, hoping to avoid what his devout, dearly departed mother would have called "a scene." Then the secret gets out—right through the barn door, and Harley's "miracle" goes viral. Within hours pilgrims, grifters, and the media have descended on his quiet patch of Swivel, Wisconsin, looking for a glimpse (and a percentage) of the calf. Does Harley hide the famous, possibly holy calf and risk a riot, or give the people what they want—and raise enough money to keep his land—and, just possibly, win the woman and her big red pickup truck? Harley goes all in, cutting a deal with a major Hollywood agent that transforms his little farm into an international spiritual theme park—think Lourdes, only with cheese curds and t-shirts. Soon, Harley has lots of money . . . and more trouble than he ever dreamed.

An engaging and highly novel presentation of functional neuroanatomy, *Functional Neuroanatomy* provides a thorough understanding of the function of the central nervous system. It takes a problem- and exercise-based approach to the material, with everything from dissections, radiological material, and histology to clinical cases and experimental data. The text shows histology of various neurological disorders, accompanied by descriptions of clinically relevant pathology. Numerous patient presentations support the case studies by offering real examples of how functional neuroanatomy applies to clinical problems. Taking a highly interactive approach to the field, the text offers over 500 clearly labeled images of gross, microscopic, and radiological images. It cross-references between chapters and reinforces concepts introduced earlier. The emphasis stays on clinical relevance throughout, and the book concludes with an atlas of labeled gross structures and cross-sections.

Though he was born and died in England, Harold Bindloss spent much of his youth traveling the world, and he was particularly enamored of the forests of Canada, where he would later set many of his Western novels. In Alton of Somasco, small-time logger Harry Alton has big plans for his land -- and the ambitions and smarts to make his dream a reality. But when a conniving British businessman shows up with some startling news, Alton's livelihood is suddenly at risk.

Since its introduction in 1975, the BMW 3-series has earned a reputation as one of the world's greatest sports sedans. Unfortunately, it has also proven one of the more expensive to service and maintain. This book is dedicated to the legion of BMW 3-series owners who adore their cars and enjoy restoring, modifying, and maintaining them to perfection; its format allows more of these enthusiasts to get out into the garage and work on their BMWs--and in the process, to save a fortune. Created with the weekend mechanic in mind, this extensively illustrated manual offers 101 projects that will help you modify, maintain, and enhance your BMW 3-series sports sedan. Focusing on the 1984-1999 E30 and E36 models, 101 Performance Projects for Your BMW 3-Series presents all the necessary information, covers all the pitfalls, and assesses all the costs associated with performing an expansive array of weekend projects.

With this book, Karin Roseblatt presents a gendered history of the politics and political compromise that emerged in Chile during the 1930s and 1940s, when reformist popular-front coalitions held power. While other scholars have focused on the economic realignments and novel political pacts that characterized Chilean politics during this era, Roseblatt explores how gender helped shape Chile's evolving national identity. Roseblatt examines how and why the aims of feminists, socialists, labor activists, social workers, physicians, and political leaders converged around a shared gender ideology. Tracing the complex negotiations surrounding the implementation of new labor, health, and welfare policies, she shows that professionals in health and welfare agencies sought to regulate gender and sexuality within the working class and to consolidate the male-led nuclear

family as the basis of societal stability. Leftists collaborated in these efforts because they felt that strong family bonds would generate a sense of class belonging and help unify the Left, while feminists perceived male familial responsibility as beneficial for women. Diverse actors within civil society thus reworked the norms of masculinity and femininity developed by state agencies and political leaders--even as others challenged those ideals.

This edited volume proposes that an understanding of ASEAN – its development and institutionalization – is invaluable to our conception of international relations theory in the Asian context. Southeast Asia and ASEAN host peoples, ideas, institutions, and relations that contribute to a critical reassessment of theories in social sciences. In the field of IR, studies on transnational networks, diasporas,

small states, middle powers, the role of history, and identity learn from Southeast Asian practices. ASEAN has long been established as an authoritative example of alternative ways of regional institutionalization. Besides empirical analysis, these fields can also benefit from their interactions with regional scholarly communities. This edited book offers an opportunity for a dialogue among scholarly communities on a variety of issues of which Southeast Asia and ASEAN provide ample opportunities for a critical analysis. This book will be of great interest to scholars of ASEAN, the broader Asian region, and for scholars of regionalism in general.

formerly-known-as-Cupid is having a tough time. Especially now that True's immortal love, Orion, has also appeared at her New Jersey high school—but with no memory of their relationship. To distract herself from seeing Orion flirt with another girl, True focuses her efforts on making a match: Peter and Claudia. Peter is the star quarterback and the most popular guy in school. But he's insecure about his future, so he preemptively dumps Claudia, his girlfriend. (If she won't want to be with him later, why stay together now?) Claudia doesn't take the breakup too well, and she's ready to show the quarterback of their rival school just how ready she is to get over it. But True sees something in these two seniors. She believes they should be together—but can she help them find their way back to each other (and get herself closer to home)? Or have things already spun too far out of control?
