News of the World

A superb new collection from “a great American poet . . . still at work on his almost-song of himself” (The New York Times Book Review). In both lively prose poems and more formal verse, Philip Levine brings us news from everywhere: from Detroit, where exhausted workers try to find a decent breakfast after the late shift, and Henry Ford, “supremely bored” in his mansion, clocks in at one of his plants . . . from Spain, where a woman sings a song that rises at dawn, like the dust of ages, through an open window . . . from Andorra, where an old Communist can now supply you with anything you want—a French radio, a Cadillac, or, if you have a week, an American film star. The world of his poetry is one of questionable magic: a typist lives for her only son who will die in a war to come; three boys fish in a river while a fine industrial residue falls on their shoulders. This is a haunted world in which exotic animals travel first class, an immigrant worker in Detroit yearns for the silence of his Siberian exile, and the Western mountains “maintain that huge silence we think of as divine.” A rich, deeply felt collection from one of our master poets. From the Hardcover edition.

Story-Based Inquiry: A Manual for Investigative Journalists

Twenty years ago, a first novel appeared and instantly announced the arrival of a master storyteller. T. R. Pearson's *A Short History of a Small Place* was hailed as "an absolute stunner" (Jonathan Yardley, *The Washington Post*) and its hero, young Louis Benfield, was dubbed "a youth not as wry as Holden Caulfield, but certainly as observant, and with a bigger, even sadder heart" (Fran Schumer, *The New York Times*). Now, older but not necessarily wiser, Louis Benfield returns in *Glad News of the Natural World*. In order to get a sense of the larger world, he has moved to New York City from his hometown of Neely, North Carolina. Louis is a modern-day *Candide*, looking for love and experience in all the wrong places. However, when tragedy strikes, he finds the maturity to be more than man enough for the job. Whether catching up with Louis Benfield and the denizens of Neely or meeting them for the first time, readers will find *Glad News of the Natural World* hilarious and heartbreaking, warm and wise.

The Aviator's Wife

Soon to be a Major Motion Picture National Book Award Finalist—Fiction In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of *Enemy Women* that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act "civilized." Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forming a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember—strangers who regard her as an unwanted burden. A respectable man, Captain Kidd is faced with a terrible choice: abandon the girl to her fate or become—in the eyes of the law—a kidnapper himself.

Oil is king of East Texas during the darkest years of the Great Depression. And in every small town in which the windblown family settles, mother Elizabeth does her level best to make each sparse, temporary house they inhabit a home. But the fall of 1937 ushers in a year of devastating drought and dust storms, and the family's fortunes sink further than they ever anticipated when a questionable "accident" leaves Elizabeth and her girls alone to confront the cruelest hardships of these hardest of times. But hard work and good intentions won't make ends meet or pay the back taxes they owe on their land. In desperation, the Stoddard women place their last hopes for salvation in a wildcat oil well that eats up what little they have left . . . and on the back of late patriarch Jack's one true legacy, a dangerous racehorse named Smoky Joe. And Jeanine, the fatherless "daddy's girl," must decide if she will gamble it all . . . on love.

A fierce international bestseller that launched Korea's new feminist movement, Kim Jiyoung, Born 1982 follows one woman's psychic deterioration in the face of rigid misogyny. Truly, flawlessly, completely, she became that person. In a small, tidy apartment on the outskirts of the frenzied metropolis of Seoul lives Kim Jiyoung. A thirtysomething-year-old "millennial everywoman," she has recently left her white-collar desk job—in order to care for her newborn daughter full-

time—as so many Korean women are expected to do. But she quickly begins to exhibit strange symptoms that alarm her husband, parents, and in-laws: Jiyoung impersonates the voices of other women—alive and even dead, both known and unknown to her. As she plunges deeper into this psychosis, her discomfited husband sends her to a male psychiatrist. In a chilling, eerily truncated third-person voice, Jiyoung’s entire life is recounted to the psychiatrist—a narrative infused with disparate elements of frustration, perseverance, and submission. Born in 1982 and given the most common name for Korean baby girls, Jiyoung quickly becomes the unfavored sister to her princeling little brother. Always, her behavior is policed by the male figures around her—from the elementary school teachers who enforce strict uniforms for girls, to the coworkers who install a hidden camera in the women’s restroom and post their photos online. In her father’s eyes, it is Jiyoung’s fault that men harass her late at night; in her husband’s eyes, it is Jiyoung’s duty to forsake her career to take care of him and their child—to put them first. Jiyoung’s painfully common life is juxtaposed against a backdrop of an advancing Korea, as it abandons “family planning” birth control policies and passes new legislation against gender discrimination. But can her doctor flawlessly, completely cure her, or even discover what truly ails her? Rendered in minimalist yet lacerating prose, Kim Jiyoung, Born 1982 sits at the center of our global #MeToo movement and announces the arrival of writer of international significance.

Enemy Women

What's news? A front-page news story in the United States might not appear in a newspaper in China. Or a minor story on German television may be all over the airwaves in India. But *News Around the World* shows that the underlying nature of news is much the same the world over and that people--no matter what their jobs or their status in society--tend to hold similar notions of newsworthiness. In this richly detailed study of international news, news makers and the audience, the authors have undertaken exhaustive original research within two cities--one major and one peripheral--in each of ten countries: Australia, Chile, China, Germany, India, Israel, Jordan, Russia, South Africa, and the United States. The nations were selected for study based on a central principle of maximizing variation in geographic locations, economic and political systems, languages, sizes, and cultures. The remarkable scope of the research makes this the most comprehensive analysis of newsworthiness around the globe: 10 countries studied, each with a university country director 2 cities in each country examined, one major and one peripheral 60 news media studied (newspapers, television, and radio news programs),

resulting in 32,000+ news items analyzed 80 focus groups with journalists, public relations practitioners, and audience members 2,400 newspaper stories ranked according to newsworthiness and compared with how prominently they were published. News Around the World provides remarkable insight into how and why news stories are reported, testing and improving a theory of cross-cultural newsworthiness and is essential reading for anyone seeking to understand international media and journalism.

Stormy Weather

The critically acclaimed, bestselling author of *News of the World* and *Enemy Women* returns to Texas in this atmospheric story, set at the end of the Civil War, about an itinerant fiddle player, a ragtag band of musicians with whom he travels trying to make a living, and the charming young Irish lass who steals his heart. In March 1865, the long and bitter War between the States is winding down. Till now, twenty-three-year-old Simon Boudlin has evaded military duty thanks to his slight stature, youthful appearance, and utter lack of compunction about bending the truth. But following a barroom brawl in Victoria, Texas, Simon finds himself conscripted, however belatedly, into the Confederate Army. Luckily his talent with a fiddle gets him a comparatively easy position in a regimental band. Weeks later, on the eve of the Confederate surrender, Simon and his bandmates are called to play for officers and their families from both sides of the conflict. There the quick-thinking, audacious fiddler can't help but notice the lovely Doris Mary Dillon, an indentured girl from Ireland, who is governess to a Union colonel's daughter. After the surrender, Simon and Doris go their separate ways. He will travel around Texas seeking fame and fortune as a musician. She must accompany the colonel's family to finish her three years of service. But Simon cannot forget the fair Irish maiden, and vows that someday he will find her again. Incandescent in its beauty, told in Paulette Jiles's trademark spare yet lilting style, *Simon the Fiddler* is a captivating, bittersweet tale of the chances a devoted man will take, and the lengths he will go to fulfill his heart's yearning.

The Gospel-Driven Life

Unique among the world's fishes, frogfishes display a bizarre combination of attributes and behaviors that make them a subject of fervent study. Through cunning and trickery, they turn would-be predators into prey; they "walk" across the ocean floor and jet-propel through open water; some lay their eggs in a floating mucoïd mass, while others employ complex patterns of parental care; and they are certainly among the most colorful of nature's productions. In *Frogfishes*, two of the world's leading anglerfish experts, Theodore W. Pietsch and Rachel J. Arnold, bring together an enormous amount of information about these incredible creatures. The only detailed exploration of frogfishes in print, the book touches on everything from their morphology and biomechanics to their diets and habitats. Enhanced with more than 500 spectacular color images, the book also includes • a thorough look at about 5,000 preserved specimens; • an annotated synonymy for all extant taxa, as well as keys and tables to facilitate identification; • insights into frogfish feeding, locomotion, mimicry, and reproductive behavior; • descriptions of recent scientific advances, including the discovery of new species, shifts in geographic distribution, and emerging DNA sequencing techniques; and • tips for frogfish-seeking divers and aquarists that emphasize conservation. Unmasking the mysteries of frogfish evolution and phylogenetic relationships through close examination of their fossil record, morphology, and molecular reconstruction, *Frogfishes* demonstrates the surprising diversity and beauty of this remarkable assemblage of marine shorefishes.

In the current day and age, objective facts have less influence on opinions and decisions than personal emotions and beliefs. Many individuals rely on their social networks to gather information thanks to social media's ability to share information rapidly and over a much greater geographic range. However, this creates an overall false balance as people tend to seek out information that is compatible with their existing views and values. They deliberately seek out 'facts' and data that specifically support their conclusions and classify any information that contradicts their beliefs as 'false news.' Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World is a collection of innovative research on human and automated methods to deter the spread of misinformation online, such as legal or policy changes, information literacy workshops, and algorithms that can detect fake news dissemination patterns in social media. While highlighting topics including source credibility, share culture, and media literacy, this book is ideally designed for social media managers, technology and software developers, IT specialists, educators, columnists, writers, editors, journalists, broadcasters, newscasters, researchers, policymakers, and students.

Bestselling travel writer Richard Grant offers an entertaining and profound look at a city like no other. Natchez, Mississippi, once had more millionaires per capita than anywhere else in America, and its wealth was built on slavery and cotton. Today it has the greatest concentration of antebellum mansions in the South, and a culture full of unexpected contradictions. Prominent white families dress up in hoopskirts and Confederate uniforms for ritual celebrations of the Old South, yet Natchez is also progressive enough to elect a gay black man for mayor with 91% of the vote. Much as John Berendt did for Savannah in *Midnight in the Garden of Good and Evil* and the hit podcast *S-Town* did for Woodstock, Alabama, so Richard

Grant does for Natchez in *The Deepest South of All*. With humor and insight, he depicts a strange, eccentric town with an unforgettable cast of characters. There's Buzz Harper, a six-foot-five gay antique dealer famous for swanning around in a mink coat with a uniformed manservant and a very short German bodybuilder. There's Ginger Hyland, "The Lioness," who owns 500 antique eyewash cups and decorates 168 Christmas trees with her jewelry collection. And there's Nellie Jackson, a Cadillac-driving brothel madam who became an FBI informant about the KKK before being burned alive by one of her customers. Interwoven through these stories is the more somber and largely forgotten account of Abd al Rahman Ibrahima, a West African prince who was enslaved in Natchez and became a cause célèbre in the 1820s, eventually gaining his freedom and returning to Africa. Part history and part travelogue, *The Deepest South of All* offers a gripping portrait of a complex American place, as it struggles to break free from the past and confront the legacy of slavery.

Good News in a Bad News World

An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions, *The Hindus* elucidates the relationship between recorded history and imaginary worlds. Hinduism does not lend itself easily to a strictly chronological account: many of its central texts cannot be reliably dated even within a century; its central tenets karma, dharma, to name just two arise at particular moments in Indian history and differ in each era, between genders, and caste to caste; and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another. Yet the greatness of Hinduism - its vitality, its earthiness, its vividness - lies precisely in many of those idiosyncratic qualities that continue to inspire debate today. Wendy Doniger is one of the foremost scholars of Hinduism in the world. With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon. Without reversing or misrepresenting the historical hierarchies, she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes; how they debate tensions surrounding religion, violence, and tolerance; and how animals are the key to important shifts in attitudes toward different social classes. *The Hindus* brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers - many of them far removed from Brahmin authors of Sanskrit texts - have kept Hinduism alive in ways that other scholars have not fully explored. In this unique and authoritative account, debates about Hindu traditions become platforms from which to consider the ironies, and overlooked epiphanies, of history.

Fauja Singh Keeps Going

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to

wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Navigating Fake News, Alternative Facts, and Misinformation in a Post-Truth World

INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance Previously I armed myself with huge data

sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

The Color of Lightning

On the News gently introduces young children to the realities of natural disasters, terrorism and other forms of tragedy. In age-appropriate language and tone, Dr. Roberts explains what tragedy is, the feelings it may create and how to manage those feelings. She also emphasizes the good that can come out of tragedy, looking at how people help one another in caring, compassionate and heroic ways. The book's question-and-answer format will help parents have a meaningful conversation about these difficult topics with their children and equip them to better handle questions that arise when children are exposed to the news. The World Around Us series introduces children to complex cultural, social and environmental issues they may encounter outside the comfort of their homes, in a way that is straightforward and accessible.

Kim Jiyoung, Born 1982: A Novel

Developing News sets out to describe how development is articulated in the news and used by newspeople as an analytical category to explain the world. It is about examining development as a discourse that is based on the harmful contrast between the developed and the developing (or the underdeveloped) and that sets the boundaries for what is permissible to say. Jairo Lugo-Ocando and An Nguyen begin by discussing the news coverage of development that emerged as a news category for newspapers and broadcasters after World War II. They move on to examine the way development has been

reported by the mainstream media, exploring the rationales and ideologies that determined and continue to define the way the media think about and represent development in the news. In doing so, the authors contribute to a better understanding of the relationship between the news agenda, news sources and the development policies that are set in the centres of power. This book is ideal for those studying and researching and studying issues to do with journalism and the "Third World". It may also be relevant for those students taking courses in global or international journalism, media and democracy, development studies or international politics. Above all, it is an invitation for journalists to rethink their own practice in representing international development and its component.

The Invention of News

Soon to be a Major Motion Picture Starring Tom Hanks In this National Book Award finalist set in the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction that explores the boundaries of family, responsibility, honor, and trust It is 1870 and Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act "civilized." Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forging a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember--strangers who regard her as an unwanted burden. A respectable man, Captain Kidd is faced with a terrible choice: abandon the girl to her fate or become--in the eyes of the law--a kidnapper himself. Exquisitely rendered and morally complex, News of the World is a brilliant work of historical fiction that explores the boundaries of family, responsibility, honor, and trust.
