Ni Hao 3

Ni Hao, Level 2 (3rd edition) consists of a student textbook, student workbook and four audio CDs. Lessons 2 and 3 have been renamed but the content is primarily the same. Lesson 6 was eliminated. One more review lesson has been added as Lesson 5. A new section "About Pinyin and characters" has been added to this new edition. It highlights some areas that students would like to know when learning the rules of pronunciation. In the student workbook the first section of each lesson provides word recognition practices instead of listening to statements and identifying the picture as in the 2002 edition. The audio CDs cover all sections in each lesson which provide support to students for independent listening opportunities. The sections in the student textbook and workbook exercises are clearly announced.

WAGASA Book 1

Japanese language textbook in line with VCE Study Design

CALICO Journal

This Little Golden Book, based on an episode of Disney Junior's Sheriff Callie's Wild West, is perfect for boys and girls ages 2 to 5. Sheriff Callie gets her foot stuck in a can and can't dance with the rest of the townsfolk. Find out what she does to make the best of her sticky situation!

Teacher's handbook

Quoi de Neuf ? Senior for Years 11-12 was written from the ground up based on teacher research and is aligned with the Victorian Study Design 2019, the NSW Stage 6 Syllabus, the QLD Senior curriculum 2019, and all other states' senior curricula. Building on the features and language of the Quoi de Neuf ? years 7-10 series, while recognising the specific needs of senior French years, Quoi de Neuf ? Senior equips students for their studies and exams with an all-in-one print and digital resource. Students continue to use their intercultural, investigating, viewing and critical thinking skills with Quoi de Neuf ? Senior. Quoi de Neuf ? Senior eBook allows students and teachers to interact with Student Book content and more, both online and offline. It offers access to all audio tracks, worksheets, vocabulary lists and additional teacher support material.

Kai-lan, Princess of Friends

Multi-armed bandits is a rich, multi-disciplinary area that has been studied since 1933, with a surge of activity in the past 10-15 years. This is the first book to provide a textbook like treatment of the subject.

Introduction to Multi-Armed Bandits

Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.

Kai-lan's Great Trip to China (Ni Hao, Kai-lan)

Provides students and practitioners with a clear, concise introduction to the statistics they will come across in their regular reading of clinical papers. Written by three experts with wide teaching and consulting experience, *Medical Statistics: A Textbook for the Health Sciences, Fourth Edition*: Assumes no prior knowledge of statistics Covers all essential statistical methods Completely revised, updated and expanded Includes numerous examples and exercises on the interpretation of the statistics in papers published in medical journals From the reviews of the previous edition: "The book has several excellent features: it is written by statisticians, is well presented, is well referenced, and is short." THE LANCET "Many statisticians are concerned at the generally poor standard of statistics in papers published in medical journals. Perhaps this could be remedied if more research workers would spare a few hours to read through Campbell and Machin's book." BRITISH MEDICAL JOURNAL " a simple, interesting and insightful introduction to medical statistics highly recommended." STATISTICAL METHODS IN MEDICAL RESEARCH "Campbell and Machin found the golden mean this book can be recommended for all students and all medical researchers." ISCB NEWSLETTER

□□□□□

"Ideal for: Learners with no prior knowledge of Chinese in upper-level elementary through senior high grades. Say Ni Hao ("Hello") to the Chinese language! This series helps learners develop listening, speaking, reading and writing skills with an approach "

After Confucius

An act of defiance that will either kill her or change her life forever Sixteen year old Makayla Summerlin's life with her drug-addled mom and skeezy boyfriend was hard, really hard, but it was hers! She barely remembers the grandfather she now has to live with. Completely uprooted, Makayla feels exactly how little control she has over anything - until she looks at her grandfather's sailboat and suddenly it seems like the perfect escape from her life. Makayla sets sail - with an unintended passenger - and begins a journey around the coast of Florida that will challenge everything she has ever believed about herself. What will it take to survive the elements? 2016 Gold Finalist in the Wishing Shelf Book Award!

Kai-lan and the Ladybug Festival

Kai-lan and her friends get lost on the way to the Ladybug Festival. Which way do they go? Tolee tries to tell everyone that he has a map, but no one is paying attention to him. Kai-lan realizes it's important to hear what all your friends say, one of them may save the day!

Integrated Chinese, Level 1

A comprehensive and rigorous introduction for graduate students and researchers, with applications in sequential decision-making problems.

Ni Hao Level 4

Medical Statistics

Offering comprehensive coverage of core anatomic concepts, this respected, clinically oriented text is the definitive source for a complete understanding of veterinary anatomy. Gain the working anatomic knowledge that is crucial to your understanding of the veterinary basic sciences, as well as detailed information directly applicable to the care of specific animal species, including dogs, cats, horses, cows, pigs, sheep, goats, and birds. Each chapter includes a conceptual overview that describes the structure and function of an anatomic region, accompanied by new full-color dissection photographs that illustrate the relevance of anatomy to successful veterinary practice. Content is logically organized into two main sections - a general introduction to mammalian anatomy and a region-specific breakdown - to make studying more efficient and ensure greater understanding. Comprehensive, all-in-one coverage of all major species presents everything you need to master anatomic concepts in one text. Focus on essential anatomy of each species delivers just the right level of detail to help you establish a solid foundation for success. For the first time all images in the text appear in full

color! This lifelike presentation clarifies anatomic concepts and structures in vibrant detail. Vivid full-color dissection photographs help you translate anatomic knowledge to clinical practice and confidently perform dissection procedures. A companion Evolve Resources website reinforces your understanding and helps you prepare for the NAVLEÒ board exam with 300 exam-style practice questions, a full-color electronic image collection, and more.

Kai-lan's Great Trip to China

Chinese herbal therapy has different styles. The most commonly applied styles are Conventional herbal formula style and Classical herbal formula style. For the former is the one taught in TCM school and the latter, is only briefly introduced in school. It is said that the former system is easy to learn in school but hard to have high effective healing level in later clinic practice. The latter style of TCM is based on book Shanghan Lun, which is difficulty to learn in beginning but has higher healing effect in later clinic practice. There are many reasons for this. In our book here, we introduce the opinions of many current TCM doctors for their understanding of the Shanghan Lun. We hope that, by learning from the different TCM experts, the beginners can quickly move into the gate of Classical herbal system and become real expert in TCM practice.

Seismic Risk Analysis of Nuclear Power Plants

The Oxford Latin Course

After Confucius is a collection of eight studies of Chinese philosophy from the time of Confucius to the formation of the empire in the second and third centuries B.C.E. As detailed in a masterful introduction, each essay serves as a concrete example of “thick description”—an approach invented by philosopher Gilbert Ryle—which aims to reveal the logic that informs an observable exchange among members of a community or society. To grasp the significance of such exchanges, it is necessary to investigate the networks of meaning on which they rely. Paul R. Goldin argues that the character of ancient Chinese philosophy can be appreciated only if we recognize the cultural codes underlying the circulation of ideas in that world. Thick description is the best preliminary method to determine how Chinese thinkers conceived of their own enterprise. Who were the ancient Chinese philosophers? What was their intended audience? What were they arguing about? How did they respond to earlier thinkers, and to each other? Why did those in power wish to hear from them, and what did they claim to offer in return for patronage? Goldin addresses these questions as he looks at several topics, including rhetorical conventions of Chinese philosophical literature; the value of recently excavated manuscripts for the interpretation of the more familiar, received literature; and the duty of translators to convey the world of concerns of the original texts. Each of the cases investigated in this wide-ranging volume exemplifies the central conviction behind Goldin’s plea for thick description: We do not do justice to classical Chinese philosophy unless we engage squarely the complex and ancient culture that engendered it. An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched, a collaborative initiative designed to make high-quality books open access for the public good.
