Conscious Parenting Course by Nataša Pantović (MSc Economics) and Ivana Milosavljević (MA Special Needs) is the AoL Mindfulness Bok #5 designed for parents. We use 100s of Transformation Tools and Parenting Exercises that will help you get in touch with your Soul, with Love, and with Patience when dealing with kids. Explore the magic work with: Soul's Diary, Spiritual Parenting Diary, Developing Parenting Virtues, Mindfulness Meditations, Rhythm, Day-to-day Routine, Happy Family Structure, Cultivating Relationships, etc. Within 12 Modules we examine 12 areas of Life and Implement various Transformation Tools to help you Live your Highest Potential as a Parent. You will explore some very inspiring Conscious Parenting Exercises exploring mind powers, subconscious and conscious thoughts, emotions, relationships. We look into parenting goals, dreams, and personal development plan. All through the exercises, we hope to inspire: - Your relationship with yourself as a parent and the world, - Your capability to Love, Be Organised, and Respect Rhythm and Structure - Your capacity to stay a Creative Parent that is Full of Energy.

Spiritual, Ethical and Historical Discourses, Delivered Under Inspiration,

The Book of Stones, Revised Edition

Esoteric Astrology – A New Astrology for a New Millennium Volume One - The Signs, Planets and Houses of the Horoscope
This publication takes a new and revitalised look at astrology. It is simple to understand, yet remains a powerful tool, capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the application of astrology to the unique problems of the modern world, its use as a method of revealing purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are more relevant than orthodox rulers in the charts of spiritually-minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology.

One Silken Thread

A resource for safe baby care

Conscious Parenting

Lee Scheingold's rich, painful intellectual and personal journey—following the death of her husband, famed political scientist Stuart Scheingold—is described from the points of view which have informed her life: psychoanalysis, clinical social work, Buddhism, and family medicine. Yet it is poetry that is the connecting thread, beginning with the Russian poems which she

studied long ago in college. She describes her return journey to Russian literature in the wake of profound grief. This is an emotional and yet academic account from an author who has approached her life with almost continual self-reflection. As a result of this examined life, the factors and life experiences which enabled her to tolerate, and even welcome, the feelings of grief are explored. Two psychoanalyses and a ten-year practice of Buddhism are examined in detail with the issue of meaning foregrounded. Emotions have central stage here, but ideas are close behind. For Lee Scheingold, poetry links the two. The deeply evocative style of the book resembles poetry itself.

Securing Our Planet

Healing Thoughts for a Sick Planet

Often dubbed the "crystals bible," this comprehensive reference guide to the spiritual and healing qualities of 455 sacred stones has become the go-to book for looking up the properties of gems and minerals. Each entry includes vivid color photographs for each stone to aid identification and to showcase its beauty, as well as listing its scientific information, its element and chakra correspondences, and the physical, emotional, and spiritual benefits of each stone. Illustrated by gorgeously lit, clear color photos to aid quick identification, the book offers an illuminating alphabetical journey through the mineral kingdom, stone by stone. This new edition of *The Book of Stones*, the best-selling guide to some of Earth's most beautiful natural objects, is revised to include 76 new entries. The book begins with two introductory chapters detailing advice by authors Naisha Ahsian and Robert Simmons on how to work with crystals and stones--including the concept of crystal resonance and the scientific observation that living organisms (such as ourselves) are liquid crystalline structures. Each entry begins with the stone name and photo, plus its elemental and chakra correspondences, as well as keywords that indicate its properties. Next comes a description of the crystal structure, hardness, history, and known locations of each mineral, plus any relevant legend or lore from the past. Each author then offers their own take and personal insights on the subtle energy properties and spiritual applications of the stone. The entries conclude with summaries of the spiritual, emotional, and physical healing qualities of the stone, and an affirmation for evoking its potential benefits. The book's presentation is straightforward enough to make it an excellent introduction for beginners, yet the level of detail and the depth of research make it an invaluable resource for the most experienced stone practitioners.

Second in a series of six new books for a Darwin Anniversary Book Cycle, *Measuring Evolution: A User's Guide to the Health and Wealth of Nations* tells the inspiring story of the development, and provides a guide to the use, of the Global Sounding. This is a new instrument for measuring our local, national, and planetary health and well-being on 15 basic indicators of evolution. Of widespread prospective interest is the fact that, for the first time, this new measure bridges what both progressive scientists and progressive religious leaders increasingly view as a socially, economically, politically, and morally disastrous gap between science and spirituality. With hundreds of studies of evolution by natural, social and systems scientists behind it, the Global Sounding has been designed to provide a relatively simple new way of measuring the impact of our human actions, or inactions, on the range from cosmic, chemical, and biological evolution, through the evolution of the brain, into the spread of cultural evolution through personal, social, economic, political, educational, and technological into moral and spiritual evolution, capped by the evolution of consciousness and personal and social action to change our world for the better. The name for the new measure comes from Darwin's famous voyage of the Beagle-the ship originally commissioned to circle the world to obtain soundings indicating peaceful harbors and safe channels for navigation. The book is animated by colorful, engaging, and often humorous stories to illustrate how the new measure can be put to use by progressives during the customary behind-scenes battles with advocates for the status quo or regressives in key decision-making situations that determine whether we move ahead, are checked in place, or shoved backward in evolution. Along with illustrative test matrixes for each of the following situations, the Global Sounding has been designed to advance the successful advocacy of and motivation for globally-responsible programs, practices, and policies by decision-makers in business, government, politics, science, education, foundations, religions, and the media. The author, David Loye, is an internationally known evolutionary systems scientist and author of the award-winning *The Healing of a Nation*. Titles for further books in the new series are *Darwin's Lost Theory*, *Darwin on Love*, *The Derailing of Evolution*, and *Telling the New Story*, first for a series of books by leading world educators on how to globally shift from the old to the new Darwinian model in schools and the media. In addition to more information on the Darwin Anniversary Book Cycle, the website for the publisher, www.benjaminfranklinpress.com, provides a marketing analysis of prospective appeal to readers in editions for other languages in Europe, Asia, and South as well as North America. The publisher has also launched an online Darwin Anniversary Report (www.darwinanniversary.com) to provide a central news source for scores of events now underway around the world during the current global buildup for the 200th Anniversary of Darwin's birth.

The Rising Sign

Dodging the Toxic Bullet presents workable strategies that show how we can live longer, healthier lives by breathing clean air, eating healthy food, drinking safe water, and using non-toxic products. Author David R. Boyd provides accessible background on a range of hazards including mercury in fish, carcinogens in cleaning products, lead in toys, and lethal E. coli in ground beef. His clear directions for reducing risk include growing lots of houseplants, choosing whole foods, avoiding consumer products with strong or long-lasting smells, and using green cleaning products. Easy-to-follow advice and informative sidebars and checklists make this a must-have guide, especially for parents of infants and children.

Dr. William Smith's Dictionary of the Bible

Dodging the Toxic Bullet

Why do American husbands come home from work too exhausted to interact with their families? When did a healthy quest for prosperity become a twisted game no one can win? How did BlackBerries and internet porn become more interesting to men than their flesh-and-blood spouses? Shmuley Boteach has made a great study of how families live today—both in his work as a rabbi privately and as host of TLC's "Shalom in the Home". He's discovered a disturbing common thread in the families he meets: men responding to the pressure of competition in their work lives by turning away from their loved ones. In a world that judges men by the size of their paychecks and the wattage of their fame, it's all too easy to lose sight of what is truly valuable in life. Men who consider themselves failures and don't love themselves turn into stressed-out dads, distracted husbands and miserable human beings. For these men, alcohol, the internet and sporting events serve as numbing stand-ins for real life. In THE BROKEN AMERICAN MALE, Boteach doesn't just outline the problems facing marriages and nuclear families. He also offers practical, inspiring solutions, showing how wives can reach out to their husbands, helping them become heroes again to their own families.

The Broken American Male

A harrowing, yet inspiring true story of a young girl's abusive childhood, from new author Denise Richardson. Denise endured emotional and physical cruelty and molestation at the hands of her mother and her drunken boyfriends. In an

environment full of toxic emotions and violence, her survival depended on navigating daily, a safe passage through the basest of human behaviours. An absent, paedophilic father could not be trusted, and her older brother fled, as soon as he was able. Alone, in this domestic battlefield, she faced an unpredictable psychotic mother, regular beatings and torture, all against a backdrop of fear that she would be killed. But throughout Denise kept alive dreams of escaping. This book covers the early years of her life and is an affecting and inspirational book of the horrors of child abuse and the steadfast determination of one child to survive.

Mothers & Others for a Livable Planet Guide to Natural Baby Care

Goodness to Go

Shiny, a whale child, is turned into a boy to teach Alex, a young girl, the wisdom of the Native American value of environmental stewardship so that she can share it with others. Includes glossary of environmental terms, facts about Pacific Northwest Native cultures, and other educational resources.

The Whale Child

A book of contemporary proverbs comparing the biblical worldview with many other worldviews. A must read for anyone interested in the controversial issues that divide the inhabitants of Planet Earth.

Proving Up

The Preceding God

Uses the interdisciplinary approach of evolutionary economics to explore the history of land domestication in the United States.

A Wrinkle in Time

In Planet Beethoven, Mina Yang makes the compelling case that classical music in the twenty-first century is just as vibrant and relevant as ever—but with significant changes that give us insight into the major cultural shifts of our day. Perusing events, projects, programs, writings, musicians, and compositions, Yang shines a spotlight on the Western art music tradition. The book covers an array of topics, from the use of Beethoven’s “Für Elise” in YouTube clips and hip-hop, to the marketing claims of Baby Einstein products, and the new forms of music education introduced by Gustavo Dudamel, conductor of the Los Angeles Philharmonic. While the book is global in its outlook, each chapter investigates the unique attributes of a specific performer, performance, or event. One chapter reflects on Chinese pianist Yuja Wang’s controversial performance at the Hollywood Bowl, another explores the highly symbolic Passion 2000 Project in Stuttgart, Germany. Sure to be of interest to students, professionals, and aficionados, Planet Beethoven traces the tensions that arise from the “classical” nature of this tradition and our rapidly changing world. Ebook Edition Note: One image has been redacted.

One Child, One Planet

Measuring Evolution

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
