Yoga Sastra - The Yoga Sutras of Patanjali Examined with a Notice of Swami Vivekananda's Yoga Philosophy

B.K.S. Iyengar--hailed as "the Michelangelo of yoga" (BBC) and considered by many to be one of the most important yoga masters--has spent much of his life introducing the modern world to the ancient practice of yoga. Yoga's popularity is soaring, but its widespread acceptance as an exercise for physical fitness and the recognition of its health benefits have not been matched by an understanding of the emotional, intellectual, and spiritual development that the yogic tradition can also offer. In Light on Life, B.K.S. Iyengar brings readers this new and more complete understanding of the yogic journey. Here Iyengar explores the yogic goal to integrate the different parts of the self (body, emotions, mind, and soul), the role

that the yoga postures and breathing techniques play in our search for wholeness, the external and internal obstacles that keep us from progressing along the path, and how yoga can transform our lives and help us to live in harmony with the world around us. For the first time, Iyengar uses stories from his own life, humor, and examples from modern culture to illustrate the profound gifts that yoga offers. Written with the depth of this sage's great wisdom, Light on Life is the culmination of a master's spiritual genius, a treasured companion to his seminal Light on Yoga.

In *A Tale of Two Theologians*, Ambrose Mong's observant new work, he examines the writings of the Peruvian theologian Gustavo Gutierrez and the Indian theologian Michael Amaladoss, and gives fresh attention to their main concerns regarding evangelisation and the poor. Why, he asks, is Gutierrez's liberation theology now accepted and celebrated by the Roman Catholic Church while Amaladoss's Asian theology with a liberation thrust is threatened with censorship? Mong argues that the dwindling threat of Communism has made the Marxist overtones of Latin American liberation theology more palatable to the Catholic hierarchy, while the challenge of religious pluralism in Asia is as complex and emotive as ever. How can the Church learn to balance the need for dialogue between religions with their duty to proclaim the Gospel? How can the Church inculturate itself in Asia while maintaining its identity? Ambrose Mong tackles these questions with the shrewd, clear-eyed view of an active priest and scholar, exploring the long, troubled relationship the Church has with liberation theology and offering guidance for the future.

Yoga refers to an assortment of mental, physical, and spiritual disciplines and practices originating from India. One of the six schools of Indian philosophy, it contains a wide range of schools, practices, and goals in Buddhism, Hinduism, and Jainism. "Yoga Sastra" is an 1897 work by Indian Sanskrit and mathematics scholar Srisa Chandra Vasu (1861 - 1918) that explores the Yoga Sutras of Patanjali with special reference to Swami Vivekananda's Yoga philosophy. Contents include: "The Sankhya System", "The Great Aim of Hindu Philosophy", "Yoga Satra", "The Eight Accessories of Yoga", "Samyama", "The Characteristics of the Hindu Mind", "Examination of the Yoga Sutras", "The True Yoga Sastra", "Disbelief in Occult Powers", "Efforts to Acquire true Knowledge", "The True Bhakti Yoga", etc. This fascinating volume is not to be missed by yoga enthusiasts and those with a particular interest in vintage books on the subject. Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this volume now in an affordable, modern, high-quality edition complete with a specially-commissioned new introduction on yoga.

"Encyclopedia of World Religions" explores the major religions of the world, emphasizing the living faiths and their background. Each illustrated volume provides access to the theological concepts, personalities, historical events, institutions, and movements that helped shape the history of each religion and the way it is practiced.

Yoga Today

Index India

This volume explores aspects of yoga over a period of about 2500 years. In its first part, it investigates facets of the South Asian and Tibetan traditions of yoga, such as the evolution of posture practice, the relationship between yoga and sex, yoga in the theistic context, the influence of Buddhism on early yoga, and the encounter of Islam with classical yoga. The second part addresses aspects of modern globalised yoga and its historical formation, as for example the emergence of yoga in Viennese occultism, the integration of yoga and nature cure in modern India, the eventisation of yoga in a global setting, and the development of Patañjali's iconography. In keeping with the current trend in yoga studies, the emphasis of the volume is on the practice of yoga and its theoretical underpinnings.
