Adventure Group Psychotherapy: An Experiential Approach to Treatment explores what is necessary for an experiential therapy group to function effectively, and the practical skills needed to inspire success. The authors describe how to use activities in a manner that produces the greatest opportunity for clients to reach their goals. Issues such as how to actively assess client functioning in the group, how to select the appropriate activity, how to shape an effective environment, and how to help clients process their experience are a few of the aspects examined to help clients move toward their goals. The practical skills the authors describe enable readers to immediately learn and apply their practice with groups. This book will be an important tool in any group therapy class, in practice settings to train practitioners, and for any clinician trying to expand their group work capabilities.

The Power

Even while living the life of a charismatic public figure, talk show host and actor-writer Brian Copeland (Not a Genuine Black Man) struggles with debilitating bouts of depression. He's taken those struggles and channeled them into The Waiting Period, a powerful memoir chronicling the 10 days he spent waiting for the permit to get the gun he needed to kill himself. With intense honesty and unrelenting humor ("How much would be appropriate to spend on the gun?"), Copeland shares his insider's perspective on the deepest wells of depression. He concludes his story with interviews of others suffering from depression, showcasing the universal nature of the experience.

Hijuelos' novel tells the story of Mr. Ives, who was adopted from a foundling's home as a child. When we first meet him in the 1950s, Mr. Ives is very much a product of his time. He has a successful career in advertising, a wife and two children, and believes he is on his way to pursuing the typical American dream. But the dream is shattered when his son Robert, who is studying for the priesthood, is killed violently at Christmas. Overwhelmed by grief and threatened by a loss of faith in humankind, Mr. Ives begins to question the very foundations of his life. Part love story--of a man for his wife, for his children, for God--and part meditation on how a person can find spiritual peace in the midst of crisis, Mr. Ives' Christmas is a beautifully written, tender and passionate story of a man trying to put his life in perspective. In the expert hands of Oscar Hijuelos, the novel speaks eloquently to the most basic and fulfilling aspects of life for all of us.

A critique of the discourse on the Anthropocene and the creative alternatives to it to be found through the arts, sciences, and humanities. Addressing the current upswing of attention in the sciences, arts, and humanities to the new proposal that we are in a human-driven epoch called the Anthropocene, this book critically surveys that thesis and points to its limitations. It analyzes contemporary visual culture--popular science websites, remote sensing and SatNav imagery, eco-activist mobilizations, and experimental artistic projects--to consider how the term proposes more than merely a description of objective geological periodization. This book argues that the Anthropocene terminology works ideologically in support of a neoliberal financialization of nature, anthropocentric political economy, and endorsement of geoengineering as the preferred--but likely disastrous--method of approaching climate change. To democratize decisions about the world's near future, we urgently need to subject the Anthropocene thesis to critical scrutiny and develop creative alternatives in the present.

MOLLIE: BRIDE OF GEORGIA is fourth in the unprecedented 50-book AMERICAN MAIL-ORDER BRIDES series. Set in the last decade of the 19th century, MOLLIE is a story of courage and hope as a young woman, answering an advertisement for a mail-order bride, confronts an unknown and very challenging future. Years of brutal warfare have left the South with far more women than men. What, Mollie Winters worries, could be so wrong with Dr. Nicholas Avinger that he was forced to advertise for a wife? Despite her misgivings, Mollie takes a desperate leap of faith. Arriving in Atlanta with little more than a few pieces of clothing, two pairs of shoes, and the manuscript of her wildly melodramatic, romantic adventure novel, she prepares to start a new life with the attractive but irascible Dr. Avinger. A haunted man who prefers animals to people, Nick Avinger has driven away more than one assistant, as well as his latest fiancée. Mollie Winters might just fill both bills, if only he didn't want her so much. And if only he didn't fear how much he would hurt her. This unforgettable novel by the award-winning author of TERMS OF SURRENDER and TIMELAPSE is the emotional and riveting story of the healing power of love."

Baby Monkey, Private Eye

A novel in the tradition of H.P. Lovecraft Vast and Chaotic Demon Gods in dark worlds hunger to enter our Reality. Their coming will mean our extinction. What if you were forced to believe in the unbelievable? The Fabric of Reality is thin in some places. The FBI assigned Agent Garret to investigate the strange murder of an entire family in the small town of Holden. That case was just the beginning. Ian Crane lived in Holden, and he had been psychically sensitive all of his life. All Garret wished to do was to solve the case, and get the bad guys, but the Killers were faceless, and they were committing the murders as part of some insane ritual. Ian felt a darkness coming, and he knew that it would be the end of all things if they could not stop it. Garret knew that to catch a killer, you have to think like a killer, but nothing about the motivations for the crimes made any human sense, and strange things were starting to happen everywhere. Ian felt a vast mind coming closer, and he knew that the closer it came, the more the world would change. Garret did not believe in the supernatural, but the world was changing around him in dark and twisted ways. He knew that the Killers believed in a coming dark god. Could he hold onto his humanity in the inhuman world they were bringing? Somehow, Garret, Ian, and four of their friends must find a way to defeat the coming Shadow and its disciples, before our fragile world was transformed into an alien hell.

A Layman's Guide to the Liturgy of the Hours

At a time of unprecedented national power, why do so many Americans believe that our nationhood is fragile and precarious? Why the talk--among politicians, academics, and jurists--of "coups d'etat," of culture wars, of confederation, of constitutional breakdown? In this wide-ranging book, Robert Nagel proposes a surprising answer: that anxiety about national unity is caused by centralization itself. Moreover, he proposes that this anxiety has dangerous cultural consequences that are, in an implosive cycle, pushing the country toward ever greater centralization. Carefully examining recent landmark Supreme Court cases that protect states' rights, Nagel argues that the federal judiciary is not leading and is not likely to lead a revival of the complex system called federalism. A robust version of federalism requires appreciation for political conflict and respect for disagreement about constitutional meaning, both values that are deeply antithetical to the Court's function. That so many believe this most centralized of our Nation's institutions is protecting, even overprotecting, state power is itself a sign of the depletion of those understandings necessary to sustain the federal system. Instead of a support for federalism, Nagel finds a commitment to radical nationalism throughout the constitutional law establishment. He traces this commitment to traditionally American traits like perfectionism, optimism, individualism, and legalism. Under modern conditions of centralization, these attractive traits are leading to unattractive social consequences, including tolerance, fearfulness, utopianism, and deceptiveness. They are degrading our political discourse. All this encourages further centralization and further cultural deterioration. This book puts the major federalism decisions within the framework of the Court's overall record, including its record on individual rights in areas like abortion, homosexuality,

and school desegregation. And, giving special attention to public debate over privacy and impeachment, it places modern constitutional law in the context of political discourse more generally.

Militarism and International Relations

This book examines contemporary militarism in international politics, employing a variety of different theoretical viewpoints and international case studies. Militarism - understood as the social and international relations of the preparation for, and conduct of, organized political violence - is an abiding and defining characteristic of world politics. Yet despite the ongoing social, political and economic reach of military institutions, practices and values, the concept and subject of militarism has not received significant attention within recent debates in International Relations. This book intends to fill the gap in the current body of literature. It has two key overarching aims: to make the case for a renewed research agenda for IR centred on the concept of militarism; and to provide a series of empirically focused and theoretically informed case studies of contemporary militarism in practice. Containing a wide-ranging selection of chapters, the volume presents a diverse and eclectic body of research on militarism, designed to act as a stimulus to further research and debate. This book will be of much interest to students of military studies, war and conflict studies, international political economy and IR/security studies in general.

Combining the theological methods of Juan Luis Segundo and James H. Cone, Harry Singleton sheds new light on the impact of race on the origin and development of theology in America. In Black Theology and Ideology Singleton appropriates Segundo's method of deideologization to argue that relevant theological reflection must expose religio-political ideologies that justify human oppression in the name of God as a distortion of the gospel and counter them with new theological

presuppositions rooted in liberation. Singleton then contextualizes Segundo's method by offering the theology of James Cone as the most viable example of such a theological perspective in America. Chapters are "The Black Experience and the Emergence of Ideological Suspicion," "The Western Intellectual Tradition and Ideological Suspicion," "Hermeneutical Methodology and the Emergence of Exegetical Suspicion," "A New Hermeneutic," and "The Case for Indigenous Deideologization." Harry H. Singleton, III, Ph.D., is assistant professor of comparative religions and African American religion in the religion/philosophy department at Benedict College, Columbia, South Carolina. "

An up-to-date account of the interplay between optimization and machine learning, accessible to students and researchers in both communities. The interplay between optimization and machine learning is one of the most important developments in modern computational science. Optimization formulations and methods are proving to be vital in designing algorithms to extract essential knowledge from huge volumes of data. Machine learning, however, is not simply a consumer of optimization technology but a rapidly evolving field that is itself generating new optimization ideas. This book captures the state of the art of the interaction between optimization and machine learning in a way that is accessible to researchers in both fields. Optimization approaches have enjoyed prominence in machine learning because of their wide applicability and attractive theoretical properties. The increasing complexity, size, and variety of today's machine learning models call for the reassessment of existing assumptions. This book starts the process of reassessment. It describes the resurgence in novel contexts of established frameworks such as first-order methods, stochastic approximations, convex relaxations, interior-point methods, and proximal methods. It also devotes attention to newer themes such as regularized optimization, robust optimization, gradient and subgradient methods, splitting techniques, and second-order methods. Many of these techniques draw inspiration from other fields, including operations research, theoretical computer science, and subfields of optimization. The book will enrich the ongoing cross-fertilization between the machine learning community and these other fields, and within the broader optimization community.

Talent Management in Global Organizations

The former editor in chief of the Economist returns to the territory of his bestselling book *The Sun Also Sets* to lay out a fresh analysis of the growing rivalry between China, India, and Japan -- what it will mean for America, the global economy, and the twenty-first-century world. Closely intertwined by their fierce competition for influence, markets, resources, and strategic advantage, China, India, and Japan are shaping the world to come. Emmott explores the ways in which their sometimes bitter rivalry will play out over the next decade -- in business, global politics, military competition, and the environment -- and reveals the efforts of the United States to turn the situation to its advantage as these three powerful nations vie for dominance. This revised and updated edition of *Rivals* is an indispensable guide for anyone wishing to understand Asia's swiftly changing political and economic scene.

From the critically acclaimed Olaf Olafsson, an intimate yet sweeping story of a New York neurologist and the three women who change his life An overlooked pianist who finally receives fraught success after decades of disappointment. An elusive dancer whose untimely death her fiancé is desperate to untangle. A mysterious patient who is comatose after a violent accident. These are the three women who animate Olaf Olafsson's brilliantly rendered *One Station Away*. Magnus, a New York neurologist—son to one, lover to another, and doctor to a third—is the thread that binds these women's stories together as he navigates relationships defined by compromise and misunderstanding, guilt and forgiveness, and, most of all, by an obsessive attempt to communicate—to understand and to be understood, to love and to be loved. A deeply affecting family tale, a heart-rending love story that spans the globe, and a suspenseful drama at the edge of the mystery of life and death, *One Station Away* is a profoundly moving story of memory, identity, and misconnection, a novel of haunting power and lasting insight.

THE MAGIC

Abstract: This Sourcebook aims to support efforts by countries to strengthen the role of the education sector in the prevention of HIV/AIDS. It was developed in response to numerous requests for a simple forum to help countries share their practical experiences of designing and implementing programs that are targeted at school-age children. The Sourcebook seeks to fulfill this role by providing concise summaries of programs, using a standard format that highlights the main elements of the programs and makes it easier to compare the programs with each other. A Sourcebook of HIV/AIDS Prevention Programs, 2nd Edition documents 13 education based HIV/AIDS prevention programs targeting children and youth from 7 sub-Saharan African countries. It is sponsored by UNAIDS, UNICEF, UNESCO, UNFPA, DFID, USAID, Ireland Aid and the World Bank. The Sourcebook represents the work of many contributors, and was developed by the Partnership for Child Development with the World Bank.

Mr. Ives' Christmas

The Republican Alternative seeks to move beyond the mere notion of scholarly inquiry into the republic—the subject of recent rediscovery by political historians interested in Europe’s intellectual heritage—by investigating the practical similarities and differences between two early modern republics, as well as their self-images and interactions during the turbulent seventeenth and eighteenth centuries. Among the world’s most economically successful societies, Switzerland and the Netherlands laid much of the foundation for their prosperity during the early modern period discussed here. This volume attempts to clarify the special character of these two countries as they developed, including issues of religious plurality, the republican form of government, and an increasingly commercially-driven agrarian society.

Is it really possible to change my life—in ways that will last? Author Gary Jansen knows how difficult it can be to create significant, sustainable change in our lives. Sometimes we feel too overwhelmed to even start, and in other cases this self-work seems like one more burden. In his new book he offers an answer that he calls “microshifting”—small, incremental adjustments that gradually reshape our deeply rooted patterns. With a blend of masterful storytelling and dozens of practical tips, *MicroShifts* suggests simple, small changes across many aspects of our lives—everything from how we greet others to how we try to talk to God—to generate big results physically, mentally, and spiritually. If you are looking for steps to improve your life that are achievable, sustainable, and potentially life-changing, *MicroShifts* is a powerful place to begin.

“The gift of Christ in the Holy Eucharist is real and true and beautiful. In *Behold the Mystery*, Mark Hart shares this truth in clear and practical terms. Read this book and discover the life-transforming power of the Mass.” —Scott Hahn, Scripture scholar and author, *The Lamb’s Supper: The Mass as Heaven on Earth* “Anyone who loves the Mass, and even those who think Mass is boring, need to read Mark Hart's newest book, *Behold the Mystery*. Hart's clarity, humor, and faith will help all Catholics become more engaged, active participants in liturgy—and in life. And for Mark, that’s one and the same.” —Fr. Leo E. Patalinghug, priest, author, TV & radio host, and founder of www.GraceBeforeMeals.com “You already know Mark Hart as a smart, funny, Spirit-filled leader and speaker. When you read this book, you will also know him as a pastoral theologian—in the style of Pope Francis—who can make you, me, and your non-practicing Catholic neighbor fall in love with God all over again through the Mass. —Fr. Jonathan Morris, program director, The Catholic Channel, SiriusXM 129, Fox News religion analyst, and author, *God Wants You Happy As Catholics*, the Mass should be a mountaintop experience for us. Often, though, we go through the motions at Mass without an appreciation for what has really happened. Popular speaker and author Mark Hart helps Catholics move beyond the repetition and ritual to see the Mass for what it really is: a heavenly banquet, a wedding feast, in which heaven and earth meet. In his engaging style, Hart guides readers toward a deeper understanding of the Mass—its roots in the Jewish Sabbath, its sacrificial character, and its signs and symbols. As we are told to “go in peace,” he inspires us to see the Mass as a place to be nourished so that we can further Christ’s mission in the world. In the last part of the book, Hart provides pithy answers to frequently asked questions, such as “Why can’t I leave right after Communion?” or “Why did the words change?” Finally, Hart offers ten things we can do to get more out of Mass.

This book explores the implications of talent management in four practical settings across the globe. Focusing on countries in the Asia-Pacific region, Central and Eastern Europe, Latin America and within the Commonwealth of Independent States (CIS), the authors illustrate how multinational corporations (MNCs) can benefit from talent management practices and as a result, develop a strategy of organizational leadership. Offering empirical examples from each region, this book examines how economic and cultural contexts influence talent management. Talent Management in Global Organizations discusses successful cases in different cross-cultural settings, and aims to inspire companies around the world to develop and implement talent management practices effectively.
