## **Health Devices Sourcebook**

Commissioned by the General Board of Higher Education and Ministry for use in United Methodist doctrine/polity/history courses. From a Sunday school teacher's account of a typical Sunday morning to letters from presidents, from architects' opinions for and against the Akron Plan to impassioned speeches demanding full rights for African Americans, women, homosexuals, and laity in the Church, this riveting collection of documents will interest scholars, clergy, and laity alike. This Sourcebook, part of the two-volume set *The Methodist Experience in America*, contains documents from between 1760 and 1998 pertaining to the movements constitutive of American United Methodism. The editors identify over two hundred documents by date, primary agent, and central theme or important action. The documents are organized on a strictly chronological basis, by the date of the significant action in the excerpt. Charts, graphs, timelines, and graphics are also included. The Sourcebook has been constructed to be used with the Narrative volume in which the interpretation of individual documents, discussions of context, details about events and individuals, and treatment of the larger developments can be found.
