There is renewed interest in the Moon in recent years, with the news that a Chinese lunar rover landed on the Moon in January 2014, and NASA announcing that it is looking for private partners to land a robot on the Moon's surface, as the first step in a programme to exploit the commercial opportunities offered by the Moon. Recent lunar expeditions by both orbiting spacecraft and 'landers' have uncovered far more detail about the Moon's surface and geology, including the trail of Neil Armstrong's first walk on the Moon in 1969. This manual explains in simple and straightforward terms, with a wealth of illustrations and photographs, what we have discovered about the Moon over the centuries, along with a general overview of the vehicles involved in the exploration.

Ranger began in the 1870s near a Texas Ranger camp in northeastern Eastland County. It remained a farming community of about 700 people until October 17, 1917, when an oil well on the McCleskey farm, south of town, ushered in one of the best-known oil discoveries. Within months, Ranger's population had surged to approximately 30,000, including investors, speculators, wildcatters, oil field workers, curious onlookers, and the usual criminal element attracted to oil boomtowns. Crime became so rampant that the Texas Rangers eventually were called in to intercede. Oil production peaked in 1919 before tapering off. Images of America: Ranger covers a period of about 75 years from the town's beginnings to 1950.

This book will provide for the first time a comprehensive manual on how NASA works and operates its programmes, opening the door to the general reader, and the visitor to NASA facilities, a directory of information on what to find, what to see and how it all fits together. This book avoids the detail on specific programmes and projects – these are already adequately covered in dedicated Haynes Workshop Manuals. Instead, it focuses on what exists at the various facilities across the United States and the technical parameters of their equipment and laboratory assets.

Norton Motorcycles Factory Workshop Manual 1957-1970

The Ford Bronco is a sport utility vehicle that was produced from 1966 to 1996, with five distinct generations. The Bronco permanently entered American popular culture on June 17, 1994, when a white 1992 model owned and driven by Al Cowlings with O. J. Simpson, who was wanted for the murders of his ex-wife and her friend, attempted to elude the Los Angeles Police Department in a low-speed chase, which was nationally televised and viewed by millions nationwide. This is complete story from conception through discontinuation in 1996, told by historian (and well-known "Ford guy") Paul McLaughlin utilizing his large collection of photographs, brochures, ads and other promotional material. Follow the Bronco's various incarnations from a small sport utility vehicle of the 1960s and 1970s into the larger full-size Bronco of the 1980s and 1990s, special models like the "Bill Stroppe Edition", "Eddie Bauer Specials", the Bronco II and other juicy tidbits like the Bronco concept vehicle that Ford took on the car show circuit in 2005 (which got Bronco enthusiasts so excited that Ford was going to add a Bronco vehicle to their lineup once again). Also covered are the Broncos that were raced in off-road desert racing, Bronco toys and other collectibles, specification sheets, production numbers, and other interesting facts. Finally, a book for all Bronco enthusiasts!

When Gail McWilliams lost her sight, she began to see clearly for the first time in her life. "You will see blindness in your lifetime," the eye specialist told Gail when she was twenty-one years old. She would have no warning. The storm in her eyes was coming, but no one knew when. And her wedding day was only three weeks away. Would her hope of marriage and children be destroyed? Would she lose her independence and career? The prospects were terrifying. On Christmas Eve Gail's vision was 20/20. On Christmas morning she was completely blind. Her world had gone from beautiful light to pitch black while she slept. Seeing Beyond is the astonishing true story of Gail's journey into shadowy darkness. It's a touching story of total blindness and perfect vision, a powerful story of engulfing fear and freeing faith, and an inspirational story of crushing personal loss and great spiritual gain. Some people see life a lot more clearly than others, and my friend Gail McWilliams is one of those 'seers' I love listening to. Gail (has) extraordinary insight into the way things are, and the way things should be. -Joni Eareckson Tada, Best-Selling Author/Radio Host You will weep with Gail as her life is turned upside down and she sinks into despair and depression. And you will celebrate with her as she learns truly to depend on God, who guides her to amazing success as an author, singer, and international speaker. As Gail says, "When you choose to look past the horizon, the sky is the limit!" Join Gail on this eye-opening venture of seeing beyond your worst nightmare to the divine dream God has waiting for you. It's the adventure of a lifetime--an adventure you don't want to miss!
