Vivid colors and striking stripes make these afghans top choice. On the cover, Vibrance is highlighted with rows of Loop Stitch in variegated yarn. Aztec Sun forms a 60" diameter radiating star. Fantasy Garden adds drama with looping Front Post Clusters, and Royal Bargello's ripples have a lacy flair. Little Book format has 4 ripple pattern afghans to crochet in worsted weight yarns: Vibrance, Aztec Sun, Fantasy Garden, and Royal Bargello.

Statistical Abstract of the United States 2006: The National Data Book

"This book of reprinted articles from the journal "L'Année Psychologique" as a whole constitutes a complete history and exposition of the Measuring Scale as Binet left it. In Chapter I the authors show the origin of the Scale and their first methods of attacking the problem. Chapter II describes the first results--a series of test questions arranged in order of difficulty but not yet assigned to definite years. An immense amount of work had been done on this series, and the authors may have been justly proud of what they had accomplished, though it was soon to be largely discarded for a much more useful plan. This was the so called "1905 Tests." Chapter III shows the laborious and painstaking methods of standardization. Nowhere does Binet more clearly show his genius. It is here that he has taught us the method which must be used in all extensions or revisions of the Scale, that lay any claim to scientific value. In Chapter IV he gives us the Measuring Scale for Intelligence--the so called 1908 Scale. It is the most complete statement of the Scale. Chapter V gives some of his later 1911 corrections and revisions--his last word on the subject. In making up this book we have attempted to include everything Binet and Simon wrote explanatory of the Scale. The reader will find many repetitions and some contradictions, and the date of each article should be taken into account in deciding which is the authoritative statement. It has been

thought best to include all of these repetitions and contradictions, in order to show the development of Binet's own thought in regard to his Scale. Only in this way does the marvelous work that he did on this subject become fully appreciated"--Introduction. (PsycINFO Database Record (c) 2006 APA, all rights reserved)

assignment problems from their conceptual beginnings through present-day theoretical, algorithmic and practical developments. The topics covered include bipartite matching algorithms, linear assignment problems, quadratic assignment problems, multi-index assignment problems and many variations of these. Researchers will benefit from the detailed exposition of theory and algorithms related to assignment problems, including the basic linear sum assignment problem and its variations. Practitioners will learn about practical applications of the methods, the performance of exact and heuristic algorithms, and software options. This book also can serve as a text for advanced courses in areas related to discrete mathematics and combinatorial optimisation. The revised reprint provides details on a recent discovery related to one of Jacobi's results, new material on inverse assignment problems and quadratic assignment problems, and an updated bibliography.

Exotic Betting at the Racetrack is unique as it covers the efficient-inefficient strategy to price and find profitable racetrack bets, along with handicapping that provides actual bets made by the author on essentially all of the major wagers offered at US racetracks. The book starts with efficiency, accuracy of the win odds, arbitrage, and optimal betting strategies. Examples and actual bets are shown for various wagers including win, place and show, exacta, quinella, double, trifecta, superfecta, Pick 3, 4 and 6 and rainbow pick 5 and 6. There are discussions of major races including the Breeders' Cup, Pegasus, Dubai World Cup and the US Triple Crown from 2012-2018. Dosage analysis is also described and used. An additional feature concerns great horses such as the great mares Rachel Alexandra, Zenyatta, Goldikova, Treve, Beholder and Song Bird. There is a discussion of horse ownership and a tour through arguably the world's top trainer

Frederico Tesio and his stables and horses in Italy.
