fascinating world of Salt Lake City escort services now returns to New York, where a young woman becomes inexplicably drawn to an accused murderer from her hometown. Grace — a single, early-thirties copy editor — drinks alone in the same bar every night and observes New York City life from the sidelines. But when a local coed is found dead, and a college student from Grace's hometown is arrested for the murder, something within her stirs. Though the media has portrayed the boy, Charles, as a spoiled rich kid who killed as revenge for a rebuffed sexual advance, Grace senses deeper layers and complications to the story. Consumed by discovering the truth behind his crime, Grace strikes up an unlikely friendship with the accused killer, becoming more and more obsessed with the case. Barely sleeping and slipping further behind at work, she inadvertently dredges up some dark parts of her own childhood, including the death of her younger sister 25 years earlier. And when Grace returns to her childhood home in Ohio, she intends to chase the mystery behind Charles's crime, but finds the mystery she is chasing is actually her own.

882-1/2 Amazing Answers to Your Questions about the Titanic

The National Fire Protection Association (NFPA) and International Association of Fire Chiefs (IAFC) are pleased to bring you Fundamentals of Technical Rescue. Beginning with an introduction to technical rescue and progressing through discussions of tools and equipment, incident management, and conducting search operations, this text will introduce rescue organizations and their members to all aspects of the rescue process and the various environments in which they may be responding. Fundamentals of Technical Rescue includes coverage of the awareness level requirements found in the 2009 Edition of NFPA 1670, Standard on Operations and Training for Technical Search and Rescue Incidents, as well as some of the general job performance requirements found in the 2008 Edition of NFPA 1006, Standard for Technical Rescuer Professional Qualifications. Fundamentals of Technical Rescue presents in-depth coverage of structural collapse, confined space and trench rescue, vehicle rescue, and water and wilderness rescue, allowing rescue organizations to approach any rescue situation safely and confidently.

the anchoring systems most popular among climbers. Most climbers today learn their craft on artificial climbing walls and on sport routes with fixed protection. Their first efforts to lead on trad routes often come as a rude shock--they find that they haven't the skills and training to safeguard the climb or to set up solid belays. This new edition of *Climbing Anchors* is the climber's complete and authoritative source of information on protection, from fundamental knots to sophisticated rigging and equalizing skills.

Enables workplace responders to prepare for and respond to falls from height How do you rescue someone suspended in midair or trapped above ground? Author Loui McCurley, an expert in technical rope rescue with more than twenty-five years of experience, has the answers. Following her tested and proven advice, readers will learn how to prepare for and safely rescue "at-height" workers and others from "falls from height." The book fully bridges the gap between planning and execution, steering readers toward simple workplace-specific solutions. Moreover, it explains how to develop and implement a comprehensive protection program, enabling all organizations and their employees to fully prepare themselves to respond to a fall from height. Falls from

Height is divided into four parts: Part I: Regulatory Considerations, Rescue Plans, and Developing a Rescue Capability underscores the need for a rescue program, explaining how to fully leverage available resources to optimize the program. Part II: Equipment, Systems, and Skills details the skills that all rescuers should have and the equipment they need to perform a rescue at height. Part III: Putting It All Together discusses principles of rigging, single-rescuer methods, and group-rescuer methods. Part IV: Successful Workplace Planning examines the unique challenges of different workplace environments and then offers a step-by-step guide for implementing the book's recommendations. Based on the premise that a fallen worker must be rescued quickly and efficiently, without putting others in harm's way, *Falls from Height* is a must for all workplace responders, enabling them to prepare for and respond to fall victims like experienced rescuers.

An astonishing story that puts a human face on the ongoing debate about immigration reform in the United States, now updated with a new Epilogue and Afterword, photos of Enrique and his family, an author interview, and more—the definitive edition of a classic of contemporary America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. Enrique’s Journey recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States. Braving unimaginable peril, often clinging to the sides and tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: “This is a twenty-first-century Odyssey. If you are going to read only one nonfiction book this year, it has to be this one.” Praise for Enrique’s Journey

Including two new chapters on Alex Honnold’s free solo ascent of the iconic 3,000-foot El Capitan in Yosemite National Park. On June 3rd, 2017, Alex Honnold became the first person to free solo Yosemite’s El Capitan—to scale the wall without rope, a partner, or any protective gear—completing what was described as “the greatest feat of pure rock climbing in the history of the sport” (National Geographic) and “one of the great athletic feats of any kind, ever” (New York Times). Already one of the most famous adventure athletes in the world, Honnold has now been hailed as “the greatest climber of all time” (Vertical magazine). *Alone on the Wall* recounts the most astonishing achievements of Honnold’s extraordinary life and career, brimming with lessons on living fearlessly, taking risks, and

maintaining focus even in the face of extreme danger. Now Honnold tells, for the first time and in his own words, the story of his 3 hours and 56 minutes on the sheer face of El Cap, which Outside called "the moon landing of free soloing...a generation-defining climb. Bad ass and beyond words...one of the pinnacle sporting moments of all time."

the wreck; the movie. 882 1/2 Amazing Answers to Your Questions About the Titanic is packed with all of the intriguing details and fascinating facts that tell the true story. It puts myths to rest and confirms the truth. Was the Titanic really unsinkable? Were third-class passengers locked down below? Were there enough lifeboats? Was there a Jack Dawson? Did the Heart of the Ocean diamond really exist? Was there a murderer aboard the ship? It tells of the small tragedies for some survivors. Deceased violinist Jock Hume's family received a bill for \$3.50 for the cost of his uniform. A baby was kidnapped on board the rescue ship, the Carpathia, by a woman who had lost her child. Jack Thayer, who never got over the death of his son in the water, took his own life thirty years after the sinking. Illustrated with dozens of accurate paintings, diagrams and rare photographs, the book's special features include the making of James Cameron's movie Titanic, a true-or-false quiz and the real-life stories of the young people who sailed on the fateful voyage. 882 1/2 Amazing Answers to Your Questions About the Titanic is a must-have purchase for all Titanic enthusiasts.
