A Reese's Book Club YA Pick A powerful, #ownvoices contemporary YA for fans of The Poet X and I Am Not Your Perfect Mexican Daughter set in Argentina, about a rising soccer star who must put everything on the line—even her blooming love story—to follow her dreams. In Rosario, Argentina, Camila Hassan lives a double

life. At home, she is a careful daughter, living within her mother's narrow expectations, in her rising-soccer-star brother's shadow, and under the abusive rule of her short-tempered father. On the field, she is La Furia, a powerhouse of skill and talent. When her team qualifies for the South American tournament, Camila gets the chance to see just how far those talents can take her. In her wildest dreams, she'd get an athletic scholarship to a North American university. But the path ahead isn't easy. Her parents don't know about her passion. They wouldn't allow a girl to play fútbol—and she needs their permission to go any farther. And the boy she once loved is back in town. Since he left, Diego has become an international star, playing in Italy for the renowned team Juventus. Camila doesn't have time to be distracted by her feelings for him. Things aren't the same as when he left: she has her own passions and ambitions now, and La Furia cannot be denied. As her life becomes more complicated, Camila is forced to face her secrets and make her way in a world with no place for the dreams and ambition of a girl like her. Filled with authentic details and the textures of day-to-day life in Argentina, heart-soaring romance, and breathless action on the pitch, Furia is the story of a girl's journey to make her life her own.

### **180 Days of Language for Third Grade**

Narrator Gladys Cailiff is eleven years old in 1938 when a worldly schoolteacher turns the small town of Threestep, Georgia, upside down. Miss Grace Spivey defies the traditional curriculum and racial boundaries alike, regaling her charges with readings from the Thousand Nights and a Night and casting a gifted African American student as "chief engineer" of the town's annual festival, newly reinvented as the Baghdad Bazaar. But her progressive actions are not without consequence and ultimately culminate in a night of death-defying stories that take readers on a magic carpet ride from a schoolroom in the South to the banks of the Tigris (and back again).

### **Reading Practice**

“Indelible and extraordinary.”—Tara Westover, author of *Educated: A Memoir*, *New York Times Book Review* The best-selling author of *How Children Succeed* returns with a powerful, mind-changing inquiry into higher education in the United States Does college still work? Is the system designed just to protect the privileged and leave everyone else behind? Or can a college education today provide real opportunity to young Americans seeking to improve their station in life? *The Years That Matter Most* tells the stories of students trying to find their way, with hope, joy, and frustration, through the application process and into college. Drawing on new research, the book reveals how the landscape of higher education has shifted in recent decades and exposes the hidden truths of how the system works and whom it works for. And it introduces us to the people who really make higher education go: admissions directors trying to balance the class and balance the budget, College Board officials scrambling to defend the SAT in the face of mounting evidence that it favors the wealthy, researchers working to unlock the mysteries of the college-student brain, and educators trying to transform potential dropouts into successful graduates. With insight, humor, and passion, Paul Tough takes readers on a journey from Ivy League seminar rooms to community college welding shops, from giant public flagship universities to tiny experimental storefront colleges. Whether you are facing your own decision about college or simply care about the American promise of social mobility, *The Years That Matter Most* will change the way you think—not just about higher education, but about the nation itself.

SAT prep can be very easy or very difficult. It all depends on how you prepare. Many students make the mistake of spending countless hours preparing for the SAT with little to no results. This guide was written by Dr. Steve Warner, a math professor and test prep expert that has been giving SAT math prep advice for over 15 years. After reading this book you will learn - how to prepare for SAT math with only 10 to 20 minutes of daily studying, - the best way to take the test, - how to avoid careless errors, - and much more Note that this SAT prep book is meant to teach effective, time-efficient preparation. This book does not contain SAT problem sets or practice tests. For SAT workbooks and lessons take a look at other books from Dr. Warner's "Get 800" collection such as the "28 SAT Math Lessons" series, or "320 SAT Math Problems."
