## **The Virginia Quarterly Review**

"A powerful meditation on grief and the radiating effects of violence against women. "Because it is easier to miss a stranger / with your mother's name," Allison Benis White instead writes about five women named Wendy as a way into the complex grief that still lingers after the death of a sixth Wendy, the author's long-absent mother. A series of epistolary poems addressed to Wendy O. Williams becomes an occasion for the speaker to eulogize as well as reflect on the singer's life and eventual suicide: "What kind of love is death, I'm asking?" In the section devoted to Wendy Torrance, the fictional wife from *The Shining* who was bludgeoned to death by her husband, the speaker muses on the inadequacy of language to resolve or even contain grief in the wake of trauma: "A book is a coffin. Hoarsely. A white sheet draped over the cage of screaming." Ultimately, *The Wendys* is a book of silences and space in which tenderness and violence exist in exquisite tension. "If to speak is to die," Benis White writes in "Ignis Fatuus," "I will whisper.""

A sumptuous collection of illusory verse by poets from various centuries is comprised of pieces inspired by other forms of art, from da Vinci's Mona Lisa to Monet's Water Lilies, in an anthology that includes such entries as John Keat's "Ode on a Grecian Urn" and W. H. Auden's "Musée de Beaux Arts." By the award-winning poet and editor of *The Great Cat*.

## **An Autobiography**

Poetry. This debut collection of poems both fascinated with and distracted by our impending endings and leave-takings, the loneliness of animals, and "how the histories of things eat." These poems populate empty parking lots and seaside pawnshops and depart from a port at Deadhorse, Alaska. A narwhal gives cryptic advice to those requiring guidance on eulogies, arctic travel, and extracting minerals from ghosts. Allison Titus presents us with quiet meditations on how absence often remains fixed as longing, a red thread knotted at the wrist.

This book attempts the world again and again, only to find that even the most ridiculous of creations contains the seeds of its own destruction.

In Trash Animals, a diverse group of environmental writers explore the natural history of wildlife species deemed filthy, invasive, or worthless, highlighting the vexed relationship humans have with such creatures. Each essay focuses on a so-called trash species—gulls, coyotes, carp, and magpies, among others—examining the biology and behavior of each in contrast to the assumptions widely held about them.

Finalist for the 2017 Pulitzer Prize in General Nonfiction An extraordinary narrative history of autism: the riveting story of parents fighting for their children 's civil rights; of doctors struggling to define autism; of ingenuity, self-advocacy, and profound social change Nearly seventy-five years ago, Donald Triplett of Forest, Mississippi, became the first child diagnosed with autism. Beginning with his family's odyssey, *In a Different Key* tells the extraordinary story of this often misunderstood condition, and of the civil rights battles waged by the families of those who have it. Unfolding over decades, it is a beautifully rendered history of ordinary people determined to secure a place in the world for those with autism—by liberating children from dank institutions, campaigning for their right to go to school, challenging expert opinion on what it means to have autism, and persuading society to accept those who are different. It is the story of women like Ruth Sullivan, who rebelled against a medical establishment that blamed cold and rejecting “refrigerator mothers” for causing autism; and of fathers who pushed scientists to dig harder for treatments. Many others played starring roles too: doctors like Leo Kanner, who pioneered our understanding of autism; lawyers like Tom Gilhool, who took the families' battle for education to the courtroom; scientists who sparred over how to treat autism; and those with autism, like Temple Grandin, Alex Plank, and Ari Ne'eman, who explained their inner worlds and championed the philosophy of neurodiversity. This is also a story of fierce controversies—from the question of whether there is truly an autism “epidemic,” and whether vaccines played a part in it; to scandals involving “facilitated

communication," one of many treatments that have proved to be blind alleys; to stark disagreements about whether scientists should pursue a cure for autism. There are dark turns too: we learn about experimenters feeding LSD to children with autism, or shocking them with electricity to change their behavior; and the authors reveal compelling evidence that Hans Asperger, discoverer of the syndrome named after him, participated in the Nazi program that consigned disabled children to death. By turns intimate and panoramic, *In a Different Key* takes us on a journey from an era when families were shamed and children were condemned to institutions to one in which a cadre of people with autism push not simply for inclusion, but for a new understanding of autism: as difference rather than disability.

Award-winning poet Nick Flynn takes readers into the dangerous and irresistible center of the hive I sit in a body & think of a body, I picture Burnens' hands, my words make them move. I say, plunge them into the hive, & his hands go in.-from "Blind Huber" Blindness does not deter François Huber-the eighteenth-century beekeeper-in his quest to learn about bees through their behavior. Through an odd, but productive arrangement, Huber's assistant Burnens becomes his eyes, his narrator as he goes about his work. In Nick Flynn's extraordinary new collection, Huber and Burnens speak and so do the bees. The strongest virgin waits silently to

kill the other virgins; drones are "made of waiting"; the swarm attempts to protect the queen. It is a cruel existence. Everyone sacrifices for the sweet honey, except the human hand that harvests it all in a single afternoon. Blind Huber is about the body, love, and devotion and also about the limits of what can be known and what will forever be unknown. Nick Flynn's bees and keepers-sometimes in a state of magnificent pollen-drunk dizziness-view the world from a striking and daring perspective.

Poetry. "An oblique conversation with Degas reigns throughout this collection of oddly heartbreaking pieces. Against the backdrop of his paintings and sketches, we find ourselves in an intimate world, coherent but uncanny, where private memory becomes inseparable from the culture we hold in common, and all of it just barely cracked open, riven by interstices through which we glimpse the vivid but unsayable. White has given us a truly exceptional first collection, deeply musical and intricately haunting"—Cole Swensen.

two souls—a boy with dreams for his future and a woman escaping her haunted past—both seeking love, hope, and forgiveness. Look for special features inside. Join the Random House Reader’s Circle for author chats and more. Twelve-year-old William Eng, a Chinese American boy, has lived at Seattle’s Sacred Heart Orphanage ever since his mother’s listless body was carried away from their small apartment five years ago. On his birthday—or rather, the day the nuns designate as his birthday—William and the other orphans are taken to the historical Moore Theatre, where William glimpses an actress on the silver screen who goes by the name of Willow Frost. Struck by her features, William is convinced that the movie star is his mother, Liu Song. Determined to find Willow and prove that his mother is still alive, William escapes from Sacred Heart with his friend Charlotte. The pair navigate the streets of Seattle, where they must not only survive but confront the mysteries of William’s past and his connection to the exotic film star. The story of Willow Frost, however, is far more complicated than the Hollywood fantasy William sees onscreen. Shifting between the Great Depression and the 1920s, *Songs of Willow Frost* takes readers on an emotional journey of discovery. Jamie Ford’s sweeping novel will resonate with anyone who has ever longed for the comforts of family and a place to call home. Many of us want to learn “how to draw.” But as artist Anthony Ryder explains, it’s  
much more important to learn what to draw. In other words, to observe and draw  
what we actually see, rather than what we think we see. When it comes to drawing  
the human figure, this means letting go of learned ideas and expectation of what

the figure should look like. It means carefully observing the interplay of form and light, shape and line, that combine to create the actual appearance of human form. In *The Artist's Complete Guide to Figure Drawing*, amateur and experienced artists alike are guided toward this new way of seeing and drawing the figure with a three-step drawing method. The book's progressive course starts with the block-in, an exercise in seeing and establishing the figure's shape. It then build to the contour, a refined line drawing that represents the figure's silhouette. The last step is tonal work on the inside of the contour, when light and shadow are shaped to create the illusion of form. Separate chapters explore topics critical to the method: gesture, which expresses a sense of living energy to the figure; light, which largely determines how we see the model; and form, which conveys the figure's volume and mass. Examples, step-by-steps, and special "tips" offer helpful hints and practical guidance throughout. Lavishly illustrated with the author's stunning artwork, *The Artist's Complete Guide to Figure Drawing* combines solid instruction with thoughtful meditations on the art of drawing, to both instruct and inspire artists of all levels.

This book provides a comprehensive overview of the process of building healthy early social and emotional relationships with infants from a developmental perspective. The book synthesizes current research on the contextual influences of attachment, family relationships, and caregiving practices on social-emotional development. Chapters examine the processes of socioemotional development—particularly in relationships with parents, other family members, and peers—and identify areas for promoting healthy attachments and resilience, improving caregiving skills, and intervening in traumatic and stressful situations. Chapters also present empirically-supported intervention and prevention programs focused on building early relationships from birth through three years of age. The book concludes with future directions for supporting infant mental health and its vital importance as a component of research, clinical and educational practice, and child and family policy. Topics featured in this book include: The effect of prenatal and neonatal attachment on social and emotional development. The impact of primary relationships and early experiences in toddlerhood. Toddler autonomy and peer awareness in the context of families and child care. Supporting early social and emotional relationships through The Legacy for Children™ Intervention. How to build early relationship programming across various cultures. Building Early Social and Emotional Relationships with Infants and Toddlers is a must-have reference for researchers, clinicians and professionals, and graduate students in the fields of infant mental health, developmental psychology, pediatrics, public health, family studies, and early childhood education.

In Diane Seuss's new collection, the notion of the still life is shattered and Rembrandt's painting is presented across the book in pieces—details that hide more than they reveal until they're assembled into a whole. With invention and irreverence, these poems escape gilded frames and overturn traditional representations of gender, class, and luxury. Instead, Seuss invites in the alienated, the washed-up, the ugly, and the freakish—the overlooked many of us who might more often stand in a Walmart parking lot than before the canvases of Pollock, O'Keeffe, and Rothko. Rendered with precision and profound empathy, this extraordinary gallery of lives in shards shows us that “our memories are local, acute, and unrelenting.”

adopted by a white couple and living in the rural American West. When Harness was fifteen years old, she questioned her adoptive father about her “real” parents. He replied that they had died in a car accident not long after she was born—except they hadn’t, as Harness would learn in a conversation with a social worker a few years later. Harness’s search for answers revolved around her need to ascertain why she was the target of racist remarks and why she seemed always to be on the outside looking in. New questions followed her through college and into her twenties when she started her own family. Meeting her biological family in her early thirties generated even more questions. In her forties Harness decided to get serious about finding answers when, conducting oral histories, she talked with other transracial adoptees. In her fifties she realized that the concept of “home” she had attributed to the reservation existed only in her imagination. Making sense of her family, the American Indian history of assimilation, and the very real—but culturally constructed—concept of race helped Harness answer the often puzzling questions of stereotypes, a sense of nonbelonging, the meaning of family, and the importance of forgiveness and self-acceptance. In the process *Bitterroot* also provides a deep and rich context in which to experience life.

This book, a contribution to general criminological theory, suggests that the key to why some societies have higher crime rates than others lies in the way different cultures go about the social process of shaming wrongdoers. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be extraordinarily powerful, efficient, and just form of social control.

classroom writing assessment as a complex system that is "more than" its interconnected elements. To explain how and why antiracist work in the writing classroom is vital to literacy learning, Inoue incorporates ideas about the white racial habitus that informs dominant discourses in the academy and other contexts. Inoue helps teachers understand the unintended racism that often occurs when teachers do not have explicit antiracist agendas in their assessments. Drawing on his own teaching and classroom inquiry, Inoue offers a heuristic for developing and critiquing writing assessment ecologies that explores seven elements of any writing assessment ecology: power, parts, purposes, people, processes, products, and places. ASAO B. INOUE is Director of University Writing and Associate Professor of Interdisciplinary Arts and Sciences at the University of Washington Tacoma. The hand is second only to language in defining the human being, and its constant presence makes it a ready reminder of our humanity, with all its privileges and obligations. In this dazzling collection, Cole Swensen explores the hand from any angle approachable by language and art. Her hope: to exhaust the hand as subject matter; her joy: the fact that she couldn't. These short poems reveal the hand from a hundred different perspectives. Incorporating sign language, drawing manuals, paintings from the 14th to the 20th century, shadow puppets, imagined histories, positions (the "hand as a boatless sail"), and professions ("the hand as window in which the panes infinitesimal"), Cole Swensen's fine hand is "that which augments" our understanding and appreciation of "this freak wing," this "wheel that comforts none" yet remains "a fruit the size and shape of the heart."

In 1918 Lucile Berkeley Buchanan Jones received her bachelor's degree from the University of Colorado, becoming its first female African American graduate (though she was not allowed to "walk" at graduation, nor is she pictured in the 1918 CU yearbook). In *Remembering Lucile*, author Polly McLean depicts the rise of the African American middle class through the historical journey of Lucile and her family from slavery in northern Virginia to life in the American West, using their personal story as a lens through which to examine the greater experience of middle-class Blacks in the early twentieth century. The first-born daughter of

emancipated slaves, Lucile refused to be defined by the racist and sexist climate of her times, settling on a career path in teaching that required great courage in the face of pernicious Jim Crow laws. Embracing her sister's dream for higher education and W. E. B. Du Bois's ideology, she placed education and intelligence at the forefront of her life, teaching in places where she could most benefit African American students. Over her 105 years she was an eyewitness to spectacular, inspiring, and tragic moments in American history, including horrific lynchings and systemic racism in housing and business opportunities, as well as the success of women's suffrage and Black-owned businesses and educational institutions. Remembering Lucile employs a unique blend of Black feminist historiography and wider discussions of race, gender, class, religion, politics, and education to illuminate major events in African American history and culture, as well as the history of the University of Colorado and its relationship to Black students and alumni, as it has evolved from institutional racism to welcoming acceptance. This extensive biography paints a vivid picture of a strong, extraordinary Black woman who witnessed an extraordinary time in America and rectifies her omission from CU's institutional history. The book fills an important gap in the literature of the history of Blacks in the Rocky Mountain region and will be of significance to anyone interested in American history.
