Electric Motor Handbook

An imaginative story of a woman caught in an alternate world—where she will need to learn the skills of magic to survive Nora Fischer's dissertation is stalled and her boyfriend is about to marry another woman. During a miserable weekend at a friend's wedding, Nora wanders off and walks through a portal into a different world where she's transformed from a drab grad student into a stunning beauty. Before long, she has a set of glamorous new friends and her romance with gorgeous, masterful Raclin is heating up. It's almost too good to be true. Then the elegant veneer shatters. Nora's new fantasy world turns darker, a fairy tale gone incredibly wrong. Making it here will take skills Nora never learned in graduate school. Her only real ally—and a reluctant one at that—is the magician Aruendiel, a grim, reclusive figure with a biting tongue and a shrouded past. And it will take her becoming Aruendiel's student—and learning magic herself—to survive. When a passage home finally opens, Nora must weigh her "real life" against the dangerous power of love and magic. For lovers of Lev Grossman's *The Magicians* series (*The Magicians* and *The Magician King*) and Deborah

Harkness's All Souls Trilogy (A Discovery of Witches and Shadow of Night).

Two previous NATO Advanced Study Institutes (ASI) on berthing and mooring of ships have been held; the

first in Lisboa, Portugal in 1965, and the second at Wallingford, England in 1973. These ASIs have contributed significantly to the understanding and development of fenders and mooring, as have works by Oil Companies International Marine Forum (1978) and PIANC (1984). Developments in ship sizes and building of new specialized terminals at very exposed locations have necessitated further advances in the combined mooring and fendering technology. Exploration and exploitation of the continental shelves have also brought about new and challenging problems, developments and solutions. Offshore activities and developments have influenced and improved knowledge about both ships and other floating structures which are berthed and/or moored under various environmental conditions. The scope of this ASI was to present recent advances in berthing and mooring of ships and mooring of floating offshore structures, focusing on models and tools available with a view towards safety and reduction of frequencies and consequences of accidents.

Awarded the Nobel Prize for Literature in 1969, Samuel Beckett's influence on 20th century fiction and drama is immeasurable. Published in conjunction with the RT (Radio Telef s ireann) Thomas Davis Lecture Series to mark the centenary of Beckett's birth, Samuel Beckett - 100 Years consists of thirteen essays by many of the foremost academics studying Beckett today. Literary luminaries such as John Banville and Anthony Cronin line up alongside philosophers Dermot Moran and Richard Kearney to delve into the psyche of the man responsible for classics such as Murphy, Krapp's Last Tape, and Waiting for Godot, while actors Barry McGovern and Rosemary Pountney describe what makes his works so theatrical. The book is a challenging and serious look at Beckett's work and its impact on literature today.

New York Times bestselling author Eric Jerome Dickey presents one of his most intimate and emotionally resonant novels—a story about marriage, infidelity, and sweet and savage revenge. She works nights. He works days. Their sex is routine. Their conversations are empty. Something’s got to give. It does, when she discovers her husband’s affair. The delicate fabric of their increasingly tenuous marriage is torn asunder—but neither is prepared for what happens next. An unforgivable betrayal is about to yield the most unexpected surprises, as a husband and wife face a challenge of trust, faith, and the staying power of love. “Dickey has developed a knack for creating characters who elicit both rage and sympathy...The nameless narrator, a routine-bound suburban Californian, learns of her husband's philandering ways. But this dame is no hapless victim of infidelity: She takes charge...Dickey taps the intimate emotions of a woman whose hurt we feel viscerally.”—Entertainment Weekly

No matter how much experience you have with JavaScript, odds are you don't fully understand the language. This concise, in-depth guide takes you inside JavaScript's this structure and object prototypes. You'll learn how they work and why they're integral to behavior delegation—a design pattern in which objects are linked, rather than cloned. Like other books in the “You Don't Know JS” series, this and Object Prototypes dives into trickier parts of the language that many JavaScript programmers simply avoid. Armed with this knowledge, you can become a true JavaScript master. With this book you will: Explore how the this binding points to objects based on how the function is called Look into the nature of JS objects and why you'd need to point to them Learn how developers use the mixin pattern to fake classes in JS Examine how JS's prototype mechanism forms links between objects Learn how to move from class/inheritance design to

behavior delegation Understand how the OLOO (objects-linked-to-other-objects) coding style naturally implements behavior delegation

S.A.E. Handbook

In the following pages some details have been given of the Catholic Missions in this country from the breach with the Apostolic See to our own times. The story of the English Catholics, or the ' Romance of the Recusants ' as it has been happily termed, during that long period of trial and proscription forms as interesting a narrative as any to be found in the pages of modern history. The downfall of the great and ancient Church in these realms after the centuries of her flourishing existence is an event which Newman, in a passage of the noblest

eloquence, has termed almost a miracle.¹ Tremendous, however, as was the overthrow, the rise of the ancient faith--kept alive here and there in the ancient halls and lowly cottages of the land-- from generations of political oppression and social ostracism, is no less a wondrous proof of ' the vivifying principle ' of the 'old religion ' and God's protecting power. When the close of the eighteenth century ushered in such momentous changes in the state of European governments and society, the wrecked remnant of the ancient Church in England had yet within her the unquenched sparks of vitality which seemed to say in encouragement to her scattered and dejected children, ' Besurgam'--'I shall arise.' With regard to the historical introduction to the present work, no attempt has been made to narrate the events which marked the commencement of the Reformation in the reigns of Henry VIII. and Edward VI. or the short-lived Catholic restoration under Queen Mary. As most writers assign the final and definite establishment of Protestantism in England to the reign of Elizabeth, it is from the first year of her accession that we propose following the rapidly declining fortunes of the ancient Church. Moreover, the subject is one which deals mainly with English Catholicism in the days of its depression, far removed from the historic splendours of the mediaeval religious polity. The author is aware that many of the remarks in the ensuing notices of missions are of a scanty and fragmentary nature. Every effort has been made to exclude error, but in a work like the present, it is well nigh impossible to prevent misstatements from appearing, considering the obscurity of much of the subject and the difficulty of obtaining reliable

information. Most publications of this nature are only perfected in the course of time, and the writer will be grateful for any corrections that may be brought to his notice. For the rest, reliance has been placed on Catholic magazines, newspapers, county histories, private memoirs and letters of the past hundred years. By means of these auxiliaries, the author trusts that he has put forward a book which will be found useful for casual reference and if this aspiration is realised he will feel that the labours of thirteen years have not been in vain. In conclusion, he begs to acknowledge his obligations to W. Simpson, Esq., Park Place, Mitcham, for the use so kindly afforded of a select and valuable library, to the Very Eev. Henry Canon Cafferata for several practical suggestions, and the Eev. J. Wilhelm, D.D., of Battle, for kindly supervising the proofs.
