Today, international investment law consists of a network of multifaceted, multilayered international treaties that, in one way or another, involve virtually every country of the world. The evolution of this network raises a host of issues regarding international investment law and policy, especially in the area of international investment disputes. The Yearbook on International Investment Law & Policy 2012-2013 monitors current developments in international investment law and policy, focusing on recent trends and issues in foreign direct investment (FDI). With contributions by leading experts in the field, this title provides timely, authoritative information on FDI that can be used by a wide audience, including practitioners, academics, researchers, and policy makers. Contributions to the Yearbook on International Investment Law & Policy 2012-2013 cover the 2012-2013 trends in international investment agreements, the Foreign Direct Investment (FDI) trends, and the challenge of investment policies for outward FDI, as well as a review of 2012 international investment law and arbitration. This

edition contains essays from the Symposium on Sustainable Development and International Investment Law: Bridging the Divide. Also included are general articles providing an analysis of arbitral tribunal practice regarding the applicable law to state contracts under the ICSID Convention in the Twenty First Century; the role of municipal laws in investment arbitration; the status of state-controlled entities under international investment law, the US and the Trans-Pacific partnership (TPP); new 2012 US Model BITs; and the Regulation of FDI in Bolivia. This volume concludes with the winning memorials from the 2012 FDI International Moot Competition.

Completely updated, the Third Edition of International Business and Trade Directories contains more than 10,000 entries, over 2,000 more than the last

edition, making this directory the most comprehensive resource of the world's business and trade directories. Industries profiled include Advertising, Biotechnology, Food & Beverage, Insurance, Printing, Sports & Recreation, Water Supply and more. Entries include content descriptions, price, publisher's name and address, web site and e-mail addresses, editorial staff and phone and fax numbers. Organized for ease-of-use by industry group, and then by region, this resource puts over 10,000 industry-specific business and trade directories at the reader's fingertips. International Business and Trade Directories contains three indexes: Geographic Index, Publisher Index and Title Index. Public, college and corporate libraries, as well as individuals and corporations seeking critical market information, will want to add this directory to their marketing collection.
