Manual of Football Officiating (18th edition, perfect bound)

A fluid, expansive new collection from a poet whose work "dazzles with [an] energetic exploration of the Puerto Rican experience in the new millennium" (NBC

News) Puerto Rican poet Vincent Toro's new collection takes the Latin American idea of an artistic social gathering (the "tertulia") and revises it for the Latinx context in the United States. In verses dense with juxtaposition, the collection examines immigration, economics, colonialism and race via the sublime imagery of music, visual art, and history. Toro draws from his own social justice work in various U.S. cities to create a kaleidoscopic vision of the connections between the personal and the political, the local and the global, in a book that both celebrates and questions the complexities of the human condition.

The Gender of Crime introduces readers to how gender shapes our understanding of every aspect of crime—from defining what crime is to governing how crime is punished. The second edition of this award-winning book maintains the accessible, reader-friendly narrative of the first edition with key updates and new material throughout, including increased focus on the intersections of race, class, gender, and sexuality in crime and punishment; more attention to LGBTQ issues; additional coverage of gender and crime on college campuses; and more. This dynamic and provocative book illustrates how gender is central to the definition, prosecution, and sentencing of crimes, that it shapes how victimization is experienced and understood, and how it structures the institutions of the criminal justice system and the experiences of workers within that system. The Gender of Crime demonstrates that crime, victimization, and crime control are never generic—they are instead produced and experienced by gendered (and raced, and classed, and sexualized) actors within contexts of social inequality. This book highlights key concepts and encourages readers to think through a range of compelling real-life examples, from school violence to corporate crime. The second edition of The Gender of Crime is essential reading for students of gender and sexuality, sociology, criminology, and criminal justice.

Golden Manual

A crane cable breaks while loading a ship in Naples, sending a container crashing to the ground and disgorging its grisly contents: the corpses of illegal workers destined for a discreet burial at sea as well as the remains of two Italian citizens

from the witness protection program. Assigned to the case is Sabrina D'Avalos, a district attorney whose father--a prominent police officer known for his zealous pursuit of organized crime--was murdered by the mafia. Young and gifted, she is driven to see her father's killers brought to justice. As she investigates the case, D'Avalos uncovers an unusual link among the dead workers, the bodies of the civilians, and her father's death: the fashion industry. As she begins to tease out a connection between all these deaths and the Camorra-run "fauxture" business, she herself becomes a target of a mafia assassin. In this psychologically taut thriller from Danish bestselling author Steffen Jacobsen, the young attorney finds that unless she is quick on her feet and utterly ruthless in her tactics, her hunt for the truth may just come at the ultimate price.
