## **Marketing Briefs: A Revision and Study Guide**

Complementing Dibb and Simkin's established reputation in their field, this text presents a punchy overview of the leading 50 themes of marketing, each concisely summarized for revision purposes or quick-learning. While appealing primarily to

students undertaking marketing exams, many practitioners will also find this 'glossary of current marketing' hard to resist. The title builds on the earlier works of Dibb and Simkin, whose Houghton Mifflin text, 'Marketing: Concepts and Strategies', is the current business school market leading text in the United Kingdom, while their Thomson Learning text, 'The Marketing Casebook: Cases and Concepts', has just been revised and is the most widely used marketing casebook. From understanding customers, branding and positioning, relationship marketing, social responsibility through to value-based marketing and one-to-one marketing, this book covers all the issues the modern marketer must address. The text itself is organized into short structured chapters, the Briefs, each including: \* Core definitions \* A bulleted key point overview \* Thorough yet concise explanation of the concept and primary issues \* Illustrative examples \* A selection of examination style case, essay and applied questions \* Recommended further reading and sources. Together these offer a rounded, concise and topical appreciation of each theme within a clear and accessible framework designed to aid revision. Also included are revision tips and 'golden rules' for tackling examinations, specimen examination papers with answer schemes, and a full glossary of key marketing terms.

This package includes both HM ClassPrep and HM Testing. It allows an instructor to access both lecture aids and testing software in one place. These components cannot be ordered separately. HM ClassPrep offers instructors everything they need to develop their lectures—PowerPoint slides with all line art from the text, Word and PDF files of the Instructor's Resource Guide and Instructor's Resource Guide for the Lab Manual, and Word files of the Test Bank. The Instructor's Resource Guide offers a transition guide, tables suggesting the approximate number of lectures to devote to each chapter, summaries of the worked examples and problems, a chapter-by-chapter outline listing those sections that are most important as well as those that may be skipped or assigned as optional, and answers to the review problems on synthesis featured in the Study Guide and Solutions Manual. The Instructor's Guide for the Lab Manual contains detailed discussions of the experiments in the laboratory manual and answers to the laboratory questions. The Test Bank includes approximately 730 multiple-choice test questions with an accompanying answer key. HM Testing by Diploma combines a flexible test-editing program with a comprehensive gradebook function for easy administration and tracking. HM Testing enables instructors to administer tests via print, network server, or the web. The database contains a wealth of questions and can produce multiple-choice, true/false, fill-in-the-blank, and essay tests. Questions can be customized based on the chapter being covered, the question format, level of difficulty, and specific topics. HM Testing provides for the utmost security in accessing both test questions and grades.
