Indian Cinema: A Very Short

Ethnographic Discourse of the Other

One film out of every five made anywhere on earth comes from India. From its beginnings under colonial rule through to the heights of Bollywood , Indian Cinema

has challenged social injustices such as caste, the oppression of Indian women, religious intolerance, rural poverty, and the pressures of life in the burgeoning cities. And yet, the Indian movie industry makes only about five percent of Hollywood's annual revenue. In this Very Short Introduction Ashish Rajadhyaksha delves into the political, social, and economic factors which, over time, have shaped Indian Cinema into a fascinating counterculture. Covering everything from silent cinema through to the digital era, Rajadhyaksha examines how the industry reflects the complexity and variety of Indian society through the dramatic changes of the 20th century, and into the beginnings of the 21st. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. This book considers the remarkable transformations that have taken place in India

since 1980, a period that began with the assassination of the formidable Prime Minister Indira Gandhi. Her death, and that of her son Rajiv seven years later, marked the end of the Nehru-Gandhi era. Although the country remains one of the few democracies in the developing world, many of the policies instigated by these earlier regimes have been swept away to make room for dramatic alterations in the political, economic and social landscape. Sumit Ganguly and Rahul Mukherji, two leading political scientists of South Asia, chart these developments with particular reference to social and political mobilization, the rise of the BJP and its challenge to Nehruvian secularism and the changes to foreign policy that, in combination with its meteoric economic development, have ensured India a significant place on the world stage.

Xingu

The Kama Sutra, is an ancient Indian Hindu text written by Vatsyayana. It is widely considered to be the standard work on human sexual behavior in Sanskrit literature. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual.

In her “keenly observed” (Star Tribune, Minneapolis) debut, Rachel Louise Snyder author of the award-winning *No Visible Bruises*, chronicles the twenty-four hours following a mass burglary in a Chicago suburb and the suspicions, secrets, and prejudices that surface in its wake. Nestled on the edge of Chicago’s gritty west side, Oak Park is a suburb in flux. To the west, theaters and shops frame posh houses designed by Frank Lloyd Wright. To the east lies a neighborhood still recovering from urban decline. In the center of the community sits Ilios Lane, a pristine cul-de-sac dotted with quiet homes that bridge the surrounding extremes of wealth and poverty. On the first warm day in April, Mary Elizabeth McPherson, a lifelong resident of Ilios Lane, skips school with her friend Sofia. As the two experiment with a heavy dose of ecstasy in Mary Elizabeth’s dining room, a series of home invasions rocks their neighborhood. At first the community is determined to band together, but rising suspicions soon threaten to destroy the world they were attempting to create. Filtered through a vibrant pinwheel of characters, Snyder’s tour de force evokes the heightened tension of a community on edge as it builds towards an explosive conclusion. Incisive and panoramic, *What We’ve Lost Is*

Nothing illuminates the evolving relationship between American cities and their suburbs, the hidden prejudices that can threaten a way of life, and the redemptive power of tolerance in a community torn asunder. “Ideas abound in this thoughtful story, a demonstration of the author’s years of experience as a community organizer. What We’ve Lost Is Nothing has the stamp of authenticity” (The Washington Post).

This book offers a glimpse of new perspectives on how philosophy performs in the gaps between thinking and acting. Bringing together perspectives from world-renowned contemporary philosophers and theorists – including Judith Butler, Alphonso Lingis, Catherine Malabou, Jon McKenzie, Martin Puchner, and Avital Ronell – this book engages with the emerging field of performance philosophy, exploring the fruitful encounters being opened across disciplines by this constantly evolving approach. Intersecting dramatic techniques with theoretical reflections, scholars from diverse geographical and institutional locations come together to trace the transfers between French theory and contemporary Anglo-American philosophical and performance practices in order to challenge conventional approaches to knowledge. Through the crossings of different voices and views, the

reader will be led to explore the in-between territories where performance meets traditionally philosophical tools and mediums, such as writing, discipline, plasticity, politics, or care.

Designed to serve as a textbook for students pursuing a BTech or BE program in civil engineering, the book aims to impart a clear understanding of the concepts of

open channel hydraulics. The book would also be useful for postgraduate students of civil engineering and practising engineers. Beginning with an introductory chapter that classifies the flow into various categories, Flow Through Open Channels describes uniform flow, gradually varied flow, and rapid varied flow in great detail. The subsequent chapters provide a comprehensive coverage of channel transitions, spartially varied flow, and unsteady flow. A simplified introductory description of important topics such as flow in mobile bed channels and pollutant transport in open channels has also been included in the text. Solved examples with emphasis on numerical or approximate methods have been liberally used to explain the practical application of concepts learnt. Practice problems provided have been designed to enable the reader to apply his/her learning to a variety of situations and to urge the reader to think beyond the matter covered in the textbook. The lucid treatment in the book encourages self study and instills working knowledge of hydraulics in a student.

The first edition of *Wisdom of the Psyche* engaged with one of the main dilemmas of contemporary psychology and psychotherapy: how to integrate findings and insights from neuroscience and medicine into an approach to healing founded upon activation of the imagination. In this revised edition, Ginette Paris re-focuses her attention on the modern lack of desire to become adult and updates the book with brand new neuroscientific research. Paris uses cogent and passionate argument, as well as stories from patients, to demonstrate that the human psyche seeks to destroy relationships and lives as well as to sustain them. She makes clear that the way out of those destructive states does not start with an upward, positive, wilful effort of the ego, but with an opening of the imagination, and aims to foster the dialogue between psychotherapists and neuroscientists. In clear and accessible language, Paris describes how depth psychology can be seen as a subject of the humanities rather than the sciences, and explains how gaining an understanding of neuroscience will not necessarily make us psychologically wiser. A unique and powerful book, *Wisdom of the Psyche* will be fascinating reading for Jungian and depth psychologists, psychotherapists, analysts and others in the helping professions, as well as students and those in training, and readers with an interest in psychology and neuroscience who want to create an inner life worth

living.

Inter Views in Performance Philosophy

This book primarily tries to bring out the analogy between the conceptual and

methodological discourses on the theme of the other. The term 'Other' here refers to the oppressed sections of the society. It may be dalits, women, indigenous or ethnic communities. Since we are living in a multicultural and multilingual society, we should share our views with others on a platform where issues of the marginalized people are addressed by different scholars following different methods and techniques. Though there are various policies and plans for the welfare of the downtrodden, hardly any change can be seen at the micro-level structure of the society. There are studies which highlighted the problems and ethos of the downtrodden sections, but a majority of those studies neglected the marginalized groups. Hence, we felt the need to highlight the issues and concerns of these groups in a wider context and started thinking on the theme 'Ethnographic Discourse of the Other: Conceptual and Methodological Issues'. This volume attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary societies in South Asia. This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology, Sociology, Linguistics, Social Work, Culture Studies, Gender Studies and Philosophy. It is widely applicable to all sections of the oppressed socially, economically, culturally, academically, politically and other wise.

“[A] raucous, offensive, and sometimes amusing CliffsNotes compilation of wars both well-known and ignored.” —Utne Reader Self-described war nerd Gary Brecher knows he’s not alone, that there’s a legion of fat, lonely Americans, stuck in stupid, paper-pushing desk jobs, who get off on reading about war because they hate their lives. But Brecher writes about war, too. War Nerd collects his most opinionated, enraging, enlightening, and entertaining pieces. Part war commentator, part angry humorist à la Bill Hicks, Brecher inveighs against pieties of all stripes—Liberian generals, Dick Cheney, U.N. peacekeepers, the neo-cons—and the massive incompetence of military powers. A provocative free thinker, he finds much to admire in the most unlikely places, and not always for the most pacifistic reasons: the Tamil Tigers, the Lebanese Hezbollah, the Danes of 1,000 years ago, and so on, across the globe and through the centuries. Crude, scatological, un-P.C., yet deeply informed, Brecher provides a radically different, completely unvarnished perspective on the nature of warfare. “Military columnist Gary Brecher’s look at contemporary war is both offensive and illuminating. His book, War Nerd . . . aims to explain why the best-equipped armies in the world continue to lose battles to peasants armed with rocks . . . Brecher’s unrefined voice adds something essential to the conversation.” —Mother Jones “It’s international news coverage with a soul and acne, not to mention a deeply contrarian point of view.” —The Millions

Foucault is one of those rare philosophers who has become a cult figure. Born in 1926 in France, over the course of his life he dabbled in drugs, politics, and the Paris SM scene, all whilst striving to understand the deep concepts of identity, knowledge, and power. From aesthetics to the penal system; from madness and civilisation to avant-garde literature, Foucault was happy to reject old models of thinking and replace them with versions that are still widely debated today. A major influence on Queer Theory and gender studies (he was openly gay and died of an AIDS-related illness in 1984), he also wrote on architecture, history, law, medicine, literature, politics and of course philosophy, and even managed a best-seller in France on a book dedicated to the history of systems of thought. Because of the complexity of his arguments, people trying to come to terms with his work have desperately sought introductory material that makes his theories clear and accessible for the beginner. Ideally suited for the Very Short Introductions series, Gary Gutting presents a comprehensive but non-systematic treatment of some highlights of Foucault's life and thought. Beginning with a brief biography to set the social and political stage, he then tackles Foucault's thoughts on literature, in

particular the avant-garde scene; his philosophical and historical work; his treatment of knowledge and power in modern society; and his thoughts on sexuality. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. The greatest run-scorer in the history of cricket, Sachin Tendulkar retired in 2013

after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th international century and the emotional final farewell that brought his country to a standstill. When a boisterous Mumbai youngster's excess energies were channelled into cricket, the result was record-breaking schoolboy batting exploits that launched the career of a cricketing phenomenon. Before long Sachin Tendulkar was the cornerstone of India's batting line-up, his every move watched by a cricket-mad nation's devoted followers. Never has a cricketer been burdened with so many expectations; never has a cricketer performed at such a high level for so long and with such style - scoring more runs and making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping the world Test rankings. Yet he has also known his fair share of frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain. Despite his celebrity status, Sachin Tendulkar has always remained a very private man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other.

My Incredible Adventures

With Unspoken Lorena Ross reveals the stories of a group of adult men and women, all survivors of childhood sexual abuse perpetrated by people who were close to them. Their ages range, as do their backgrounds - they hail from different countries: Spain, France, the United States and Mexico. Sexual abuse is prevalent and wide spread - in Western countries a quarter of women and more than ten percent of men have been sexually abused by adults before they reach the age of seventeen. Regardless of the high number of instances, speaking out about child sexual abuse remains taboo in Western societies. The shame surrounding child sexual abuse renders victims silent and revives their trauma. While the disturbing

nature of abuse has been exposed in the media, the stories tend to either sensationalize the details or simply present cold and hard statistics--and both approaches have been detrimental to efforts in breaking the silence. In Unspoken, the photographer has taken a different approach to telling the survivor's stories, an approach guided by her own experience of surviving abuse, as well as the process itself. She aims to use these stories to help bring an end to the violence and the shame. They were victims as children but now they see themselves as survivors, no longer trapped in the trauma. They shared their stories with me to encourage others to speak out and help break the taboo--a taboo that only perpetuates the original abuse. During her six year project, she became close to the people whose stories she helped to tell. With portraits and interviews, she recorded their testimonies. They shared their private world and recalled trauma from years prior. In some cases they took her to places associated with their abuse, and showed her triggers related to the traumatic event--and with a camera she captured their memories.
