The Recitation and the Art of Questioning

36 Questions That Changed My Mind About You

A unique prison narrative that testifies to the power of books to transform a young man's life At the age of sixteen, R. Dwayne Betts—a good student from a lower- middle-class family—carjacked a man with a friend. He had never held a gun before, but within a matter of minutes he had committed six felonies. In Virginia, carjacking is a "certifiable" offense, meaning that Betts would be treated as an adult under state law. A bright young kid, he served his nine-year sentence as part of the adult population in some of the worst prisons in the state. A Question of Freedom chronicles Betts's years in prison, reflecting back on his crime and looking ahead to how his experiences and the books he discovered while incarcerated would define him. Utterly alone, Betts confronts profound questions about violence, freedom, crime, race, and the justice system. Confined by cinder-block walls and barbed wire, he discovers the power of language through books, poetry, and his own pen. Above all, A Question of Freedom is about a quest for identity—one that guarantees Betts's survival in a hostile environment and that incorporates an understanding of how his own past led to the moment of his crime.

The Dynamics of Political Discourse

By 2030 there will be about 70 million people in the United States who are older than 64. Approximately 26 percent of these will be racial and ethnic minorities. Overall, the older population will be more diverse and better educated than their earlier cohorts. The range of late-life outcomes is very dramatic with old age being a significantly different experience for financially secure and well-educated people than for poor and uneducated people. The early mission of behavioral science research focused on identifying problems of older adults, such as isolation, caregiving, and dementia. Today, the field of gerontology is more interdisciplinary. When I'm 64 examines how individual and social behavior play a role in understanding diverse outcomes in old age. It also explores the implications of an aging workforce on the economy. The book recommends that the National Institute on Aging focus its research support in social, personality, and life-span psychology in four areas: motivation and behavioral change; socioemotional influences on decision-making; the influence of social engagement on cognition; and the effects of stereotypes on self and others. When I'm 64 is a useful resource for policymakers, researchers and medical professionals.

The Art of Questioning and Answering in French

You don't need to memorize evangelical formulas or answers. You just have to be willing to ask. There was something different about the way Jesus communicated with the lost: He didn't force answers upon people, He asked questions. So why don't we? Following Christ's lead, Randy Newman has been using a questioning style of evangelism for decades. In this provocative book, he provides practical insights to help Christians engage others in meaningful spiritual conversations. He challenges us to examine how we think about people, their questions, and our crucial message. This second edition includes a new preface reflecting on the popularity of this perennial best seller and what its success has taught Newman about the effectiveness of this extraordinary method. "Distilled out of over twenty years of personal evangelism, this book reflects both a deep grasp of biblical theology and a penetrating compassion for people--and finds a way forward in wise, probing questions. How very much like the Master Himself!" --D. A. Carson, Trinity Evangelical Divinity School "Questioning Evangelism steps outside the boundaries of evangelism as usual and tackles the tougher issues of our modern day." --Mitch Glaser, Chosen People Ministries

An Emmy-award-winning journalist reveals how to ask the QUESTIONS that make a difference. What hidden skill links successful people in all walks of life? What helps them make smart decisions? The answer is surprisingly simple: They know how to ask the right questions at the right time. Questions help us break down barriers, discover secrets, solve puzzles, and imagine new ways of doing things. But few of us know how to question in a methodical way. Emmy-award-winning journalist and media expert Frank Sesno aims to change that with Ask More. From questions that cement relationships, to those that help us plan for the future, each chapter in Ask More explores a different type of inquiry. By the end of the book, you'll know what to ask and when, what you should listen for, and what you can expect as the outcome. Packed with illuminating interviews, the book explains: How the Gates Foundation used strategic questions to plan its battle against malaria How turnaround expert Steve Miller uses diagnostic questions to get to the heart of a company's problems How NPR's Terry Gross uses empathy questions to dig deeper How journalist Anderson Cooper uses confrontational questions to hold people accountable How creative questions animated a couple of techie dreamers to brainstorm Uber Both intriguing and inspiring,

Ask More shows how questions convey interest, feed curiosity, and reveal answers that can change the course of both your professional and personal life.

What comes after reflective listening? What comes after the ministry of presence? Spiritual midwifery is a powerful framework for offering pastoral care in today's fast-paced environment. Midwifery offers ways of thinking about those who are served, the work itself, and what it means to be a clinical caregiver within the tradition of the care of souls. Spiritual midwifery has philosophical and spiritual roots that stem from the earliest seeds of Western thought, even back to Jesus and Socrates. Readers will find an inductive approach toward a conceptual model that offers insight for richer assessments and outcome-oriented goals of care. Part One sets out the metaphors of the midwife and the dialogue. Part Two unpacks the methodology behind the mechanics. Part Three looks at creative applications of midwifery, and is followed by a Symposium patterned after Plato's own Symposium. A rigorous theory remains at the centre of the work, but the tone is poetically balanced enough to invite the transformation of the spiritual caregiver. From the philosophy of Heraclitus to the theology of Kierkegaard and the spiritual direction of Guenther, *The Art of Spiritual Midwifery* brings forth a comprehensive conception of pastoral care and its delivery.

The Art of Cross-examination

This book is the culmination of more than 20 years of study, research, and the direct evaluation of thousands of forensic clients. The authors provide the reader with the highest caliber of professionalism and make clear that the current state of the art in deception analysis is crude to say the least. They challenge readers to closely examine their own decision processes in regard to deception. And they admit that they have no sympathy for the common complaint that proper deception analysis requires much time and effort, which can be a burden to the busy professional. They make clear that the days of administering an MMPI and a Rorschach to a client and thereby knowing everything there is to know about that person are gone forever.

New York Law Journal Digest-annotator

At the intersection of politics, law and national security--from "protect us at all costs" to "what the hell have you guys been up to, anyway?"--A lawyer's life in the CIA. Under seven presidents and 11 different CIA directors, Rizzo rose to become the CIA's most powerful career attorney. Given the agency's dangerous and secret mission, spotting and deterring possible abuses of law, offering guidance and protecting personnel from legal jeopardy was, and remains, no easy task. The author accumulated more than 30 years of war stories, and he tells most of them.

The bible for debaters and their coaches. Nearly every high school and college in America has a debate club and/or a debate team. There are hundreds of competitions at the county and state level, culminating in heated national competitions. Yet, at many high schools and colleges, coaches are drawn from the history or English departments with little or no experience in the highly structured procedures of this popular discipline. And while competitive debate has been growing each year as a prime academic activity, there have been no popular handbooks to help students and coaches prepare for contests effectively and efficiently. Practical and authoritative, this guide includes not only tips and guidelines for effective preparation and delivery, but full-length, actual transcripts of successful competitions in each format. Endorsed by the two national governing bodies for competitive debate--the National Federation of State High School Associations and the National Forensic League--and priced for the budget-conscious student and high school teacher alike, *Competitive Debate: The Official Guide* is set to become the instructional "bible" for tens of thousands of present and future debaters and their coaches. Inside, Dr. Richard Edwards--award winning debate coach, professor, former competitive debate judge, and author--leads readers through the three popular formats of competitive debate: * Policy Debate * Lincoln-Douglas Debate * Public Forum Debate

Questioning Evangelism, Second Edition

Many leaders are unaware of the amazing power of questions. Our conversations may be full of requests and demands, but all too often we are not asking for honest and informative answers, and we don't know how to listen effectively to responses. When leaders start encouraging questions from their teams, however, they begin to see amazing results. Knowing the right questions to ask—and the right way to listen—will give any leader the skills to perform well in any situation, effectively communicate a vision to the team, and achieve lasting success across the organization. Thoroughly revised and updated, *Leading with Questions* will help you encourage participation and teamwork, foster outside-the-box thinking, empower others, build relationships with customers, solve problems, and more. Michael Marquardt reveals how to determine which questions will lead to solutions to even the most challenging issues. He outlines specific techniques of active listening and follow-up, and helps you understand how questions can improve the way you work with individuals, teams, and organizations. This new edition of *Leading with Questions* draws on interviews with thirty leaders, including eight whose stories are new to this edition. These interviews tell stories from a range of countries, including Singapore, Guyana, Korea, and Switzerland, and feature case studies from prominent firms such as DuPont, Alcoa, Novartis, and Cargill. A new chapter on problem-solving will help you apply questions to your toughest situations as a leader, and a new “Questions for Reflection” section at the end of each chapter will help you bring Marquardt's message into all of your work as a leader. Now more than ever, *Leading with Questions* is the definitive guide for becoming a stronger leader by identifying—and asking—the right questions.

Encyclopedia of Legal Information Sources

Rethinking Sinclair and Coulthard's sequentiality-based notion of the follow-up, this volume explores its forms and communicative functions in traditional and contemporary modes of communication (parliamentary sessions, interviews, debates, speeches, op-eds, discussion forums and Twitter) wherein political actors address challenges to their political agenda and to their political face. In so doing, the volume achieves two major advances. First, its contributions expand the understanding of follow-ups beyond the traditional focus on structural sequentiality, considering communicative function as a defining feature of a follow-up. Second, it broadens the understanding of what constitutes political discourse, as not being

limited to a single discourse, but also being able to span multiple discourses of different forms and speech events over time.

Inspired by the real psychology study popularized by the New York Times and its "Modern Love" column, this contemporary YA is perfect for fans of Eleanor and Park. Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

The Roman Catholic Church Challenged in the Discussion of Thirty-two Questions with the Catholic Laymen's Association of Georgia

Thinking in pictures is incomparably more flexible, free flowing and encompassing than thinking in words and sentences. In other words, it is more creative. When you think with words, the thought is final, unless you use words for art. In comparison, this is how thinking with pictures happens. I bring into my mind all the details of a situation or a question. I ponder them, until a sense of a question arises. I throw this questioning feeling into the space of my being, and a picture is formed somewhere there. Now it is time to draw the picture or paint. The drawings in this book were created around the issues of who we are and how to live now so that our life is an expression of who we are. Most of what we think and do express the habitual thinking that comes from our subconscious, mostly undetected. when this tendency is watched with the naturally good natured awareness, humor is inescapable. The book was done with the intention of creating this encounter for the reader to contemplate.
