(Book). Talkin' 'Bout a Revolution is a comprehensive guide to the relationship between American music and politics. Music expert Dick Weissman opens with the dawn of American history, then moves to the book's key focus: 20th-century music songs by and about Native Americans, African-Americans, women, Spanish-speaking groups, and more. Unprecedented in its approach, the book offers a multidisciplinary discussion that is broad and diverse, and illuminates how social events impact music as well as how music impacts social events. Weissman delves deep, covering everything from current Native American music to "music of hate" racist and neo-Nazi music to the music of the Gulf wars, union songs, patriotic and antiwar songs, and beyond. A powerful tool for professors teaching classes about politics and music and a stimulating, accessible read for all kinds of appreciators, from casual music fans to social science lovers and devout music history buffs.

### **Reflections**

Dusty in Memphis, Dusty Springfield's beautiful and bizarre magnum opus, remains as fine a hybrid of pop and rhythm and blues as has ever been made. In this remarkable book, Warren Zanes explores his own love affair with the record. He digs deep into the album's Memphis roots and talks to several of the key characters who were involved in its creation; many of whom were - like Zanes - outsiders drawn to the American South and mesmerized by its hold over the imagination. EXCERPT The love that is the subject of 'Dusty in Memphis' is different from the love of her earlier songs: it is a love that is all at once diffuse, dark, unpredictable, ecstatic, and a terrible deal. It is a love too big for the lyrical (and for that matter musical) framework of Dusty's earlier pop productions, no matter the breadth of that work. Like

Memphis itself, the love that is the subject of 'Dusty in Memphis' is indeed bursting with the contrary: it happens not simply when you yearn for it, as in some adolescent dream, but when you're not prepared for it; it reveals itself not simply under the star-filled skies where a moon hangs low--in fact, as the first and last tracks on side one attest, it might be at its best when the sun's just arriving at work.
