Q&A English Legal System 2013-2014

An Historical Sketch of the Equitable Jurisdiction of the Court of Chancery

For every transnational lawyer, it is vital to know the differences between national secured transactions laws. Since the applicable law is determined by the place where the collateral is situated, it may change when movables are brought from one state to another. Introductory essays from comparative lawyers set the scene. The book then presents a survey of the law relating to secured transactions in the member states of the European Union. Following the Common Core approach, the national reports are centred around fifteen hypothetical cases dealing with the most important issues of secured transactions law, such as the creation of security rights in different business situations, the relationship between debtor and secured creditor, the nature of the creditor's rights and their enforcement as against third parties. Each case is followed by a comparative summary. A general report evaluates the possibilities of European harmonisation in the field of secured

transactions law.

Plucknett, Theodore F.T. A Concise History of the Common Law. Fifth Edition. Boston: Little, Brown and Company, 1956. Reprinted 2001 by The Lawbook Exchange, Ltd. LCCN 00-067821. ISBN 1-58477-137-2. Cloth. \$125. * "Professor Plucknett has such a solid reputation on both sides of the Atlantic that one expects from his pen only what is scholarly and accurate. Nor is the expectation likely to be disappointed in this book. Plucknett's book is not a mere epitome of what is to be found elsewhere. He has explored on his own account many regions of legal history and, even where the ground has been already quartered, he has fresh methods of mapping it. The title which he has chosen is, in view of the contents of the volume, rather a narrow one. It might equally well have been A Concise History of English Law. In conjunction with Readings on the History and System of the Common Law by Dean Pound this book will give an excellent grounding to the student of English legal history." Percy H. Winfield. Harv. L. Rev. 43:339-340.

The Administration of Civil Justice in England and Wales

In this collection of essays, leading legal historians address significant topics in the history of judges and judging, with comparisons not only between British, American and Commonwealth experience, but also with the judiciary in civil law countries. It is not the law itself, but the process of law-making in courts that is the focus of inquiry. Contributors describe and analyse aspects of judicial activity, in the widest possible legal and social contexts, across two millennia. The essays cover English common law, continental customary law and ius commune, and aspects of the common law system in the British Empire. The volume is innovative in its approach to legal history. None of the essays offer straight doctrinal exegesis; none take refuge in old-fashioned judicial biography. The volume is a selection of the best papers from the 18th British Legal History Conference.

In Christopher Moore's lively and engaging history of the Court of Appeal for Ontario, he traces the evolution of one of Canada's most influential courts from its origins as a branch of the lieutenant governor's executive council to the post-Charter years of cutting-edge jurisprudence and national influence. Discussing the issues, personalities, and politics which have shaped Ontario's highest court, The Court of Appeal for Ontario offers appreciations of key figures in Canada's legal and political history – including John Beverly Robinson, Oliver Mowat, Bora Laskin, and Bertha Wilson – and a serious examination of what the right of appeal means and how it has been interpreted by Canadians over the last two hundred years. The first comprehensive history of the Ontario Court of Appeal, Moore's book is the definitive and eminently readable account of the court that has been called everything from a bulwark against tyranny to murderer's row.

Corpus Juris

The Administration of Civil Justice in England and Wales provides information of how both criminal and civil law is administered. This book discusses the jurisdiction and composition of the country courts, civil work of the magistrates' courts, as well as of the High Court of Justice. Organized into 12 chapters, this book begins with an overview of the historical origins from which the modern courts have emerged. This text then explains the various strata of courts, namely country courts, magistrates' courts, the Court of Justice including its various divisions, and the appeal facilities that are available to litigants. Other chapters consider the different administrative tribunals and inquiries. The final chapter deals with the costs and the availability of legal aid and advice. This book is a valuable resource for readers who are interested in the administration of civil and criminal justice. Law students and newly qualified practitioners will also find this book useful.
