For the Love of a Dingo

Twelve years ago, the government told Evie that the man she loved was dead. They lied. Now she will risk everything to get him back, even if he doesn't remember her... Freelance tech Evie Contreras works for the Pacifica Protectorate, the "perfect society" that rose from the ruins of the West Coast after Civil War II. But Evie knows about Pacifica's festering core and the secrets that keep it in power. And when she discovers that Pacifica turned her fiancé Ben into a cyborg soldier/slave, she will risk everything to rescue him. Saving Ben is the first step in a deadly game between Pacifica and a shadowy resistance group known as Rubicon. In return for Rubicon's help, Evie must retrieve a hidden artificial intelligence that may hold the key to protecting Earth from a deadly new disaster. Assuming Pacifica doesn't find it—and her—first.

The Road to Oregon City

The book discusses the meaning of the Big Nails. The Big Nails are symbols of salvation and eternal life for Christians. God loves the world so much that He gave His only Begotten Son so to save us [John 3:16]. Whoever believes in the Son of God is saved, whoever rejects Him is condemned. Salvation and Eternal life are free gifts from God. We are saved by grace through faith [Ephesians 2:8-9]. The Big Nail, the cross, the spear, the spun crown and the hammer were used to crucify our Lord. The Lord Jesus Christ freely gave His life to save us [John10:18]. The Big Nails are symbols of God's amazing love for men; His power God to create, destroy and give life [John1-15-Matthew 28:19]. They are symbols of the victory of Christ over sins, death and Satan. The Lord Jesus Christ was crucified for our sins, He rose from the dead. He is Alive. He is Risen. 1On the first day of the week, very early in the morning, the women took the spices they had prepared and went to the tomb. 2They found the stone rolled away from the tomb, 3but when they entered, they did not find the body of the Lord Jesus.

4While they were wondering about this, suddenly two men in clothes that gleamed like lightning stood beside them. 5In their fright the women bowed down with their faces to the ground, but the men said to them, "Why do you look for the living among the dead? 6He is not here; he has risen! Remember how he told you, while he was still with you in Galilee: 7"The Son of Man must be delivered into the hands of sinful men, be crucified and on the third day be raised again." " 8Then they remembered his words [Luke 24:1-8]. The Big nails are symbols of forgiveness, reconciliation, free salvation and eternal life from God: 6You see, at just the right time, when we were still powerless, Christ died for the ungodly. 7Very rarely will anyone die for a righteous man, though for a good man someone might possibly dare to die.

Deadly Deceptions

This is the story of one woman's love for Dingoes and her endeavours to prove they were not the savage and sinister brute authorities portrayed them as. The stories in this book are about three of her Dingoes; Dora, Napoleon and Snowgoose. They tell how she acquired her first Dingo, eluded being arrested and her Dingo being destroyed then successfully obedience training her Dingoes. They tell how she proved the so called experts wrong about the character of the Dingo but mostly they tell of her love and dedication for the most falsely maligned of Australian native animal.

Midnight Magic

An explorer of linguistics as well as a mathematician, he often combined his love of both subjects such that the essence of his writings resides not in its "content" but in the sounds and the form of the text. He often argued that the real subject of his work is language itself. Because of this many of his novels, and especially his poems, are virtually impossible to translate into English as they are based on spoken versus literary French, puns, street slang, and complex variations of word play and spelling. Les Ziaux (Eyeseas) presents a survey of his poems as written from his early Surrealist days of the 1920's through to 1943 and is representative of Queneau's range of poetic voices."--Jacket.

Between Lust & Tears

A complete course on metric, normed, and Hilbert spaces, including many results and exercises seldom found in texts on analysis at this level. The author covers an unusually wide range of material in a clear and concise format, including elementary real analysis, Lebesgue integration on \mathbb{R} , and an introduction to functional analysis. The book begins with a fast-paced course on real analysis, followed by an introduction to the Lebesgue integral. This provides a reference for later chapters as well as a preparation for students with only the typical sequence of undergraduate calculus courses as prerequisites. Other features include a chapter introducing functional analysis, the Hahn-Banach theorem and duality, separation theorems, the Baire Category Theorem, the Open Mapping Theorem and their consequences, and unusual applications. Of special interest are the 750 exercises, many with guidelines for their solutions, applications and extensions of the main propositions and theorems, pointers to new branches of the subject, and difficult challenges for the very best students.

Helena's Voyage

"This book investigates the archaeological record for artifacts and evidence of evil entities, revealing how demons from the ancient world may be dwelling among us. It also looks at the history and lore behind real relics, believed to be haunted, and includes historical accounts of demonic possession"--

The Dangerous Diamond

Over the past decades Europe has witnessed fundamental changes of its population dynamics and population structure. Fertility has fallen below replacement level in almost all European countries, while childbearing behavior and family formation have become more diverse. Life expectancy has increased in Western Europe for both females and males, but has been declining for men in some Eastern European countries. Immigration from non-European countries has increased substantially, as has mobility within Europe. These changes pose major challenges to population studies, as conventional theoretical assumptions regarding demographic behavior and demographic development seem unfit to provide convincing explanations of the recent demographic changes. This book, derived from the symposium on "The Demography of Europe" held at the Max Planck Institute for Demographic Research in Rostock, Germany in November 2007 in honor of Professor Jan M. Hoem, brings together leading population researchers in the area of fertility, family, migration, life-expectancy, and mortality. The contributions present key issues of the new demography of Europe and discuss key research advances to understand the continent's demographic development at the turn of the 21st century.

We are living in a time of unrest for many members of the Islamic faith around the globe. Enter Muslims of the World, a book based on the popular Instagram account @MuslimsoftheWorld1. Like the account, the book's mission is to tell the diverse stories of Muslims living in the US and around the world. Illustrated throughout with moving photographs, each chapter will focus on different aspects of the Islamic faith and the many varying cultures it encompasses, offering tales of love, family, and faith while empowering Muslim women, refugees, and people of color. Whether it is telling a story about a young Syrian refugee who dreams of being a pilot or about a young girl's decision to not remove her hijab, which in turn saved her family's life, Muslims of the World aims to unite people of all cultures and faiths by sharing the hopes, trials, and tribulations of Muslims from every walk of life.
