What Were We Thinking

The goal of the book is to solve the three big problems plaguing our world: poverty, war, and environment deterioration from pollutions. The big three, besides making lives unbearable for billions, also have increasingly threatened to destroy us. Many, including the wisest and the most learned the human race has to offer, have tried and only to fail. The reason is simple: they just dont know what the reasons behind the problems are. This book, The Quest of an Unlikely Fixer, has through biophysics, clearly identified that the selfish nature of living organisms is the only reason. Selfishness always leads to hurtful behaviors; that is one of the reasons. The other reason is our godlike power. But we sadly dont have the right morality to guide this power. The solution to human selfishness and our godlike power is by a correct, new golden-rule-based morality, which allows us to come up with two moral principles to deal with selfishness. The book introduces moral selfishness as the tool to heal our sick planet. Following moral selfishness will promote intelligence and cooperation among the people of the world. It will bring a paradise to our planet. The book is full of original ideas.

Political Animals offers a unique study and perspective on the relationship between politics and the art found in American zoos and aquariums. Jesse Donahue and Erik Trump examine the ways that zoos and aquariums have successfully served as sculptural gardens for the masses and have incorporated art and architecture that convey political messages about both the patrons and the animals. This book demonstrates how art has been used for a range of economic and political purposes including providing jobs, a medium to reach out to minority interest groups, a fundraising tool, and a surrogate for the animals themselves. Donahue and Trump skillfully analyze and compare zoos to other areas of public art to highlight the calculated strategies on the part of the zoos that have incorporated a range of artistic styles for different audiences. Incorporating photographs of zoo and aquarium art from around the country, Political Animals is an exciting and captivating text for the mind and eye.

"A great public service--critical for our time." --Bandy X. Lee, M.D., M.Div., Yale psychiatrist, expert on violence, and editor of The Dangerous Case of Donald Trump The New York Times-bestselling author of Bush on the Couch shows that Donald Trump is mentally and emotionally unfit to execute the duties of President. No president in the history of the United States has inspired more alarm and confusion than Donald Trump. As questions and concerns about his decisions, behavior, and qualifications for office have multiplied, they point to one primary question: Does he pose a genuine threat to our country? The American Psychiatric Association's Goldwater Rule constrains psychiatrists from offering diagnoses on public figures who are not patients and who have not endorsed such statements. But in Trump on the Couch Clinical Professor of Psychiatry Justin A Frank invokes the moral responsibility that compels him to speak out and present a full portrait of a man who presents us with a clear and present danger. Using observations gained from a close study of Trump's patterns of thought, action, and communication, Dr. Frank uncovers a personality riddled with mental health issues. His analysis is filled with important revelations about our nation's leader, including disturbing insights into his childhood, his family, his business dealings, and his unusual relationship with alternative facts, including how

- The absence of a strong maternal force during childhood has led to Trump's remarkable lack of empathy and disregard for women's boundaries;
- His compulsion to polarize America has grown out of the way he perceives the world as full of deceitful and destructive persecutors;
- His inability to tolerate the pain of frustration has triggered his belief that omnipotence will finally remove it;
- His idiosyncratic use of language points to larger issues than even his tweets might suggest.

With our country itself at stake, Dr. Frank calls attention to the underlying narcissism, misogyny, deception, and racism that drive the President who endangers it. A penetrating examination of how we as a nation got here and, more important, where we are going, Trump on the Couch sounds a call to action that we cannot ignore.

A tantalizing, droll study of the idiosyncratic existence of the very rich, through the unexpected lens of the naturalist. Journalist Richard Conniff probes the age-old question "Are the rich different from you and me?" and finds that they are indeed a completely different animal. He observes with great humor and finesse this socially unique species, revealing their strategies for ensuring dominance and submission, their flourishes of display behavior, the intricate dynamics of their pecking order, as well as their unorthodox mating practices. Through comparisons to other equally exotic animals, Conniff uncovers surprising commonalities. • How did Bill Gates achieve his single greatest act of social dominance by being nice? • How does the flattery of the rich resemble the grooming behavior of baboons? • What made the British aristocracy the single most successful animal dominance hierarchy in the history of the planet? • How does Old Money's disdain for the nouveaux riches resemble the pig-grunting of mountain gorillas? This marvelously entertaining field guide captures in vivid detail the behaviors and habitats of the world's most captivating yet elusive animal.

narrative of the 2016 campaign from its origins in the far fringes of right-wing politics and reality television to its culmination inside Trump's penthouse on election night.

House of Lost Worlds

Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own hap-hazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.

ON TOP OF THE WORLD ... IN A HOUSE OF CARDS The tabloids tracked his every move. The business magazines predicted his demise. And the public couldn't get enough. But the only people privy to Donald Trump's real story were the members of his inner circle—men such as Jack O'Donnell, a top executive at Atlantic City's Trump Plaza Casino until April, 1990. For three years O'Donnell witnessed the goings-on in the House of Trump that the people only guessed at. Now he reveals what he saw. Here's the inside story of Trump's legendary tirades, his convenient forgetfulness, and the infamous Donald Trump ego. O'Donnell tells how the Plaza staff catered to Trump's personal whims, and to those of his mistress—and how the man who built the largest gambling hall in the world knew little about running a casino. From the hypocrisy, bad deals, and the monumental debt to the untold tales of Marla and Ivana, *Trumped!* rips the mask off the mighty Trump facade—revealing a man whose castle is about to collapse.

THE INSTANT NEW YORK TIMES BESTSELLER "Sims's vivid portrait of Trump shrewdly balances admiration with misgivings, and his intricate, engrossing accounts of White House vendettas and power plays have a good mix of immersion and perspective. The result is one of the best of the recent flood of Trump tell-alls." —Publishers Weekly The first honest insider's account of the Trump administration. If you hate Trump you need the truth; if you love Trump you need the truth. After standing at Donald Trump's side on Election Night, Cliff Sims joined him in the West Wing as Special Assistant to the President and Director of White House Message Strategy. He soon found himself pulled into the President's inner circle as a confidante, an errand boy, an advisor, a punching bag, and a friend. Sometimes all in the same conversation. As a result, Sims gained unprecedented access to the President, sitting in on private meetings with key Congressional officials, world leaders, and top White House advisors. He saw how Trump handled the challenges of the office, and he learned from Trump himself how he saw the world. For five hundred days, Sims also witnessed first-hand the infighting and leaking, the anger, joy, and recriminations. He had a role in some of the President's biggest successes, and he shared the blame for some of his administration's worst disasters. He gained key, often surprising insights into the players of the Trump West Wing, from Jared Kushner and John Kelly to Steve Bannon and Kellyanne Conway. He even helped Trump craft his enemies list, knowing who was loyal and who was not. And he took notes. Hundreds of pages of notes. In real-time. Sims stood with the President in the eye of the storm raging around him, and now he tells the story that no one else has written—because no one else could. The story of what it was really like in the West Wing as a member of the President's team. The story of

Few were a member of Donald Trump’s inner orbit longer than Omarosa Manigault Newman. Their relationship spanned fifteen years—through four television shows, a presidential campaign, and a year by his side in the most chaotic, outrageous White House in history. The Washington Post’s Pulitzer Prize-winning book critic uses the books of the Trump era to argue that our response to this presidency reflects the same failures of imagination that made it possible. As a book critic for The Washington Post, Carlos Lozada has read some 150 volumes claiming to diagnose why Trump was elected and what his presidency reveals about our nation. Many of these, he’s found, are more defensive than incisive, more righteous than right. In *What Were We Thinking*, Lozada uses these books to tell the story of how we understand ourselves in the Trump era, using as his main characters the political ideas and debates at play in America today. He dissects works on the white working class like *Hillbilly Elegy*; manifestos from the anti-Trump resistance like *On Tyranny* and *No Is Not Enough*; books on race, gender, and identity like *How to Be an Antiracist* and *Good and Mad*; polemics on the future of the conservative movement like *The Corrosion of Conservatism*; and of course plenty of books about Trump himself. Lozada’s argument is provocative: that many of these books—whether written by liberals or conservatives, activists or academics, Trump’s true believers or his

harshest critics—are vulnerable to the same blind spots, resentments, and failures that gave us his presidency. But Lozada also highlights the books that succeed in illuminating how America is changing in the 21st century. *What Were We Thinking* is an intellectual history of the Trump era in real time, helping us transcend the battles of the moment and see ourselves for who we really are.

Devil's Bargain

Volume I examined the policies and actions in the Eisenhower, Kennedy, and Johnson administrations that contributed to the creation of anti-American grievances which in turn fueled the rise of anti-American terrorism overseas and domestically during the Nixon, Ford, and Carter administrations. Volume II chronicles the high-water mark of anti-American terrorism overseas that occurred during the Reagan administration. The litany of terrorist attacks on US targets overseas during this period is well known and unmatched in American history: 1983 suicide attack on US Embassy Beirut, 1983 suicide attack on US Marine Barracks Beirut, 1983 suicide attack on US Embassy Kuwait, 1984 suicide attack on US Embassy Beirut, 1985 assault on the TWA counter at Rome airport, 1985 hijacking of TWA 847, 1986 mid-air bombing of TWA 840, 1988 mid-air bombing of Pan Am 103, and the 1982-1988 kidnappings of 18 Americans in Lebanon. This wave of anti-American terrorist attacks demanded an appropriate response. The Reagan administration proceeded to construct the most ambitious and costly counter-terrorism program in the pre-9/11 era. Although the terrorist threat was perceived to be in decline during the George H W Bush administration, it still had to deal with the potential terrorist threat emanating from the first Gulf War in 1990-1991, two assassination attempts on the president, and the ramifications of the Pan Am 103 bombing.

In *Raising Trump*, Ivana Trump reflects on her extraordinary life and the raising of her three children—Donald Jr., Eric, and Ivanka—and recounts the lessons she taught her children as they were growing up. As her former husband takes his place as the 45th President of the United States, his children have also been thrust into the media spotlight—but it is Ivana who raised them and proudly instilled in them what she believes to be the most important life lessons: loyalty, honesty, integrity, and drive. *Raising Trump* is a non-partisan, non-political book about motherhood, strength, and resilience. Though Ivana writes about her childhood in communist Czechoslovakia, her escape from the regime and relocation to New York, her whirlwind romance, and her great success as a businesswoman, the focus of the book is devoted to Ivana's raising of her children. Donald Trump Jr., Eric Trump, and Ivanka Trump will all contribute their own memories to the book. “Every day, people ask me how I raised such great kids. cutting-edge research in neuroscience, evolutionary psychology, and behavioral psychology, he explains that evolution has left us with a brain wired for the Stone Age. While these ancient instincts often work to our advantage in our personal lives, in politics they usually don't. Modern cues set off ancient instinctive responses that prompt us to behave in ways contrary to the good governance of our nation. Shenkman illuminates not only the curious habits of the American voter today but also the ways in which voter biases have shaped American political history from the shark attacks that got Woodrow Wilson elected to the people who still defend Richard Nixon against the Watergate charges. In so doing, Shenkman probes the depths of the human mind to reveal what we must do to fix our floundering democracy.

Alasdair Cochrane introduces an entirely new theory of animal rights grounded in their interests as sentient beings. He then applies this theory to different and underexplored policy areas, such as genetic engineering, pet-keeping, indigenous hunting, and religious slaughter. In contrast to other proponents of animal rights, Cochrane claims that because most sentient animals are not autonomous agents, they have no intrinsic interest in liberty. As such, he argues that our obligations to animals lie in ending practices that cause their suffering and death and do not require the liberation of animals. Cochrane's "interest-based rights approach" weighs the interests of animals to determine which is sufficient to impose strict duties on humans. In so doing, Cochrane acknowledges that sentient animals have a clear and discernable right not to be made to suffer and not to be killed, but he argues that they do not have a prima facie right to liberty. Because most animals possess no interest in leading freely chosen lives, humans have no moral obligation to liberate them. Moving beyond theory to the practical aspects of applied ethics, this pragmatic volume provides much-needed perspective on the realities and responsibilities of the human-animal relationship.

Trumped!

One of the Top 10 Politics and Current Events Books of Fall 2019 (Publishers Weekly) An incisive cultural history that captures a fractious nation through the prism of television and the rattled mind of a celebrity president. Television has entertained America, television has ensorcelled America, and with the election of Donald J. Trump, television has conquered America. In Audience of One, New York Times chief television critic James Poniewozik traces the history of TV and mass media from the Reagan era to today, explaining how a volcanic, camera-hogging antihero merged with America's most powerful medium to become our forty-fifth president. In the tradition of Neil Postman's masterpiece Amusing Ourselves to Death, Audience of One shows how American media have shaped American society and politics, by interweaving two crucial stories. The first story follows the evolution of television from the three-network era of the 20th century, which joined millions of Americans in a shared monoculture, into today's zillion-channel, Internet-atomized universe, which sliced and diced them into fractious, alienated subcultures. The second story is a cultural critique of Donald Trump, the chameleonic celebrity who courted fame, achieved a mind-meld with the media beast, and rode it to ultimate power. Braiding together these disparate threads,

Poniewozik combines a cultural history of modern America with a revelatory portrait of the most public American who has ever lived. Reaching back to the 1940s, when Trump and commercial television were born, Poniewozik illustrates how Donald became “a character that wrote itself, a brand mascot that jumped off the cereal box and entered the world, a simulacrum that replaced the thing it represented.” Viscerally attuned to the media, Trump shape-shifted into a boastful tabloid playboy in the 1980s; a self-parodic sitcom fixture in the 1990s; a reality-TV “You’re Fired” machine in the 2000s; and finally, the biggest role of his career, a Fox News-obsessed, Twitter-mad, culture-warring demagogue in the White House. Poniewozik deconstructs the chaotic Age of Trump as the 24-hour TV production that it is, decoding an era when politics has become pop culture, and vice versa. Trenchant and often slyly hilarious, Audience of One is a penetrating and sobering review of the raucous, raging, farcical reality show—performed for the benefit of an insomniac, cable-news-junkie “audience of one”—that we all came to live in, whether we liked it or not.
