Our Heroes

We all sell something for a living--whether it's a brand, a vision, an education, a direction, or a service. We might even be selling a set of numbers to a board meeting, learning to a student, or cereal to an infant. This eye-opening parable is about harnessing natural energy--yours and that of those around you--in order to take your sales, and your satisfaction to the next level of success. In *Top Performer*, you'll meet Jim, a disciplined but uninspired sales manager. In London on vacation--his first in years--he meets a gentleman named Top Hat. In an engrossing conversation, Top Hat tells him about a legendary Dublin busker/street performer called the Rat Catcher, who engages his audience and effortlessly charms them into parting easily with their change. Top Hat then gives Jim an envelope to bring to the Rat Catcher as a form of introduction. Jim is incredulous, and even a bit suspicious. But after a trip back home, he's willing to do anything to break out of his rut of good-to-average sales and dogged but unfulfilling perseverance. Jim travels to Dublin, where the Rat Catcher tells--and shows--him some surprising secrets of his work ethic and his selling style. Jim ultimately realizes that he needs to Claim the Pitch, Mine the Mess, Choose the Close, and, most importantly, Juice the Jam. When Jim returns home, he's re-energized, having learned how to Build a Circle and Pass the Hat where it really counts--in his life, his relationships, and his workplace. Full of action-packed and sometimes hilarious descriptions of the real life adventures of street performer, this engaging metaphor will appeal to anyone in any position--and in any field, from banking to baking to busking. In the tradition of the bestselling *Fish!* series this is a deceptively simple story that contains profound advice--advice that will help make readers into *Top Performer* themselves.

The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. Two kids named Wes Moore were born blocks apart within a year of each other. Both grew up fatherless in similar Baltimore neighborhoods and had difficult childhoods; both hung out on street corners with their crews; both ran into trouble with the police. How, then, did one grow up to be a Rhodes Scholar, decorated veteran, White House Fellow, and business leader, while the other ended up a convicted murderer serving a life sentence? Wes Moore, the author of this fascinating book, sets out to answer this profound question. In alternating narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world. **BONUS:** This edition contains a new afterword and a *The Other Wes Moore* discussion guide. Praise for *The Other Wes Moore* “Moving and inspiring, *The Other Wes Moore* is a story for our times.”—Alex Kotlowitz, author of *There Are No Children Here* “A tense, compelling story and an inspirational guide for all who care about helping young people.”—Juan Williams, author of *Enough* “This should be required reading for anyone who is trying to understand what is happening to young men in our inner cities.”—Geoffrey Canada, author of *Fist Stick Knife Gun* “*The Other Wes Moore* gets to the heart of the matter on faith, education, respect, the hard facts of incarceration, and the choices and challenges we all face. It’s educational and inspiring.”—Ben Carson, M.D., author of *Gifted Hands* “Wes Moore is destined to become one of the most powerful and influential leaders of this century. You need only read this book to understand why.”—William S. Cohen, former U.S. senator and secretary of defense “This intriguing narrative is enlightening, encouraging, and empowering. Read these words, absorb their meanings, and create your own plan to act and leave a legacy.”—Tavis Smiley, from the Afterword

In 1998, Jacob Lief, a 21-year-old American university student, met school teacher Malizole "Banks" Gwaxula in a township tavern in Port Elizabeth, South Africa. After bonding over beers and a shared passion for education, Gwaxula invited Lief to live with him in the township. Inspired by their fortuitous meeting--which brought together two men separated by race, nationality, and age--and by the spirit of ubuntu, roughly translated as "I am because you are", the two men embarked on an unexpectedly profound journey. Their vision? To provide vulnerable children in the townships with what every child deserves--everything. Today, their organization, Ubuntu Education Fund, is upending conventional wisdom about how to break the cycle of poverty. Shunning traditional development models, Ubuntu has redefined the concept of scale, focusing on how deeply it can impact each child's life rather than how many it can reach. Ubuntu provides everything a child needs and deserves, from prenatal care for pregnant mothers to support through university--essentially, from cradle to career. Their child-centered approach reminds us that one's birthplace should not determine one's future. *I Am Because You Are* sets forth an unflinching portrayal of the unique rewards and challenges of the nonprofit world while offering a bold vision for a new model of development.

No Future Without Forgiveness

Books about people who have survived an horrific event are not uncommon, but they are usually focused on one person and on how he/she survived as opposed to how he/she carried on with their lives together after the event. It is uncommon to find a collection of survivor stories written by people who have not only survived trauma but who have regrouped and gone on to bigger and better things.

Transformation is a collection of stories about individuals who have survived horrific events and somehow found a way to turn their lives around, overcoming tragedy to thrive and rebuild a new, worthwhile life. The use of multiple stories allows the book to connect with readers across a wider platform than might be true if the book focused on one person's life. Each contributor tells his/her story in a chapter, and then Tim comments at the end of that chapter, analysing the life story from a psychological perspective and giving readers 'take home tips' which they can use in their own lives. The contributors tell about overcoming tragedies and health issues such as alcoholism, depression and cancer; limb amputation following a car accident; a policeman's recovery from post-traumatic stress; the death of a child; losing all the other members of your family in a family murder; and child sexual abuse.

The establishment of South Africa's Truth and Reconciliation Commission was a pioneering international event. Never had any country sought to move forward from despotism to democracy both by exposing the atrocities committed in the past and achieving reconciliation with its former oppressors. At the center of this unprecedented attempt at healing a nation has been Archbishop Desmond Tutu, whom President Nelson Mandela named as Chairman of the Truth and Reconciliation Commission. With the final report of the Commission just published, Archbishop Tutu offers his reflections on the profound wisdom he has gained by helping usher South Africa through this painful experience. In *No Future Without Forgiveness*, Tutu argues that true reconciliation cannot be achieved by denying the past. But nor is it easy to reconcile when a nation "looks the beast in the eye." Rather than repeat platitudes about forgiveness, he presents a bold spirituality that recognizes the horrors people can inflict upon one another, and yet retains a sense of idealism about reconciliation. With a clarity of pitch born out of decades of experience, Tutu shows readers how to move forward with honesty and compassion to build a newer and more humane world.

The Girl who Buried Her Dreams in a Can

As you travel Africa, you will find the way of ubuntu – the universal bond that connects all of humanity as one. At the age of twenty-eight, while sitting in a friend's backyard in the remote mining township of Jabiru, Heather Ellis has a light-bulb moment: she is going to ride a motorcycle across Africa. The idea just feels right – no matter that she's never done any long-distance motorcycle travelling before, and has never even set foot on the African continent. Twelve months later, Heather unloads her Yamaha TT600 at the docks in Durban, South Africa, and her adventure begins. Her travels take her to the dizzying heights of Mt Kilimanjaro and the Rwenzori Mountains, to the deserts of northern Kenya where she is befriended by armed bandits and rescued by Turkana fishermen, to a stand-off with four Ugandan men intent on harm, and to a voyage on a 'floating village' on the mighty Zaire River. Everywhere she goes Heather is aided by locals and travellers alike, who take her into their homes and hearts, helping her to truly understand the spirit of ubuntu – a Bantu word meaning 'I am because you are'. Ubuntu is the extraordinary story of a young woman who, alone and against all odds, rode a motorcycle to some of the world's most remote, beautiful and dangerous places.

“At the core, Hit Refresh, is about us humans and the unique quality we call empathy, which will become ever more valuable in a world where the torrent of technology will disrupt the status quo like never before.” – Satya Nadella from Hit Refresh “Satya has charted a course for making the most of the opportunities created by technology while also facing up to the hard questions.” – Bill Gates from the Foreword of Hit Refresh The New York Times bestseller Hit Refresh is about individual change, about the transformation happening inside of Microsoft and the technology that will soon impact all of our lives—the arrival of the most exciting and disruptive wave of technology humankind has experienced: artificial intelligence, mixed reality, and quantum computing. It's about how people, organizations, and societies can and must transform and “hit refresh” in their persistent quest for new energy, new ideas, and continued relevance and renewal. Microsoft's CEO tells the inside story of the company's continuing transformation, tracing his own personal journey from a childhood in India to leading some of the most significant technological changes in the digital era. Satya Nadella explores a fascinating childhood before immigrating to the U.S. and how he learned to lead along the way. He then shares his meditations as a sitting CEO—one who is mostly unknown following the brainy Bill Gates and energetic Steve Ballmer. He tells the inside story of how a company rediscovered its soul—transforming everything from culture to their fiercely competitive landscape and industry partnerships. As much a humanist as engineer and executive, Nadella concludes with his vision for the coming wave of technology and by exploring the potential impact to society and

As defined by Archbishop Desmond Tutu, a person with Ubuntu is open and available to others, affirming of others, does not feel threatened that others are able and good, for he or she has a proper self-assurance that comes from knowing that he or she belongs in a greater whole and is diminished when others are humiliated or diminished, when others are tortured or oppressed. The African spiritual principle of Ubuntu offers believers a new and radical way of reading the Gospel and understanding the heart of the Christian faith, and this new book explores the meaning and utility of Ubuntu as applied to Western philosophies, faith, and lifestyles. Ubuntu is an African way of seeing self-identity formed through community. This is a difficult worldview for many Western people, who understand self as over, against, or in competition with others. In the Western viewpoint, Ubuntu becomes something to avoid—a kind of codependency. As a Christian leader who understands the need, intricacies, and delicate workings of global interdependency, Battle offers here both a refreshing worldview and a new perspective of self-identity for people across cultures, and of all faiths.

Winner of a 2017 NAACP Image Award for Outstanding Literary Work, this moving manifesto “empowers women to access a fearlessness that will enable community progress” (Essence). Through one incredible woman’s journey from a small Zimbabwe village to becoming one of the world’s most recognizable voices in women’s empowerment and education, this book “can help any woman achieve her full potential” (Kirkus Reviews). Before Tererai Trent landed on Oprah’s stage as her “favorite guest of all time,” she was a woman with a forgotten dream. As a young girl in a cattle-herding village in Zimbabwe, she dreamed of receiving an education but instead was married young and by eighteen, without a high school graduation, she was already a mother of three. Tererai encountered a visiting American woman who assured her that anything was possible, reawakening her sacred dream. Tererai planted her dreams deep in the earth and prayed they would grow. They did, and now not only has she earned her PhD but she has also

built schools for girls in Zimbabwe, with funding from Oprah. The Awakened Woman: A Guide for Remembering & Igniting Your Sacred Dreams is her accessible, intimate, and evocative guide that teaches nine essential lessons to encourage all women to reexamine their dreams and uncover the power hidden within them—power that can recreate our world for the better. Tererai points out that there is a massive, untapped, global resource in women who have, for one reason or another, set aside their wisdom, their skills, and their dreams in order to take care of the personal business of their lives. Not only is this a type of invisible suffering experienced by countless women, this rich resource is a secret weapon for improving our world. Women have the capacity to inspire, to create, to transform—and Tererai's call to action “shines as a beacon of hope to women everywhere” (Danica McKellar, actress and New York Times bestselling author).

I Am Because You Are

Timeless On The Silk Road is a travel memoir based on one woman's solo motorcycle odyssey along the fabled Silk Roads of antiquity. Faced with her mortality, this is a profoundly confronting tale of life and death. An evocative journey of courage, hardship and immense beauty of landscape and culture, Heather brings to life every character she meets along the way. She pays homage to the fallen ANZACs; crosses oil-rich Azerbaijan and the Caspian Sea. In Turkmenistan and Uzbekistan, she enters the ancient world of Islam, then rides over the high snow-capped mountain passes to the lush valleys of Kyrgyzstan where the nomads take her into their yurts and their hearts. She becomes lost in the vastness of the birch forests of Kazakhstan's Altai Mountains where she is rescued by Russian mountain men. And in China, she is repeatedly told there will soon be a new world order. Timeless On The Silk Road is essentially the story of one woman's last adventure; her one last search for meaning as she navigates the pendulum of denial and hope: depression and faith. But it is through this search that the narrative is infused with a deep spiritual power leaving the reader questioning their own mortality and leaving them with a deeper understanding of what it means for the millions globally living with HIV; for the newly diagnosed; and for those, without access to effective treatments, continue to die from AIDS. Timeless on the Silk Road is Heather's eagerly anticipated second book and follows Ubuntu: One Woman's Motorcycle Odyssey Across Africa, a travel memoir about a life-changing adventure into the soul of Africa. Published by Black Inc in April 2016 and Illuminatio in Poland in June 2017, Ubuntu has received rave reviews in Australia and internationally, and continues to be listed as a 'Bestseller' in travel on Amazon. Heather has worked as a radiation safety technician, a motorcycle courier in London, a journalist and in communications in international community development. She lives in the Yarra Valley, Australia with her three children. And she still rides motorcycles.

Why is 1001 Ways to Reward Employees, with over 1.4 million copies in print, such an extraordinary bestseller? Because a little over ten years ago Bob Nelson took the seeds of an idea and turned it into something indispensable for business. The idea? That it's not a raise that motivates an employee, and it's not a promotion—what really sparks a person to perform are those intangible,

unexpected gestures that signify real appreciation for a job well done. Now, after having worked with thousands of organizations in the years since *11001 Ways to Reward*. . . was first published, Bob Nelson presents a second edition packed with hundreds of new ideas and examples of how companies are using rewards and recognitions to boost productivity and keep their valued employees happy. Airplane mechanics are rewarded with balloons and pinwheels. Another manager calls his employees' mothers and thanks them for raising such industrious children. There are ideas from the offbeat (The Margarita Award) to the company-wide (a quiet room) to the embarrassingly simple (a hand-written thank you note) to the wacky (the Laugh-a-Day challenge) to the formal (a two-week promotion to special assistant to the president). Each section includes no-cost rewards and low-cost rewards, both public and private, making this new edition an indispensable resource for making the person/achievement/reward equation work.

An instant New York Times bestseller Two spiritual giants. Five days. One timeless question. Nobel Peace Prize Laureates His Holiness the Dalai Lama and Archbishop Desmond Tutu have survived more than fifty years of exile and the soul-crushing violence of oppression. Despite their hardships—or, as they would say, because of them—they are two of the most joyful people on the planet. In April 2015, Archbishop Tutu traveled to the Dalai Lama's home in Dharamsala, India, to celebrate His Holiness's eightieth birthday and to create what they hoped would be a gift for others. They looked back on their long lives to answer a single burning question: How do we find joy in the face of life's inevitable suffering? They traded intimate stories, teased each other continually, and shared their spiritual practices. By the end of a week filled with laughter and punctuated with tears, these two global heroes had stared into the abyss and despair of our time and revealed how to live a life brimming with joy. This book offers us a rare opportunity to experience their astonishing and unprecedented week together, from the first embrace to the final good-bye. We get to listen as they explore the Nature of True Joy and confront each of the Obstacles of Joy—from fear, stress, and anger to grief, illness, and death. They then offer us the Eight Pillars of Joy, which provide the foundation for lasting happiness. Throughout, they include stories, wisdom, and science. Finally, they share their daily Joy Practices that anchor their own emotional and spiritual lives. The Archbishop has never claimed sainthood, and the Dalai Lama considers himself a simple monk. In this unique collaboration, they offer us the reflection of real lives filled with pain and turmoil in the midst of which they have been able to discover a level of peace, of courage, and of joy to which we can all aspire in our own lives.

A roadmap to healing America's wounds, bridging the racial divide, and diminishing our anger. Mathabane touched the hearts of millions of people around the world with his powerful memoir, Kaffir Boy, about growing up under apartheid in South Africa and was praised by Oprah Winfrey and Bill Clinton. In his new book, The Lessons of Ubuntu: How an African Philosophy Can Inspire Racial Healing in America, Mathabane draws on his experiences with racism and racial healing in both Africa and America, where he has lived for the past thirty-seven years, to provide a timely and provocative approach to the search for solutions to America's biggest and most intractable social problem: the divide between the races. In his new book, Mathabane tells what each of us can do to become agents for racial healing and justice by learning how to practice the ten principles of Ubuntu, an African philosophy based on the concept of our shared humanity. The book's chapters on obstacles correlate to chapters on Ubuntu principles: The Teaching of Hatred vs. Empathy Racial Classification vs. Compromise Profiling vs. Learning Mutual Distrust vs. Nonviolence Black Bigotry vs. Change Dehumanization vs. Forgiveness The Church and White Supremacy vs. Restorative Justice Lack of Empathy vs. Love The Myth That Blacks and Whites Are Monolithic vs. Spirituality Self-Segregation: American Apartheid vs. Hope By practicing Ubuntu in our daily lives, we can learn that hatred is not innate, that even racists can change, and that diversity is America's greatest strength and the key to ensuring our future. Concerned by the violent protests on university campuses and city streets, and the killing of black men by the police, Mathabane challenges both blacks and whites to use the lessons of Ubuntu to overcome the stereotypes and mistaken beliefs that we have about each other so that we can connect as allies in the quest for racial justice.

This remarkable biography features a white American pacifist minister whose tireless work for justice and human rights helped reshape Black civil rights in the U.S. and Africa. George M. Houser (1916–2015) was one of the most important civil rights and antiwar activists of the twentieth century. A conscientious objector during World War II, in 1942 Houser cofounded and led the Congress of Racial Equality (CORE), whose embrace of nonviolent protest strategies and tactics characterized the modern American Civil Rights Movement. Beginning in the 1950s, Houser played a critical role in pan-Africanist anticolonial movements, and his more than thirty-year dedication to the cause of human rights and self-determination helped prepare the ground for the toppling of the South African apartheid regime. Throughout his life, Houser shunned publicity, preferring to let his actions speak his faith. Sheila Collins's well-researched biography recounts the events that informed Houser's life of activism—from his childhood experiences as the son of missionaries in the Philippines to his early grounding in the Social Gospel and the teachings of Mohandas Gandhi. In light of the corruption the U.S. and the world face today, Houser's story of faith and decisive action for human rights and social justice is one for our time.
