### **Urban Shots**

Edited by Sneh Thakur, this book brings us stories of love, sex, betrayal, revenge and forgiveness by popular writers like Arunava Sinha, Ira Trivedi, Paritosh Uttam, R. Chandrasekar, Ahmed Faiyaz and Malathi Jaikumar, among many others.

### **The Urban Script**

Action Movies: The Cinema of Striking Back is a study of action cinema, exploring the ethics and aesthetics of the genre with reference to its relatively short history. It moves from seminal classics like Bullitt (1968) and Dirty Harry (1971) through epoch-defining films like Rambo: First Blood Part II (1985) and Die Hard (1988) to revisions, reboots, and renewals in films like Kill Bill Vol. 1 (2003), Taken (2008), and The Expendables (2010). The action genre is a fusion of form and content: a cinema of action about action. It is a cinema of the will, configured as a decisive reaction to untenable circumstances. Action heroes take up arms against the sea of troubles that beset them, safe in the knowledge that if they don't do it, nobody

will. Though this makes the action movie profoundly disturbing as an embodiment of moral ideology, its enduring appeal proves the appetite for assurance remains undiminished, even in the wake of 9/11.

Feminist Auteurs examines a rich and diverse body of work that has received insufficient attention both in film studies and in feminist theory on film. Looking at individual films within the context of feminist film as a genre, Ramanathan examines film from diverse cultural traditions, while paying close attention to what might be regarded as feminist in different cultural contexts. The films chosen expand our ideas of feminism covering as they do film from Africa, Latin America, Europe, Asia and the US. Full-length interpretations of twenty-four films, both older and contemporary, including Vagabond, India Song, Bhaji on the Beach, Chocolat, and Daughters of the Dust lay out a complete and powerful framework for reading women's film.

The urbanization of warfare has necessitated the kind of precision targeting that only small arms can deliver. Weapons not often seen on the battlefield can prove useful, even indispensable, in an urban setting. This expert reference guide examines in detail the most successful small arms in use and how changes in warfare have affected how those weapons are used and have transformed the small arms industry. Professional soldiers, law enforcement officers and students and researchers of small arms will gain a working knowledge of the most common and successful urban combat weapons (including some currently in development).

### **Comparative Urban Research**

The term warrior has two meanings according to the Random House dictionary; the first literal use refers to a person engaged or experienced in warfare. A second figurative use refers to a person who shows or has shown great vigor, courage, or aggressiveness as in politics and athletics. It would naturally include business and most importantly life. In these days and times it is beneficial for a person to be referred to in both ways.

### **The Houston Post**

Urban Shots: Crossroads presents sharply etched portraits of daily life in contemporary Indian cities. These stories range from the lyrical to the devastating and never once flinch at the ugliness which pervades urban India's social tapestry. The heart-warming 'Song of the Summer Bird' is an ode to childhood; 'Gautam Gargoyle' is a searing look at a man's quest to fit in at work; and 'Crossroads' succinctly captures a man's divided affection between his wife and a seductress. Bold, layered and startlingly real, these stories could well be about our own lives. Edited by bestselling author Ahmed Faiyaz, this anthology includes stories by both established writers and by new talent. Never before has the urban world been explored in such minutiae as in Urban Shots: Crossroads.

### **URBAN SHOTS CROSSROADS**

In Urban Exploration Photography: A Guide to Shooting Abandoned Places, photographer Todd Sipes offers a great introduction to "UrbEx" shooting, with its focus on photographing abandoned man-made structures. Sipes begins with a

focused discussion on preparation for this unique genre of photography, including what to bring, both photography-related and other (such as clothes and accessories). Then he dives into the "How to Shoot" chapter, which discusses how composition plays a role in UrbEx photos; the three major shooting styles in UrbEx photography; general guidelines for camera settings and gear; why you should bracket your shots; and how to approach shooting in the dark (including light painting, using flashes and gels, and using an intervalometer). Following that is the "What to Shoot" chapter, where Sipes discusses organic and synthetic elements present in the UrbEx environment (such as overgrowth, graffiti, paint, and machinery), as well as qualities of light to look for when shooting abandoned structures.

### **The Urban Ethnography Reader**

The book is a first attempt to present the Chinese popular blockprint illustration for display, its culture, history and workshops. It shows how it blossomed out in the urban and rural scenes of recent centuries, finally to succumb to nationalism and revolution.

### **Sam Karres, Urban Expressionist**

Winner of The 1963 National Book Award for Fiction. The hero of J.F. Powers's comic masterpiece is Father Urban, a man of the cloth who is also a man of the world. Charming, with an expansive vision of the spiritual life and a high tolerance for moral ambiguity, Urban enjoys a national reputation as a speaker on the religious circuit and has big plans for the future. But then the provincial head of his dowdy religious order banishes him to a retreat house in the Minnesota hinterlands. Father Urban soon bounces back, carrying God's word with undaunted enthusiasm through the golf courses, fishing lodges, and backyard barbecues of his new turf. Yet even as he triumphs his tribulations mount, and in the end his greatest success proves a setback from which he cannot recover. First published in 1962, *Morte D'Urban* has been praised by writers as various as Gore Vidal, William Gass, Mary Gordon, and Philip Roth. This beautifully observed, often hilarious tale of a most unlikely Knight of Faith is among the finest achievements of an author whose singular vision assures him a permanent place in American literature.

### **The Urban Mission Anticipated**

The Routledge Encyclopedia of Films comprises 200 essays by leading film scholars analysing the most important, influential, innovative and interesting films of all time. Arranged alphabetically, each entry explores why each film is significant for those who study film and explores the social, historical and political contexts in which the film was produced. Ranging from Hollywood classics to international bestsellers to lesser-known representations of national cinema, this collection is deliberately broad in scope crossing decades, boundaries and genres. The encyclopedia thus provides an introduction to the historical range and scope of cinema produced throughout the world.

### **Police Brutality in Urban Brazil**

The present studies focus on the changing regional-spatial structure of Switzerland. When describing contemporary settlement structures, it is becoming increasingly necessary to dispense with the categories of "town" and "country." We live in a collage of urban, suburban and rural elements which, together, form a dense multi-core patchwork of different agglomerations. This development presents Switzerland with a number of difficult political problems. Solving them will be quite a challenge, especially to the institutional framework of Swiss federalism. The contributions and case studies provide an up-to-date inventory which embraces urban development, sociological, geographical and economic trends. In addition, the renowned Dutch architect's office MVRDV, which is known for its non-conformist conceptions and work, has drafted a spatial vision for Switzerland from an outsider's point of view.

### **Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4**

#### **Protest and the Urban Guerrilla**

This is a cutting-edge anthology that captures current South African popular culture. The feel is more Martin Amis than Andre Brink, Irvin Welsh than J.M. Coetzee. From a cross-section of young South African writers, these stories present an immediate vision of life in urban South Africa.

#### **Urban-Scape Switzerland**

Urban ethnography is the firsthand study of city life by investigators who immerse themselves in the worlds of the people about whom they write. Since its inception in the early twentieth century, this great tradition has helped define how we think about cities and city dwellers. The past few decades have seen an extraordinary revival in the field, as scholars and the public at large grapple with the increasingly complex and pressing issues that affect the ever-changing American city--from poverty to the immigrant experience, the changing nature of social bonds to mass incarceration, hyper-segregation to gentrification. As both a method of research and a form of literature, urban ethnography has seen a notable and important resurgence. This renewed interest demands a clear and comprehensive understanding of the history and development of the field to which this volume contributes by presenting a selection of past and present contributions to American urban ethnographic writing. Beginning with an original introduction highlighting the origins, practices, and significance of the field, editors Mitchell Duneier, Philip Kasinitz, and Alexandra Murphy guide the reader through the major and fascinating topics on which it has focused -- from the community, public spaces, family, education, work, and recreation, to social policy, and the relationship between ethnographers and their subjects. An indispensable guide, *The Urban Ethnography Reader* provides an overview of how the discipline has grown and developed while offering students and scholars a selection of some of the finest social scientific writing on the life of the modern city.

Digital Arts presents an introduction to new media art through key debates and theories. The volume begins with the historical contexts of the digital arts, discusses contemporary forms, and concludes with current and future trends in distribution and archival processes. Alongside case studies that illustrate contemporary research in the fields of digital arts, reflections and questions provide opportunities for readers to explore relevant terms, theories and examples. Consistent with the other volumes in the New Media series, a bullet-point summary and a further reading section enhance the introductory focus of each chapter.
